Commercial Rehabilitation Loan Funds

On August 27th the council discussed the Commercial Rehabilitation Loan Fund guidelines. The Central Business District was defined per the Zoning Map. Recommendation was submitted not to loan out more than $ 7,500 per business. Nor should loans be granted to properties with more than one mortgage. A six month program was suggested to be used for trial to see how well the guidelines worked. A $ 500 application fee was proposed, as well as 5 % interest be set. The mayor was more interested in more loans than only a couple of large loans. Another councilman expressed that a limit and/or maximum be put on these loans with exceptions to be reviewed by the council. Motion was made and carried adopting the Rehabilitation Loan Guidelines, setting a maximum loan amount at $ 5,000, interest at 5% per annum and an administrative fee of $ 375. Motion was made and carried to set the effective date for the Rehabilitation Loan Program to begin September first.

Motion was made and carried at the September 4th meeting scheduling a date for the Public Hearing on an amendment to the ordinance concerning Commercial Loan Program on October first.

Lawcon

Lawcon Public Hearing was held on August 27th. Grant guidelines were reviewed. These funds are earmarked for recreational programs and are a fifty/fifty match, but in-kind services can be used as part of the match. Submission deadline for this grant application is September first.

The five programs for consideration are: parking lot, two softball fields, one baseball field, safety lights and a play lot. Estimated cost if $ 135,000, city's share of $ 67,500. City Engineer provided this estimate. Two councilmen stated this estimate was too high and suggestion was made to get a cost estimate from a contractor. Administrator presented possible sources of funds for the city's share. It was stated that Lenzen Addition and tree monies should not be used. The mayor questioned if waiting another year wouldn't be wiser and submit a beter put together application. Applications are only taken once a year by Lawcon. Frey was directed to get estimates to construct a park.

Comment was made that the Park and Recreation Board should be commended on their efforts to seek possibilities of a grant. Council thanked the board, but concluded that the project was too late. Motion was made and carried to prepare a more thorough and complete application and resubmit in 1991.

Subdivision Request

Council considered a resolution regarding subdivision request at the August 27th meeting. Planning Commission had approved the resolution contingent on ownership being proven to the city. Motion was made and carried by roll call vote approving amended resolution approving subdivision contingent on proven ownership.

Council then considered request for setback variance. Request concerns 15 foot variance on rear setback from 25 feet to 10 feet from platted, unimproved Main Street. Motion was made and carried by roll call vote adopting resolution approving variance to build house by platted, unimproved Main Street. Plans for proposed house were reviewed. Access easement is being pursued. Motion was made and carried granting building permit contingenet on necessary easements being obtained.

1991 Budget

The 1991 Budget was reviewed on August 27th. Proposed amounts equal a 30.1 % increase over 1990. Proposed amounts were reviewed and cuts were made to decrease proposed increase to 23.9 % at the present time. This is a preliminary budget, therefore these amounts could be cut more before adoption. Motions were made and carried setting and adopting resolution concerning proposed 1991 Levy at $ 220,000.

Sixth Street Improvements

City Engineer spoke to council on September 4th regarding work which can be done on Sixth Street with grant funds. Council was asked to consider going out for bids for the reduced project giving a proposed time scheduling. Staff was asked to notify the Soil and Conservation Office and the Lower Minnesota River Watershed District of changes in city plans. Motion was made and carried to go out for bids next January for the reduced project plans. One councilman commented that he'd like to see the whole project completed. Motion was made and carried directing the staff to notify appropriate offices of city plans.

Due to the condition of Sixth Street, Frey requested that the street be closed to truck traffic, since the street is breaking up. It was discussed that a weight limit would be the best solution. Preference by the Public Works Director was a sign "No Trucks" so that school buses could still utilize the street. Motion was made and carried posting "No Trucks" sign from Broadway to the city limits on Sixth Street.

Building Permit

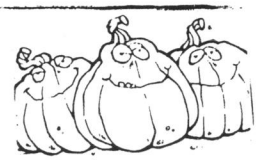

Building permit request was reviewed on September 4th. Resident requested permit to build a porch onto the structure on Main Street. The Heritage Preservation Commission and Planning Commission recommended approval of request. Motion was made and carried granting the building permit.

1991 Police Contract

Motion was made at September 4th meeting and carried by roll call vote adopting resolution for half hour of patrol per day (183 hours) at a cost of $ 6,282.39 for 1991.

Park Complex

Frey discussed the proposed community park with the council on September 4th. This property is a big expense lying idle. There was a question if development would even occur next year. Suggestion was made that land be rented out. Next spring the council will make a decision.

Block Party

On September 4th, the council reviewed an application for block party from the City of Chaska. Motion was made and carried to acquire half a dozen different block party regulations to compare, as well as request an opinion from the League of Minnesota Cities on the issue.

