City Council News

Audit

Council was told on June 27th that Paul Strot of Gary Lundeen Company has been auditing the city books. This audit is essentially completed. There were not any problems found with internal accounting.

The list of claims discussed on July 11th contained an additional amount requested for the auditor's bill for services on the Fire Department Audit. Mr. Strot explained that the hourly fee was higher for additional work because the original bill was at a fixed fee. The audit was more complex than originally anticipated. This was a one time cost.

Fire Department Revenues and Expenses

Fire Department accounting was discussed. Since the Fire Department is a division of the city expenses and revenues should be run through the city books. Although everything is in good order, the Fire Department questioned this change. The city attorney, county attorney, City of Chaska and Minnesota State Fire Department Association agreed with the auditor's recommendation.

The council reviewed a proposed resolution dealing with Fire Department equipment and general funds. Chief Riesgraf stated that department's fundraiser funds would be in an account entitled, "Carver Volunteer Fire-Fighters". Auditor cautioned not to use the word 'department' when a separate account is involved, as well as that the Relief Association should be incorporated into the name.

Comment was made that the relief account has to be used and that the Fire Department could not be an independent organization.

Mayor Meyers suggested that the best alternative for handling the firefighters fund was through the Relief Association and change the by-laws, but it is acceptable to have a separate account, as long as it is a tax exempt organization. Information assuring tax exempt corporation was requested. It was said that the organization had an IRS Tax Exempt Charitable Organization Number.

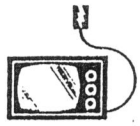

Activities of the Fire Department should be audited annually. If they raise money as the "Carver Volunteer Firefighters", they can technically maintain a separate fund. This auditing is also still regulated by the State as a non-profit organization.

Motion was made and carried with four ayes and one nay to table the proposed resolution.

Gary Lundeen and Paul Strot were at the July eleventh meeting to discuss the 1987 Audit. There was a problem with the Fire Department having their own accounts and previous audits not being detailed or complete enough. Mayor questioned how the city would handle monies of the Fire Department in the audit. Bank statements were received, amount of money in new account as reserved which will be shown as a transfer in the 1988 audit. For the 1988 audit, a list of expenditures and revenues should be presented to the city. Strot strongly recommended that the city prepare a fixed asset list.

Motion was made and carried with four ayes accepting the 1987 audit as presented. Motion was made carried with roll call vote of four ayes, one absent adopting resolution incorporating existing financial records and funds of the Carver Fire Department with the city's financial records.

Cable T.V.

United Cable Television's representative updated the council on June 27th concerning cable tv. An ordinance was presented for the council's review. The city attorney had drawn it up, but United Cable's attorney had not reviewed it yet. Mr. Stolen would return on July 11th when the ordinance will be discussed for acceptance.

Mr. Stolen was hopeful that ground construction could begin by Augusut 15th and service available by late September or early Ocotber. Homeowners would be notified before construction and Mr. Stolen would be available to answer questions. He will be meeting with the City Administrator.

Citizen asked about cable tv in town on July 11th. Question was asked pertaining to digging up streets and so forth after everything was being put back in order after the utility projects. Mayor Myers stated that there would not be a lot of digging, lines would be bored under streets and some lines would go overhead.

United Cable found no problem with the ordinance for cable tv. Mayor Meyers stated that contractors must post a bond and offer proof of insurance. However, these requirements were not listed in the ordinance. Stolen's view was that these were in the ordinance. Mayor requested an amendment to note these requirements. Motion was made and carried with four ayes to adopt the ordinance withe the provision that the bond and liability provisions are included.

Special Meeting

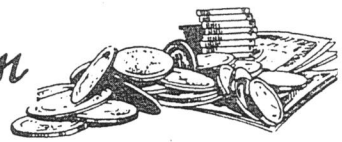

A special meeting has been scheduled for July 21st. Topics to be discussed are: sewer and water operator proposals; sewer and water final inspection and other business.

