Volume XI

November/December 1993

Number #one hundred eighteen

Villager Tower

Sixth Street

At the November 1st meeting the representative from McCombs Frank Roose discussed the assessment process with the council. Two official Public Hearings are necessary, as well as notices sent to affected property owners. The process will have to be started in January or February in order to begin work next summer. Drude of Ehlers & Associates stated briefly that the first step in the project would be to direct the engineer to do a feasibility study. Then the following to proceed, public hearing; council orders improvement (the Public Hearing is good for six months before improvement is ordered; after six months, a new Public Hearing must be held). Then financing is determined and an assessment hearing. Council was informed that all of the project costs do not have to be assessed, some costs can be levied. Assessments are based on the benefit to property. The City of Carver's tax capacity is $ 375,267 in 1993.

Motion was made and carried authorizing the city engineer to update feasibility report for municipal utilities on Sixth Street Improvements.

Hillside Issue

Representative from Robb Electric discussed removal of fill with the council. A survey would be done to locate the accurate property lines. Mayor requested winter preparations be made, as well as spring run off. A caterpillar is coming in to put a berm at the bottom of the hill. Plans were requested to be presented at the next council meeting.

Comment was made that there is a lot of clay in the hillside which they'd prefer removed. City was asked their plans for a horseshoe dike behind the railroad tressle since this would be good material for that type of structure. The mayor and director agreed. It was estimated that the temporary dike should be about eight feet high. A base would have to be put below ground level

Municipal Utilities

Municipal utilities operator reported that septic tanks pumping had been scheduled for July, but did not get completed. The mayor asked if an inventory had been completed to see how many tanks needed to be pumped. Random sampling was done and it was considered that approximately 25 % of tanks required pumping. The system has been in operation for about six years and that the MPCA had estimated that the tanks would have to be pumped every three years. An inventory would be completed within the next couple of months.

Councilmember asked about progress on the water treatment plant. Half the roof work is done.

Municipal utilities operator requested that the wells be checked in Riverside Park by properties acquired by the city to ensure that these wells have been capped.

Council requested that the operator have a proposed contract prepared for review by the November 30th Budget Public Hearing.

Get Well Ron

The "**Villager Tower**" extends GET WELL WISHES to Ron Riesgraf who recently was hospitalized at Waconia Ridgeview. Get Well Ron. Our thoughts and prayers are with you.

Carver Fire Department

The Chaska VFW has donated funds to the Carver Fire Department for a defribrilator (Heart Start 3000 Automatic). The Rescue Squad passed the training course and are ready for action.

The Carver Lions have donated funds to the Department for updating some pagers for this year.

Santa Claus will be at the Village Hall on Saturday, December 18th at aproximately 2:00 PM. Be sure to come and see Santa.

Contracts

The mayor informed the council that he would be resigning his operation as Carver's Building Inspector because of a conflict with the City of Chaska's personnel policy. He will be soliciting proposals for the position.

The attorney, engineer and municipal utilities contracts were all reviewed for budget purposes.

1994 Budget

Motion was made and carried to accept the bid from Carver Heating & Air Conditioning to install a new furnace in the Village Hall.

Council reviewed budget line items. Salaries were discussed. Administrator was directed to review city employee's salaries and submit recommendations for pay increases by the December meeting.

Council agreed that the city properties should be removed from the sewer/water assessment rolls.

New Employee Issue

Council discussed possibility of retaining Wayne Dauwalter for less services if an additional employee were hired. Frey relayed time involved with mowing grass and snow plowing. Council discussed contracting services and directed Administrator to draft up specifications for a contract for specific jobs to help the Public Works Director. Bids for budget are to be ready for the November 30th Public Hearing.

Carver Lions

It is a quiet time of the year for the group, although the Carver Lions are always looking for new members. If interested in joing, contact a Lion or ask at the city office for more information on members.

Miscellaneous

Councilmembers informed sheriff's deputy concerns about speeding motorists on Ash and Fourth Streets.

Administrator reported the status of the Park Grant Application and that a representative from the DNR had inspected the Community Park for purposes of the grant application.

Status of Civil Defense Sirens were discussed. In checking on the progress it was learned that Robb's Electric will be working on these sirens soon. They were waiting for a metal platform to mount the siren on.

NSP has been asked to remove poles and lines at Main Street and Spring Creek, in order that dredging of the creek can be done. Carver County groups have been working on cutting trees near the dike.

Councilmember expressed concern regarding changes made to a business sign which should have been considered by the Heritage Preservation Commission. Administrator was directed to check on the situation.

The mayor reported that he's not heard of any progress on the city flag.

Councilmember reported that comments have been made that repairs are not being made to the septet building. The mayor was to talk with owners.

Councilmember expressed concern regarding the situation with the Fire Relief Association. Inquiry was made to hire an accountant. It was stated that the Relief Association had hired a CPA to do an audit which was being conducted.

Inquiry was made regarding the status of County Road # 147. Bids are tentatively scheduled to go out in February.

Frey updated the council on the status of Main Street culvert. The culvert has been filled with concrete.

Council was also informed that Wm Mueller & Sons has been working on the parking lot at the Community Park.

Tentative Agenda

Submitted by the City of Carver

November 30th, 1993
Tuesday Evening - 7:00 PM

Ownership change

Monique's Boutique of Carver wishes to thank all of the clients for their support and patronage of a small business in a small, but great, community.

There's a new name, but same location and service, as I continue to work at THEE Hair Salon of Carver. As always stop in or call 448-6109.

Please welcome Jeanne Paasch as new owner and allow her the opportunity to serve you as a very fine stylist.

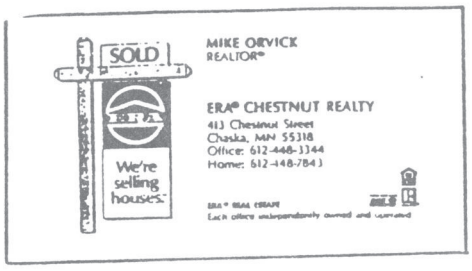

A most sincere thank you
Monica Giese