Municipal Utilities

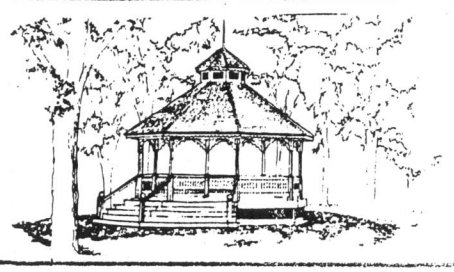

Municipal utilities operator told the council on September fourth that his company could clean the water tower for $ 400. Quote had been received for $ 650. State recommends that cleaning be done annually. Engineer submitted recommendation that interior paint be examined when water level is down for cleaning.

The Chaska council has not acted on the proposal to donate used water filtration plant to the City of Carver. Operator estimated moving costs of the plant. Question was asked whether or not money had to come out of the water fund. Suggestion was made to ask auditor if project could be paid for with the General Fund or Water Debt Service or another fund. Engineer also commented that the water treatment plant from Chaska should be checked for lead in the paint. This would be tested, if necessary.

A letter received from the State Health Department was discussed regarding the possibility of cross-connections on the water system. The mayor stated that if someone is guilty of this, there should be more than just a fine. The offense should be considered a misdemeanor.

Report was given that 110,000 gallons of water were used to fight a barn fire in Dahlgren Township. No problems occurred during that time.

Miscellaneous

Request for a variance to the Zoning Ordinance concerning signs was discussed on August 27th. Request was submitted to hang a sign over a public building. Motion was made and carried with roll call vote approving variance resolution to hang sign from the Carver Convenience Store. Motion was made and carried approving building permit to hang the sign.

Staff was directed to forward letters to homeowners on SkyView Lane surveying consideration for an address change to Carver.

Mayor questioned the issue of after-the-fact building permits and policies of how these should be handled.

Property on Fourth Street was discussed. Administrator was directed to seek information whether or not the city attorney filed a judgement so that the property can be clean up and potential hazard eliminated.

Citizen forwarded a letter to the council regarding problem of dogs (stray/loose) which was reviewed at the September fourth meeting. Statement was made that the Sheriff's Department is not responding to complaints. Frey was directed to contact Captain Pagelkopf regarding the issue.

Fire Marshall was notified requesting an extension of time for required safety changes to the Village Hall. Some issues are completed and most have been started.

A letter from Carver County was reviewed regarding Hazard Elimination Safety Program (traffic signing). Work was scheduled to begin in late August in the county and projected completion in November.)

Motion was made and carried with roll call vote to adopt the resolution declaring the week of September 23rd - 29th as "Values Week", encouraging people to participate in scheduled activities.

Several various issues were discussed concerning weeds needing to be cut and/or mowed, and vehicles deteriorating. Staff was directed to survey these issues and forward letters.

The next set of ordinances can be reviewed. Reviewal of these are scheduled for the special meeting on September 24th, as well as discussing the 1991 budget.

Motion was made and carried directing McCombs Frank Roos Associates to conduct a survey of city property in Dahlgren Township.

Fire Relief Association issue was briefly discussed. Request had been made for a fifty dollar per man, per year for Fire Relief pension increase. No action was taken.

Carver-on-the-Minnesota

Historical walking tour during Steam-Boat Days was a successful venture. Thanks and appreciation are extended to all who participated.

Organization continues working on grant application for improvements and repairs to the Interpretive Center. The group is also discussing expansion and improvements for the historical walking tour for next year.

Lions Lioness

The Carver Lions and Lionesses extend thank you's to all who participated in many, many ways for the annual event. Once again, the event was a successful one.

Are you aware that the SteamBoat Days parade is such a success due to the hominess of the traditional candy throwing to those eager, innocent faces. PARENTS! Your cooperation and understanding is badly needed in controlling younsters from venturing so far out into the parade units route or this wonderful tradition will have to be halted before one of those innocent little younguns' is severely hurt. Additional criticisms were voiced, again, this year regarding youngsters too close and safety is a must and uppermost. Youngsters venturing so close is a **HAZARD**! If parents, brothers, sisters, babysitters, grandparents, whoever, do not cooperate and keep those precious little ones away from the path of the drivers, there will no longer be the traditional candy throwing during the SteamBoat Days parade. The choice is yours parents.

Tentative Agenda

September 24th
Monday evening 6:30 PM

1) Call to Order
2) Approve Agenda
3) Approve Minutes
4) Finalize 1991 Budget
5) Review Recodification of Ordinances

10) Other Business
11) Adjourn

Election Filings

For your information.....no one but the incumbent mayor filed for the open positions on the Carver City Council. Filings are closed, therefore write-ins will be the deciding factor in who will represent you on city issues. For the write-in to be valid, voter will have to state name and office voting for, eg: Joe Smith, Councilman. Special election for councilmember to fill vacancy in term expiring 12/31/92; and two four year terms. There are two these vacancies.

If you have any questions, contact the county or the city clerk, 448 - 5353.