Park and Recreation Board

The new Park and Recreation Board had met. The board had considered applying for a Lawcon Grant, but decided that there was not enough time to properly write a grant proposal and would wait for another year to apply.

Connection Fees

Councilman Wendland asked on June 27th why the resolution for connection charges was not on the agenda. Discussion was held on fees as presented on the resolution. Councilman Hanson stated that in his view, the fees were too high. Councilman Briggs stated that the higher taxes in Carver would not keep people out of town; and that the city has many benefits that people would want to reside here for. Motion was made and carried with roll call vote of four ayes and one nay adopting resolution establishing fees for connection to municipal utilities.

Carver-on-the-Minnesota

Carver-On-The-Minnesota group met on June 16th, 1988. During the course of their meeting, several motions were made concerning the organization's expressing their desire to be officially recognized as the historical body for Carver with strong support for a Heritage Commission. Their other concern involved the flood plain situation where it was agreed that something needed to be done to change this ruling for the livelihood of the community. SteamBoat Days was also discussed.

Building Permit

Citizen requested approval for a building permit at the July 11th meeting to replace a mobile home. Planning Commission recommended approval providing the distance of the septic tank is not a problem. The new home would be located further away. Motion was made and carried with four ayes approving request.

Water and Sewer Improvements

Brian Miller [Maier Stewart] and Bob Polston [Munitech] were present at the June twenty-seventh meeting to discuss items required to be completed before the sewer and water projects were closed out.

Several problem areas were discussed as warranty items or issues to be completed referenced as 'punch list items'. Progress had been made regarding the punch list, but ten items still need completion. Miller commented that $ 10,000 should be paid to Hydro Engineering, withholding $ 5,000. Warranty items were covered by the warranty bond if the contractor fails to correct them. Miller recommended completion to be in thirty days. The U.S. Corps of Engineers scheduled insepction is for July 26th, 1988.

Motion was made and carried with all ayes to withold $ 5,000 and request that all warranty items and punch list items be completed by July twenty-fifth. City Administrator stated that Tom Huffman of Hydro Engineering had not seen these lists and would advise him of them.

Polston had spoken with Hydro about aeriators blowing the overload circuits. Hydro would replace the circuits. At the pond, a weir box was also being built.

The mayor questioned why a shelter has to be provided for the contact chamger. If this is necessary, then why wasn't it specified in the original plans.

Polson suggested that a small heated room be constructed in the water tower to protect the control panel and hopefully eliminate the overflow problem in the winter. Request was made for a recommendation to resolve this problem.

Miller [Maier Stewart] requested to see weed control in rip-rap at the pond site.

Councilman Hanson inquired about when polyphosphate would be installed. Red water complaints have been voiced. An iron removal system would cost between $ 125,000 to $ 175,000.

Polston discussed a flushing system for the city's water system.

Motion was made and carried with roll call vote of all ayes adopting resolution deferring two properties from sewer and water hook-up at this time.

On July 11th, council consensus regarding the claim petition from Maier Stewart was concluded that outside hiring had not been authorized. Miller [Maier Stewart] had been asked to present an itemized statement.

Citizen presented a complaint regarding the odor of sewer gas in town. Gaskets were to be put in lift stations as specified, in order to eliminate the odor.

Question was posed regarding the boulevard on Fourth Street. Inquiry was made regarding washout during rain since smaller asphalt curb was put in place instead of concrete curb as was previously in place. Grass was not growing either. Council stated they were aware of this problem.

Hydro's Punch list and Warranty lists were reviewed. Another citizen's sidewalk was not listed on these lists. First sidewalk in discussions was rediscussed. Several opinions had been received involving replacement of sidewalk.

Motion was made, carrying with four ayes to table the matter of the sidewalk. Discussion pursued with the City Administrator being directed to include gaskets and sidewalks on the punch list. City Administrator inqiured about sidewalks being chipped during construction, whether they should be patched or replaced. A discussion of sidewalks ensued. City Administrator was directed to reference sidewalk ordinance.

