Presbyterian church - church by the River

Continued - From the pages of History....

Did you know that the Church By the River was the most recent church established in Carver? The seed that this organization grew from was planted in 1893 when a non-demoninational Sunday School was started.

"Reverend A. W. Benson occasionally held preaching services for this group. In 1897, Reverend John Ferguson, pastor of the Shakopee Presbyterian Church was engaged to preach at Carver on alternate Sunday evenings, receiving as compensation all plate collections. At times, even in bad and muddy weather, he walked from Shakopee, rather than disappoint his congregation. His services were faithfully attended by a small group until he transferred in 1899. In May of 1899, Benjamin Weld, a theological student came and spent the summer taking charge of services. He was instrumental in the establishment of a Presbyterian Church in the village.

"On Sunday, August 27, 1899 at an afternoon service, the church was organized. The organization service was held in the little Methodist Church on Fourth Street....which was filled to its capacity...ceremony of receiving charter members. It may be said here also that Dr. Thayer was one of the first ministers who proclaimed the Gospel in this portio of the Minnesota Valley.

"In 1904 only four members remained....In view of all the discouragements, it seemed as though the Carver Presbyterian Church was dead indeed, except in the hearts of the four remaining charter members." [History repeating itself????]

"However in the fall of 1911, after a lapse of nearly eight years, there was interest in reorganizing the church. It seemed that it was not dead after all, only dormant, and now sprang into new life.... Many new members were received and there was immediate interest shown in the building of a new church.

"On April 9, 1912, the Presbyterian Chruch was declared fully organized. Mrs. Hilma Windstrand was elected secretary. She became influential in starting the project of a bulding." *3

*3 "The Carver Story" - Lucie Hartley

Carver-on-the-Minnesota

On March 10th at the Carver House Antiques various individuals gathered to hold their meeting. Jeff Siegel gave a synopsis of the discussion from the previous meeting to acquaint newcomers with the direction of the organization.

Appointment of board members was conducted. The completed board is as follows:

Robin Cashuba	Jeff Siegel
Vicki Orvick	Dorothy Siegel
Kari Rice	Randy Hermann
Sandy Scheftner	and
Barb Hanson	George Piper

Pam Larson will send out reminders for the upcoming meetings. Memberships were discussed. Tentative membership fee ideas: Full Membership, there will be a $ 10 per year fee, Associate Member established at $ 5 per year and finally the Volunteer Member who will substitute volunteer help rather than money. All members are welcome.

SteamBoat Days was briefly talked about. The Carver-On-The-Minnesota would like to participate and help. There will be a SteamBoat meeting on April 13th at the Village Hall.

Assessment Abatement for sewer and water was talked about. In so far as to inquire whether or not the organization is eligible for the program.

The next meeting for the Carver-On-The-Minnesota will be April 14th at 7:00 PM at the Carver House Antiques. **Don't Forget!!**

Announcement

Bloodmobile

The Bloodmobile will be in the area on May 25th. Times and locations will be printed in the April issue. Donation of blood last year was greatly appreciated and apologies extended for the inconvenience of the wait. This problem is being worked on so that it does not reoccur this year. Watch for future information and keep this date open.

Notice
Public Hearing

The City Council of Carver will hold a public hearing on April 4th, 1988 at 7:00 PM in the Carver City Hall.

The purpose of the hearing is to discuss the revisions to the City's Assessment Abatement Program.

All those interested are encouraged to attend and comment. Written comments may be submitted to the City Clerk.

The City of Carver will hold a Public Hearing on April 4th, 1988 at 7:30 PM regarding discussion of proposed future sewer and water connection, Ordinance # 252. All interested are encouraged to attend and comment. Written comments may be submitted to the City Clerk.

The Board of Reveiw of the City of Carver will meet at the Village Hall at 7:30 PM on Monday, April 11th, 1988 to review and correct the assessments for the year of 1988. All persons considering themselves aggrieved by assessment, or who wish to express opinions of properties assessed too low, are notified to attend and show cause of having these assessments corrected.

