Fourth Street

Clean up of property on Fourth Street was the topic of discussion at the April 1st meeting. Potential buyer requested a revised timeline of clean-up work as he is interested in excavating and building two homes on the property. Administrator told the council that the city has the authority to clean up property after April 2nd.

Potential buyer commented that there are two lots with an alley between, either one or two homes could be built on the property. Citizen suggested an escrow account be created as a sign of good faith, requesting city clean up not be pursued at this time. Buyer did not have a problem with an escrow account if he can get clear title. Statement was also made that there would be duplication of effort if fill was brought in and had to be excavated to construct. There was a question if part of the garage from the old house was in the Jorgenson Street easement. Jorgenson Street would have to be upgraded to access a second home on the lots. Buyer would upgrade, if necessary. Motion was made and carried to go out for quotes to clean up the property and be considered at the May meeting.

HRA

Executive Director, Housing and Redevelopment Authority (HRA) discussed the results of survey sent to residents. Results showed only 39 % Low/Moderate Income, water treatment plant is favored, improved street lighting, more softball fields, walking/biking paths and prefer to leave Carver a bedroom community.

Sixth Street

City Engineer informed the council that bids for the Sixth Street project were opened. Low bidder was F.F. Judlicki, Inc. at $ 100,000. The Lower Minnesota River Watershed District Grant and Soils Conservation Services Grant each equaled $ 60,000 for a total of $ 120,000.

Council was informed that the Lower Minnesota Watershed District would like some publicity on the grant. Engineer suggested an invitation be extended to attend the next meeting to present a check for part of the grant money amount and inquire if the Chaska Herald could be present to take pictures.

Work on Sixth Street scheduled to begin May 15th. Easements are being sought. Mayor expressed concern regarding awarding bid before easements are obtained.

Motion was made and carried accepting agreement with Lower Minnesota River Watershed District for Sixth Street Improvements, grading and storm water.

Citizen was at the meeting with questions about the improvements. The road was not going to be raised, and dirt to be hauled in would be put on Lenzen property with his permission.

Mount Hope Cemetery

Frey requested that trees be removed from front of the Mt Hope Cemetery. The trees are in the city's right-of-way for snow plowing. As these trees grow, they will cause more problems. Motion was made and carried to contact Mt Hope Cemetery Association regarding the trees, requesting removal of the trees or the city will have to do it.

Municipal Utilities

Variance request was considered to build water treatment plant at Lions Park. The Planning Commission has recommended approval. Public Hearing was held by the Planning Commission where it was concluded that the Lions Park was the best location since that is where the pump house is located. Motion was made and carried approving request for variance. Planning Commission had also reviewed request for building permit for plant and recommended approval. Motion was made and carried approving building permit. Administrator recommended appointment of individual to coordinate construction of plant. Motion was made and carried appointing Public Works Director to coordinate plant.

Septic tank specifications were discussed. Lakeville company was interested in working with the city and would construct tanks per specifications. Motion was made and caried accepting the Septic Tank Specifications for use in the Municipal Waste Water Treatment Systems.

Council was told that the Health Inspector has not made his annual inspection yet and it is not known when it will be completed.

The MPCA has changed the requirements for monthly testing of the ponds. Reports now require the signature of the mayor and the operator.

Building Permit Request

Request was presented for a building permit for an addition onto an existing home. The Planning Commission recommended approval. Motion was made to grant building permit.

Clean up

Citizen requested extension for clean up. Zoning Ordinance adopted in 1986 required that cars be removed by March 1, 1991. Council noted efforts already begun. The Planning Commission recommended granting extension until September 1, to complete clean up. Councilman inquired why the work had not been completed in five years since first notification. Explanation was given that the property did not belong to him, but rather belonged to his mother. There is a party interested in purchasing remaining cars. Motion was made and carried granting extension for clean up until September 1st, 1991.

Miscellaneous

Administrator updated the council on the Comprehensive Plan strategy which is being worked on by the Planning Commission and McCombs Frank Roos' Engineer and planner.

Motion was made and carried to appoint Tom Foley to the Parks and Recreation Board.

Proposed Town Meeting agenda was reviewed by the council. Agenda was discussed and amended. Motion was made and carried approving amended agenda for Town Meeting.

The council approved a letter to be sent to the Carver County Sheriff regarding hosting next contract meeting.

Council was told that Compliance to Comparable Worth must be completed by December thirty-first.

The School District invites the cities to their compliance meetings every year and someone from Carver should attend. Councilmember Peterson considered attending.

Mayor informed the council that he'd toured a composting facility in Alexandria. This is not the same process as Reuter's. Council was informed of his findings.

City Administrator

Council was told that fifty-six applications have been received for the Administrator position. Suggestion was given to the council concerning utilizing HRA Director while in transition of administrators, especially with the grant.

Revenue

Council discussed the 1991 Revenue deductions in Local Government Aid which was reduced. Administrator suggested Contingency and Capital Accounts could be reduced or eliminated. The topic of revenue deductions was to be put on the May agenda in order to consider cuts.

Carver-on-the-Minnesota

Carver-On-The-Minnesota met April 18th at Craig and Barb Hanson's home. The May 16th meeting will be held at the Intrepretive Center (Church By the River) at 7:00 PM. Everyone is encouraged to come.

Marvel Anderson was the guest speaker at the April meeting from Reservation Alliance of Minnesota. She talked about her role in the Alliance and how Carver-On-The-Minnesota could utilize the Alliance for both support of local projects and raising funds.

The group will have their membership drive in May and June, as well as their Wildflower project.

Plans continue to take shape and form for the group's third annual Victorian Garden Pary. The party will be from 5:00 PM to 8:00 PM on June 23rd at the Carver House Antiques. Donation, $ 5.00 per person and refreshments will be served. Victorian attire encouraged.

Group discussed condition of stained glass windows in church and are looking at the best way to preserve them.

Group discussed an Ice Cream Social at the church on Sunday, September 8th, during SteamBoat Days. Discussion was held concerning the possibility of a craft show in the church, as well as a historical display during SteamBoat Days.