A representative from Maier Stewart was not present at the meeting to discuss the Step III Contract Amendment. Motion was made and carried with four ayes to table the issue.

Removal of the sign at the old water tower was inquired about. It was not thought that the project was officially complete and removal should not occur at this time.

"Dead End" sign on a street before construction of the municipal utilities projects has not been replaced.

Munitech, Inc.

Polston, [Munitech told the council on July eleventh that there was a problem with the chlorinator. The pump was replaced twice. Neither Hydro nor Maier Stewart had met with Munitach. Plson stated that the system was not designed to handle the pressure of the well, nor that specifications or intentions of the specifications were met.

Benetec representative had called regarding the freezing problem at the ponds. Polston will attempt to meet with him to discuss the matter.

Citizen complained of dirt in the water and the water being rusty. Other complaints are documented. It was stated that water softeners were needed. Samples being taken were discussed. Munitech stated that flushing once per month in problem areas were being done. City Administrator was directed to notify Maier Stewart to have chlorine problem solved within the week. Polyphosphate had not been installed yet.

Councilman Briggs inquired about dying trees at the water tower site. It was thought that these should be watered, as well as the shrubbery at the memorial site.

Munitech's contract operating municipal utilities expires on July thirty-first. Proposals and resumes have been advertised for. Reviewal was done of summaries of options. Councilman Briggs commented that even though Munitech was expensive and he was not entirely satisfied, it would not be appropriate at this time to change operators. Motion was made, but not carrying with two nayes and two ayes to contract with Munitech for one year at current rate with a six month option to extend the contract at the same rate. Discussion pursued. Mayor Meyers was satisfied with Munitech, but the need for cost effectiveness was necessary and also, agreed with not changeing operators at this time. However, the mayor preferred a six month contract with a six month option. Clean water needs to be provided. It was said that a filtration plant was needed. Councilman Wendland wanted to see each company make their presentation, but that it would be more cost effective to hire Aeration Technical Services. Councilman Thuenning agreed a change was not appropriate at this time.

The mayor relinquished the chair position to present a motion to offer Munitech an extension of their contract for six months with a six month option. There was not any second. Mayor resumed chair, directing the City Administrator to schedule a special meeting where the four firms were to make their presentation. Motion was made and carried with four ayes to consider proposals.

Housing and Redevelopment Authority

Knudson, HRA Director updated the council on July 11th regarding the CDBG program and the closing of the budget for the first grant year. Motions were made, carrying with four ayes approving pay requests.

Knudson told the council that there was not much activity in the grant program. There were still grant funds available for low/moderate income residents. Council concluded that the programs should remain open.

Knudson also told the council of a Federal Rental Rahabilitation Loan Program available. Carver is not particpating, but they are eligible. If the council was interested they should authorize signature of the participation commitment form. New construction is not permitted under this program. Motion was made and carried with four ayes approving participation in the Rental Rehabilitation Program.

Brief discussion occurred regarind the use of the Presbyterian Church for a city hall.

Knudson told the council that grant money has been taken out in installment loans. Money repaid goes to the city.

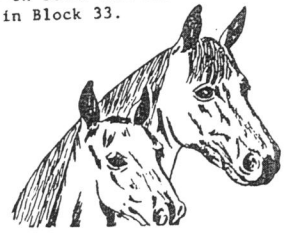

Alley Vacation

Partial alley vacation was requested at the July eleventh meeting. Dick Lenzen had appeared before the Planning Commission requesting partial alley vacation of Hickory Street and a variance on the lots. Mayor expressed concern regarding maintenance of the platted street, if it's used as a driveway and who would repair this after the water and sewer were installed.