Sixth Street

Frey told the council on March 7th that there has not been any work done on Sixth Street due to frost. Concern was expressed regarding water run-off. Frey was to check area. Suggestions was made to dig a ditch to divert this run-off.

Gilfillan Avenue

On March 7th Gilfillan Avenue was discussed. Past agreement indicates that maintenance of the road by the property owners existed. However, the city attorney's opinion was that the road was the city's responsibility. Maintenance is difficult due to the condition of the road. Upgrade was suggested and assessment to adjacent property owners or to vacate the road. Vacation was not a viable alternative because it would landlock property owners. City Administrator was directed to inquire about adverse possession, such as if the land is used as their private property for a number of years, do they gain possession of the land? Council also requested that the attorney attend the meeting to discuss the road and answer questions.

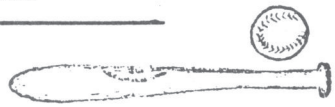

CDBG Update

Knudson, of HRA reviewed the revised Assessment Abatement procedures on March 7th. Mayor Meyers stated that the draft looked good. The only change involves individuals who would have been eligible in 1986. A copy of the drafted revision was forwarded to DTED [Department Trade and Economic Development], but a reply had not been received. A Public Hearing was scheduled for the April meeting. Motion was made and carried with three ayes [two absent] to hold a Public Hearing on the revised Assessment Abatement Procedures.

Council was told that the gas line had been disconnected to the last house purchased in the floodway. The Fire Department has indicated that they will demolish this structure in April.

Pay request pertaining to sewer and water connection program was submitted and accepted by motion.

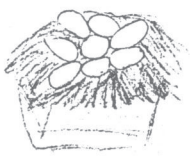

Park Complex

Citizen was present at the March seventh meeting to discuss the progress of the new community park development. It was thought that this work was to have been started last fall and that the Park and Recreation Board was to be re-organized. However, neither had occurred. Citizen was told that the Black Sox would be working on this project. Frey commented that it was recently learned that the National Guard would not be landscaping, as previously believed. Council requested that the Park and Recreation Board be scheduled on the agenda for April for discussion.

Audit Proposal

City Administrator Spiotta reviewed the list of audit proposals received at the March seventh meeting. Five proposals were received. Motion was made and carried with three ayes accepting the proposal submitted by Gary Lundeen Company in the amount of $ 2,500.

Water and Sewer Improvements

Frey told the council on March 7th about complaints received regarding the replacement of rock and gravel that had been removed from driveways and alleys. Hydro Engineering commented that the grant had been finalized and amounts determined. The material had been a bid item. If more were hauled, then the process would have to be gone through with Maier Stewart. The City Administrator was directed to contact Maier Stewart.

Councilman Briggs brought to Frey's attention the topic of a culvert beginning to surface. More rock should be added since settling had occurred. More rock was also needed on the Mt Hope Road.

Citizen had expressed concern regarding erosion from water run-off due to the utility project. Frey was to check into the issue.

Austin Huffman of Hydro Engineering was questioned about replacement of rock on the driveways, since more rock was necessary in several areas. He stated that there were several items they have not been paid for. His recommendation was to wait and see what the situation is in approximately two weeks. Motion was then made and carried with three ayes to table the change order regarding the summary, in order to determine if more gravel and rock are necessary before a reduction is authorized.

Motion was made and carried with three ayes to table signing the Certificate of Substantial Completion for the sewer and water projects.

Motion was made to approve pay request to Hydro Engineering, carrying with three ayes.

A drafted ordinance regarding future sewer and water connection fees was presented to the council. Councilman Briggs said this ordinance should be reviewed at the scheduled Public Hearing.

Council did not take any action on Maier Stewart's amendment to Step III Engineering contract.

Village Hall

Jeff Feltmann was present on March 7th to discuss the use of the Village Hall for basketball on Tuesday evenings. He said that the group utilizing the hall would pay for the damage incurred.

