Volume IX

October/November 1991

Number #ninety-three

Villager Tower

Dog Kennel

On October 7th, citizen wanted to discuss letter received regarding construction of a dog kennel on the right-of-way of Jorgenson Street. Citizen was of the opinion that a precedent had been set by the city with other structures built on Fourth Street which is also a platted street. He cited two instances where a building was permitted to remain on city easements and an agreement was drafted between an owner and the city. Citizen thereby requested a similar agreement permitting his kennel to stay until street was improved or need arises. Motion was made, but did not carry to enter into such an agreement. Motion was made and carried to table the issue, in order for the administrator to do further research.

Building Permit

Motion was made and carried approving building permit for alterations to garage.

Citizen was present to request building permit to replace a screen porch. The Heritage Preservation Commission and the Planning Commission have reviewed request recommending approval. Motion was made and carried approving request.

Appeal

Developer was present to appeal the council's decision regarding the facade on the home constructed on Fourth Street. Direction had been given that the entire front of the house be done in brick versus only half way up. The developer was of the opinion that the house looked good and had misunderstood direction given. Administrator gave options: facade be redone; grant an appeal; or impose a fine. Motion was made and carried by roll call vote to leave house as is, and a fine to be imposed by a judge.

Boundary Dispute

Property owner contacted the city again regarding purchasing land adjacent to the sewer treatment plant where there is a controversy over surveys done for the land. Administrator stated that the city did not have the money to purchase the land. Motion was made and carried to table the issue and wait until city attorney could be at meeting.

Variance Requests

Public Hearings were held reviewing variance requests for the construction of a shed on an empty lot next to the Carver House Antiques. Citizen commented that it was his opinion that the empty lot proposed to be built on was useless, except for a storage shed due to the size and location in flood plain area.

Petition from area residents was presented to the council opposing construction of storage shed. Question was posed concerning construction affecting flood insurance and home values. Neighbor voiced objections to appearance and hazards associated with oil and gases in residential district.

Plans for the building included that it would be waterproofed. Another neighbor expressed concern of a commercial building adversely affected other structures in area. The proposed building would be utilized for storage only. Another resident inquired about additional traffic, stipulations and how would this be regulated. Response was that the city would have to regulate. Another citizen questioned height of building if for car storage. The height was dictated by architectural integrity.

Motion was made and denied to grant four variances to construct a six car garage on Lot 8, Block 29.

Second variance Public Hearing was presented requesting variance to expand present garage. This variance involves approval of leaving existing walls, but alter the building. Motion was made and carried approving variance request on Third Street. Motion was made and carried approving resolution granting variance.

Building Permit Procedures

Building permit procedures were discussed. Presently, permits go before the Planning Commission and the council if they are not an approved subdivision. The Ordinance does not require this procedure. It is the administrator's his opinion that if requirements are met, the issuance of routine permits should be an administrative duty. Motion was made and carried allowing staff to issue building permits city wide.

Police Contract

Administrator spoke with Chaska's administrator regarding the possibility of Chaska's department patrolling Carver. After some research, it appears as though this service would be too expensive in comparison with the county's.

Community Services Officer idea needs more support to present to the County Board of Commissioners. The number of hours interested in hiring Community Officer were discussed. Motion was made and carried adopting resolution agreeing to policing services with Carver County. Motion was made and carried to commit to hours with Community Services Officer.

Salaries

Administrator proposed discussion of wages in order to finalize budget costs. This issue was tabled by motion. Budget review would begin at the November meeting and if necessary continue at a special meeting.

Carver Fire Relief

Council was asked to reconsider an increase for Fire Relief. There has not been an increase for two years. The increase requested is for fifty dollars.

The mayor stated his concerns regarding the increase due to members not meeting Department regulations to qualify as an active member. Representive responded that the department is working on correcting this issue. He also pointed out that the city's liability for Fire Relief will go down in 1992, even with an increase in benefits.