Public hearings were held by the Planning Commission. They recommended approval of vacating the alley in Block 33 between lots 5 and 6 and 7 and 8, but recommended denial of the vacation of 10 feet of Hickory Street along Block 33, also supported denial of a twenty foot variance on lots 7 and 8, but a lesser variance of a front yard set back of more than fifteen feet may be more acceptable. Motion was made and carried with roll call vote of four ayes granting a vacation of the alley in Block 33 between lots 7, 8 and 5 and 6.

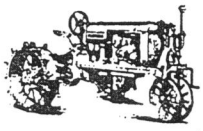

Variance request was discussed. Lenzen invited the council to view the site. Mayor Meyers requested to see a site plan. Motion was made with four ayes tabling variance request. Motion was made and carried with four ayes tabling request on sewer and water hookups to lots 7 and 8 in Block 33.

Horse

On July 11th, the deceased horse in the Minnesota River was discussed. Owner is not known. The DNR, Fish and Wildlife Department and the Department of Health all claim removal of the animal does not fall in their realm of responsibility. Contacing the Corps of Engineers was suggested. If that was non-productive, then the city staff was directed to dispose of the animal and authorized removal fees.

Miscellaneous

On June twenty-seventh, City Administrator Spiotta told the council that she'd spoken with Carolyn Drude [Ehlers and Associates] regarding the permanent bond issue for water bonds. A special meeting will be scheduled on August eighth to discuss this topic.

On July 11th, the council also discussed the claim petition of the fee charged by Nicklaus law firm regarding the discrimination law suit. General consensus was that this should not be paid until the case was settled.

Inquiry was made regarding the ordinance concerning pet roosters within city limits. Type of pet can not be dictated, if it is not a danger to citizens.

Public works director reported that spillways were being placed in ditches on Sixth Street.

Frey was directed to cover a hole in the playground at Lion's Park to eliminate any danger.

Motion was made and carried with four ayes authorizing a 'Lion's Park' sign placed at the Lions Park which meets ordinance requirements.

Motion was made and carried with four ayes approving agreement with Waconia Veterinary Clinic and its branch, Chaska Veterinary Clinic for servcies for impoundment of animals picked up in Carver.

Motion was made and carried with roll call vote of four ayes approving resolution authorizing Carver Historic Heritage Preservation Commission to transfer funds to Carver-On-The-Minnesota.

Mr. Paul Kelly told the council about property on County Road # 40 which he owns. He asked the city what ideas they had for the area. Council stated that this inquiry should be made to the Planning Commission.

City Administrator Spiotta will have information available at the August first meeting regarding firms submitting proposals for engineering services.

Minutes of the Planning Commission meetings were discussed. It was commented that more explanation was necessary. Whether or not the clerk should attend these meetings was discussed. Good records of those meetings were necessary.

Citizen invited the council to check the retaining wall in an alley.

Citizen complained of a sanitation truck parked in front of the Village Hall. Citizen was instructed to contact the deputies when this was observed. Parking is not permitted between 2:00 AM and 7:00 AM.

Carver Fire Department Highlights

Submitted by the Carver Fire Department

August 1988

August 4th	-	Drill Night 6:30 PM
August 10th - 14th	-	Carver County Fair
August 12th - 14th	-	Scott-Carver Threshers
August 15th	-	Drill Night 6:30 PM
August 25th - September 5th	-	Minnesota State Fair
August 25th	-	Meeting Night 8:00 AM

Bloodmobile

Connie Bondeson

Did you see the Red Cross Bloodmobile sign on the front of the Village Hall notifying the twenty-fifth of May draw? Thank you to Lee Obermiller, Chaska Wood Shop Instructor for making the sign and to George Piper for assisting two ladies in their effort to put the sign up.

Chaska/Carver Bloodmobile on May 25th produced two hundred and thirty-four units of blood. Peter Melchert, Chairman of the High School draw reported one hudnred and twenty-seven units, totaling three hundred and sixty-one units for this spring.

The addition of nurses and blood technicians reduced the waiting time.