Inquiry was made regarding beer and cigarettes. Admission of presence of beer was made, but pop and gatoraid was consumed mostly. Since minors were present, it was considered that no alcohol should be allowed. Council's primary concern was that there not be any damage Heat was also discussed. Permission to use the hall was granted with the condition that there not be any alcohol on the premises.

Munitech, Inc.

Polson, Munitech's representative told the council on March 7th that the plastic portions in the step stations, along County Road # 40 have been replaced with aluminum. He expressed his concern regarding the PVC conduit utilized for electrical wiring. There is concern about water leakage where broken. Suggestion was made to forward a letter to the engineers requesting their evaluation of the situation. An electrician has commented that he could 'fix' the problem. Clarification on the definition of 'fix it' was questioned. The City Administrator was directed to forward a letter to Maier Stewart.

Tri-State is preparing a list for spare parts that the city should have in stock for the step stations.

Water tower has been overflowing on occasion. Munitech is working on finding the cause.

Addition of polyphosphate in the water has been discussed in the past. Request was made to obtain costs on the equipment and operation of this system for the council's review.

Department of Health has sent a notice regarding the hazard of lead in the water caused by plumbing. Notification to residents was in order. This notice was to be included with the notice of a Public Hearing via mail. This notice was also to be placed on bulletin boards.

Several disputes have arisen due to the municipal utilities projects. One party was present at the meeting. However, resolution could not be resolved because all of the involved parties were not present.

Another citizen presented questions regarding bill received regarding pumping of the septic tank. Several other citizens present also had similar situations and the question was answered and resolved.

Quote submitted by Norwood Electric for a battery back-up alarm system for the main sewer lift station was discussed. A portable generator also would be available to operate the lift station in the case of a power failure. Motion was made and carried with three ayes to approve purchase of the back-up alarm system. City Administrator was directed to check with engineers if the purchase was grant eligible.

Motion was made and carried with three ayes approving change order pertaining to Hydro Engineering hydrostatically testing all septic tanks to verify proper seal.

Council discussed the change order regarding the summary that balances the planned and actual quantities for the project and has a net reduction of $ 39,648.25.

1988 Fire Contract

Chief Riesgraf and Tom Larson were present at the March 7th meeting to discuss the 1989 Fire Contract amount that would be presented to SanFrancisco and Dahlgren Townships on March eighth. Breakdown of township versus city expenses revenue and fire call hours was reviewed for 1987. Report showed that response to more fire calls occurred in the townships. Larson stated that this usually was the opposite. Council's opinion was that the townships should be charged accordingly, so as to come closer to what city residents pay per unit. Suggestion was submitted per charge estimated and the firemen agreed.

Chief Riesgraf expressed concern regarding the proposed Reuter, Inc. solid waste compost plant. This plant would be built in Dahlgren Township which is in the Carver Fire District. Greg Davies, Carver County Emergency Services Director has compiled an Analysis of Reuters plan for potential fire problems. A Public Hearing on Reuter's application for a Conditional Use Permit was to be held on March 15th. Chief Riesgraf will attend the Pulic Hearing. The council requested that the City Administrator also attend this Public Hearing.

Motion was made and carried with roll call vote of three ayes and two absent to compose a resolution regarding the city's concerns about the Conditional Use Permit being granted to Reuter, Inc. This resolution would list the primary concerns.

A letter from the insurance carrier suggested that several precautions be taken when using the premises of the fire station for personal use. Suggestion was also made to establish safety rules to be followed.

Carver-on-the-Minnesota

Council was told on told on March seventh that the organization, Carver-On-The-Minnesota is requesting board members. Councilman Hanson was nominated for the organization as a representative.

Review

On March seventh, the council was told that they will be meeting as the Board of Review on April 11th.

The State of Minnesota had planned a twenty percent [20 %] across the board property valuation increase for the City of Carver. Carver County Assessor had succeeded in getting that valuation increase reduced to five percent [5 %] across the board. Council directed that a thank you be forwarded to the assessor for his efforts.