Two councilmembers stated that the relief should not be penalized since this is a department issue. Administrator was directed to check on Fire Department compliance with their guidelines.

Motion was made and carried increasing Fire Relief from $ 450 to $ 500. Further discussion was held with the mayor requesting two councilmen with interest in the Fire Department from voting, as well as questioning if the same question could be presented repeatedly without new or additional information. Another councilmember stated it would be beneficial if there were comparison information presented.

Municipal Utilities

There was a discussion concerning progress on the water filtration plant. Plans are necessary for the internal workings of the building not the shell.

Operator discussed an alarm system for monitoring the lift stations so if the electricity failed or another problem occurs, the automatic dialer would notify appropriate personnel. This system would cost approximately four thousand dollars. Motion was made and carried to do a fifty/fifty cost share for project whereby the council agreed to pay for any repair parts, operator would pick up labor and the city would pay the monthly charge.

Heritage Preservation Commission

Councilmember expressed concerns regarding lack of growth in the city with strong opinions that the Heritage Commission may prevent individuals from moving into the city. Motion was made, but not carried to cease actions of the Commission until evaluated. Administrator and two councilmembers were appointed to research the committee's activities.

Miscellaneous

On October seventh, motion was made and carried approving equipment fee schedule.

Developer discussed development plans on Sky View Lane. Questions were asked about current street width and easements.

Individuals who have not renewed dog licenses are to be forwarded letters regarding notice to renew.

Letter should be forwarded to owner on Lime Street commending clean up.

Bloodmobile

The Bloodmobile will be at the Chaska Community Center, Monday, November 4th from 1:00 PM to 7:00 PM. If you are of the age 17 through 75, you can give blood, every fifty-six (56) days. There is a babysitting service. You can help by baking cookies for the Canteen, too. Call Mae Jacobson, if you have not been called, 448-3104 or walk in. We Need You. The Hospitals Need You. You can help save a life.

Carver Lioness

The Carver Lioness will be hosting their Annual Costume Halloween Party for all children from 5th grade age and younger on Saturday, October 26th from 5:00 PM to 7:00 PM.

There will be games, treats, prizes and lots and lots of fun. There will be drawings for all the kids in costume. A donation of $ 1, plus one non-perishable food item per child will be collected at the door.

All the funds from this event will be matched by the Lioness and then donated to the Southern Valley Alliance for Battered Women. Non-perishable food will be donated to the Scott-Carver Food Shelf.

Anyone wishing to volunteer as a game host/hostess is urged to contact Chairperson Cheryl Peterson, 448-4857. We would greatly appreciate any and all help for this fun event for our community youth.

Carver-on-the-Minnesota

Carver-On-the-Minnesota is still working on Humanities presentation. The dates will follow.

Holiday House Tours and Craft Sale will take place on December 15th. Some of the homes to be toured are the same homes that participated in last years event, plus there are some new homes on the list. The craft sale will be held in the Village Hall. Any crafters interested in participating can contact Barb Swanson at 448-4580.

Window dedication will be held in spring regarding the refurbishing of the stained glass window in the old church.

The Carver Blue flower issue was discussed. Decision has to be made when to initiate this program in spring or fall.

There will be a special meeting on November 6th at Cindy and Randy Monroe's home.

Women Business Owners Organization

Balancing Work with Family

The November 12th meeting guest speaker is: Nancy Lenhardt. She is a Home Economist with the University of Minnesota, Carver County Extension service. She will discuss how the responsibilities of home and family may be balanced with the demands of your work/business. Everybody is welcome! Dinner will be at 6:00 PM; Lecture at 7:00 PM at Butch's Restaurant.

For more information or to RSVP (helpful but not necessary) contact: Dr Carrie Ross, 448-2722.

Women's Business Organization is an informal group of gals that have their own business or help run a family business. We meet the second Tuesday of each month for dinner. There is usually a presentation afterwards. The meetings promote networking, the sharing of ideas, support and fellowship. There are no membership fees.