Thank you to the Villager Tower for the space for the notices and to everyone for their help to make this a successful draw in the effort to save lives.

Thank you sincerely from area Director Lavonne Larson and all the volunteers in behalf of the American Red Cross Blood Program

Tentative Agenda

Submitted by the City of Carver

August 1st, 1988 Monday Evening
Council Meeting - 6:30 PM

Scott-Carver Threshers

Jordan, Minnesota - Old-fashioned country fun for the entire family happens on Friday, Saturday, and Sunday [August 12th, 13th, and 14th- when the Scott-Carver Threshers steam, chug and whistle through their **25th Steam and Gas Engine Festival** near Jordan. Gates open daily at 7 AM.

Children will see the "good old days" in action, and grandparents will relive many of the activities from their own childhoods on the farm or in the industrial world. Highlighting each day's events is the1:00 PM parade of gigantic steam engines, antique cars, trucks and tractors, and antique farm equipment and construction equipment.

Other festival highlighs include grain threshing, horseplowing, fiddling contest, square dancing, a country-western band, the world-champion whistler, an old-time band, quilting, flea and craft market, a pig roast, plus much more.

Burning wood and water to build steam pressure, the massive steam engines are belted daily to the "threshing machines" as the old-timers called them, to thresh stacks of wheat and oats. Other giants are belted to the sawmill to turn huge logs into dimensional lumber. In the corn field, Threshers cut bundles with a binder.

Horseplowing demonstrations by Gordon Klehr of Jordan are featured daily. Throughout each day he'll switch from the walking to the sulky to the two-bottom to the three-bottom plows. Narrating the demonstrations is Lavern Springer from Faribault.

Square dancing by the Richfield Squares and the Catspaw Cloggers begins at 11 AM Satudary, folowed by the eighth annual fiddling contest at 4 PM. Saturday evening Sammy's Concertina Band from Chaska will entertain during the pig roast from 6 to 9 PM.

World-cahampion whistler Bob Larson entertains Saturday afternoon at 2 PM and Sunday morning at 10:30. Sunday afternoon Danny Robinson's "Thunder Road Band" from Mankato entertains.

The Antique Automobile Club of America will parade their cars at the end of Sunday's parade and then display their cars for a couple hours.

Ladies from East Union demonstrate the art of quilting in the reconstructed log cabin that was originally built in 1850. In the one-room 1888 schoolhouse, movies detailing our agricultural past are showing each day. Each afternoon concludes with the drawings for door prizes.

For those seeking the unusual, craft and flea market dealers sell crafts, antiques, tools and collectibles. For those wishing to learn how to restore equipment or how to do a particular craft or how to fix a particular food, the Threshers' bookstore sells "how-to" books of all kinds.

Additional attractions include an 1889 operating steam fireengines, a shingle mill, a lath mill, a drag saw, a corn shredder, and a straw baler. In the blacksmith shop, smithies pound out horseshoes. In the huge machinery shed that houses many pieces of antique farm equipemnt and tools, the broommaker constructs brooms from the broomcorn he grew last year.

Mingling their aromas with the steam and smoke are the Threshers' food stand, pop and popcorn stand, and ice-cream-cone stand. Serving of the thresherman's breakfast begins each morning at 7:30. An outdoor ecumenical worship service is held at 7:30 Sunday morning in the picnic shelter on the grounds.

Admission is the purchase of a souvenir button for $ 4.00; children under 12 are free. The button entitles one to free admission all three days. Signs on U.S. HIghway # 169 direct traffice to the grounds. Anyone who exhibits equipment receives free admission. Parking is free.

The Scott-Carver Threshers is a non-profit organization, and the volunteers are not paid for thier services. Anyone wishing to help work on the grounds or the equipment is welcome to become a member. All proceeds go to the expense of the festival, new buildings and equipment, and new attractions. These volunteers are working to preserve our agricultural and industrial past for the present and future generations.

Dee Scott