Mountain Lion

On March 7th, citizens and owner of the mountain lion were present to discuss this animal residing within the city limits. The animal is never outdoors. Mayor Meyers relayed concerns of someone potentially being hurt. Deputy explained that the animal had papers from the DNR stating that the animal is domestic and declawed. Citizen stated concern of a mountain lion upstairs and a pit bull residing downstairs and the lots in the city were small. An animal ordinance has been drafted by the city attorney for council consideration. Another neighboring resident stated that the animal was wild, whether domesticated or not, that the fact remained, it was a wild animal and unpredictable. Citizen commented that a precedent was being set by allowing a wild animal in a residential area.

Mayor Meyers said that the ordinace which they were reviewing did not state the City's desire or intent. Since the council did not have an ordinance which would cover this matter, reference was made to the State Statute on dangerous animals. This statute could be adopted by the city. City Administrator was directed to check the state statute.

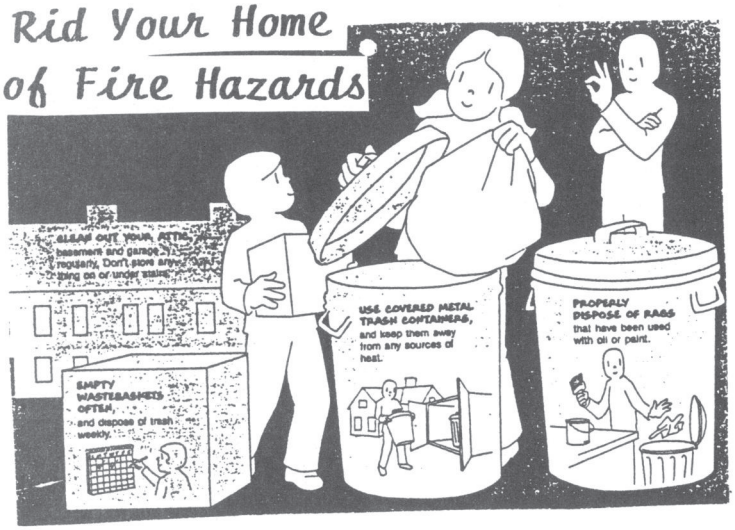

Trivia Questions

1) When did frozen food first appear?
2) Who produced the first frozen food and what was the item?

The preliminary unapproved minutes from the City of Carver's council meetings were referenced to compose the **Villager Tower.**

Miscellaneous

On March seventh, the mayor questioned a claim submitted for pumping step station. Explanation was presented and since the step station was not functioning properly, it had to be pumped. Mayor Meyers questioned whether or not this could be charged to the contractor on warranty.

Frey discussed a letter regarding a culvert placed on private property. It was stated that this culvert has been in place for a number of years.

A special informal working meeting was cancelled where the council was to work on 1988 goals for the city.

City Administrator informed the council that she applied for appointment to the Regional Transit Board's Chairman's Advisory Committee.

City Administrator requested approval to attend the Annual Minnesota Planning Conference in Rochester. Motion was made and carried with three ayes authorizing payment of approximately $ 150 for the City Administrator to attend this meeting.

Lioness News

On April 11th the Lioness will have a guest speaker, Orville Trenton who will talk about the Youth Exchange Program. He will explain the foreign exchange student program and sponsorship.

SteamBoat Days was briefly discussed. The Carver joint SteamBoat Days meeting will be held on April 13th, 1988.

The Lioness voted and amended their by-laws regarding monthly meetings. Decision was made to hold monthly meetings from September through June. July and August there will not be any meetings. Brief discussion was held regarding tentative plans for a year end picnic.

Membership is always open for anyone interested in joining the Lioness. Visitors are welcome. Meetings are the second Monday of each month at 7:00 PM.

Over Four hundred people were served at the BullHead Feed and it went well and was a success.
