Villager Tower

Organizational Resolution

At the January 6th meeting of the Carver Council the Administrator suggested that some positions in the annual Organizational Resolution be eliminated. Council decided to eliminate several unnecessary positions, such as street director, weed inspector and the like. Motion was made and carried to retain several positions and adopt resolution by roll call vote.

Fire Hydrants

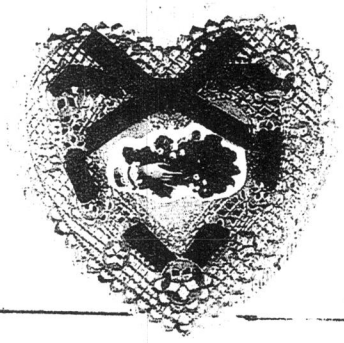

Frey reported on research of flags for hydrants. Suggestion was made that instead of replacement, to place steel posts by hydrants. Cost would be less and not as easily damaged. Further act ion would not be necessary since approval had been authorized for $ 150.

Easement Issue

Administrator informed the council that a house encroaches onto Main Street and the owners cannot get clear title. Suggestion was made that the easement/right-of-way directly under the building be forgiven while the house stands. Should something happen then the easement/right-of-way would revert back to the city.

Motion was made and carried by roll call vote to adopt resolution relinquishing easement/right-of-way under the house.

Township Fire Contract Rates - 1993

Administrator will draft a comparison report concerning city's cost versus township's cost for fire protection. Chairman of the Dahlgren Township stated that the agreement with Cologne was at $ 62.50. He also pointed out that the city owns equipment which townships are helping to pay for but are not consulted on the purchase considerations. Contracts were tabled by motion.

Youth Commission

Letter has been received from a volunteer willing to serve on the Youth Commission. Motion was made and carried appointing Chad Peterson as the youth representative for the City of Carver to the Youth Commission. Ken Frey volunteered to be adult representative which was also approved by motion.

Personnel Policy

Public Hearing on Personnel Policy Ordinance was held with several aspects of the ordinance being discussed. Question was posed whether it should be an ordinance or just retained as as policy. Motion was made and carried to table issue.

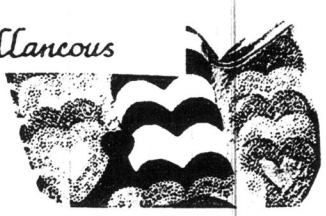

Senior Citizens Club

Council was informed that Carver County Commissioners have eliminated the position of Senior Citizen Director. Individual had coordinated activities for Carver and Norwood Senior Citizen Clubs. Council was asked if they would consider helping fund program.

Employment Proposal

Council held discussion of hiring individual to work part-time in two departments. One involved utilities, the other in public works department. Attempt was not sucessful in the past. Administrator was directed to research the issue.

Miscellaneous

Motion was made and carried approving the 1992 joint powers prosecution contract with Carver County and cigarette licenses.

Councilman inquired about the Fire Station doors. Frey will contact the company.

A fax machine was donated to the city by Craig Hanson.

Administrator reported attendance at a Fire Relief Association meeting.

Frey had retired from the Fire Department. He was asked about helping if necessary. Legality and insurance coverage were questioned by Administrator who will research issue further.

Municipal Utilities Billing

Administrator pointed out that the time from billing to payment was too long. He suggested instead, a new payment schedule. Penalty amounts were also discussed. Suggestion was made that bills remain quarterly with payment due in thirty days. Then a notice including late fees for delinquent bills, as well as fifteen days notice of disconnection should be sent. Administrator was directed to draft necessary amendments.

Municipal Utilities

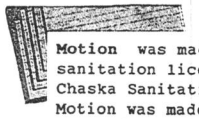

Municipal utilities operator checked into a device which would read water meters. However, the mayor stated that it was his opinion that the city was not large enough for such a system.

The lift station on Elm Drive had been damaged during snow removal. Repairs will be made. Operation of system will be hindered as it has to be pumped out. Research is being conducted to see if insurance will cover damage.

A sampler is being installed at the main lift station per MPCA (Minnesota Pollution Control Agency) requirements.

Sanitation Licenses

Motion was made and carried to approve sanitation licenses for Aagard West and Chaska Sanitation. Bids were submitted. Motion was made and carried accepting Aagard West bid.

Water Filtration System

Administrator informed the council that the Small Cities Development Grant Funds designated for Central Business District Rehabilitation Loan funds were still available, since no one applied for this. Suggestion was made to utilize these funds for engineering plans for system. Utilities operation has an individual drawing plans for the building to house equipment.

Question was asked if Chaska's Preliminary Plans for plant could be utilized. Engineer stated that he could work from plans and adapt to Carver's needs. The estimated cost was $ 15,000. Since the building plans were not included, estimated plans cost would be $ 11,000. An inventory of equipment was needed however.

Motion was made and carried tabling filtration system issue.

Planning Commission Vacancy

Mr Tom Griep expressed willingness to fill the Planning Commission vacancy. Motion was made and carried appointing Griep to the Planning Commission.

Disclaimer

The preliminary unapproved minutes from the City of Carver's council meetings were referenced to compose the Villager Tower.

Carver-on-the-Minnesota

The group discussed the turnout of the house tours and holiday craft sale, which was a huge success.

Window presentation was briefly discussed and may possibly be scheduled at the same time as the Garden Party which takes place in June. Time flies and that will be be sooner than you think.

The next meeting is tentatively scheduled for February 20th. Contact Barb Hanson for more information at 448-2853.
