Volume XII

May/June 1994

Number one hundred twenty-three

Villager Tower

Dedicated: In Memory of Connie Bondeson

Connie Bondeson

It is with great sadness and heavy heart to relay to those who knew Connie Bondeson that she passed away Tuesday, May 31st. She will be missed tremendously by all who knew and shared any time with her. The **"Villager Tower"** extends deepest sympathy to her family.

Visitation will be held Friday Evening, June 3rd at Bertas Funeral Home in Chaska. Services will be held at the East Union Church on Saturday June 4th. Connie was born March 9th, 1921. Survivers include her son Dennis, daughters Julie and Pamela, grandchildren and great grandchildren.

Business District

At the May 2nd meeting a property owner who purchased real estate on Broadway is having difficulty leasing property. Extensive advertising was not productive. A variance would be necessary to rent as a residence until a commercial use could be found.

Youth Commission

Council was informed that the city does not have an adult representative on the commission. Council was shown a tee-shirt which has been designed by the Youth Commision and has the logos of the seven units of government involved in the Youth Commission. They requested that the city purchase a banner to display in the city with the same design. When the banner is ready the Youth Commission Representatives will return to the council.

Sewer Easements

City Attorney recommended new easements for hook-up to the city sewer extension. Council was informed that permits used on the original project were not recordable and the new ones should be adopted. Council had questions about ownership of septic tanks prior to adopting the easements.

Skyview Lane

Engineer informed the council at the May 2nd meeting that the Feasibility Report for SkyView Lane and the wastewater treatment system expansion were not done at present but would be ready for the special meeting to be held on May 16th.

City Engineer summarized the feasibility study for the Municipal Utilities Improvement for SkyView Lane at the May 16th meeting.

Benefitted properties are along the eastern and western side of SkyView Lane for municipal utilities. Estimated assessments were $2100. for sewer and $1144 for water. Recommendation was submitted that the entire project be assessed to these properties.

Engineer also stated that existing homes with on site systems would have to hook up to municipal systems when existing systems fail or at the end of the five year period according to city policy. Deferred assessments were discussed, but discouraged since bonds would have to be paid. Motion was made and carried with roll call vote adopting resolution approving preliminary engineering report and scheduling Public Hearing on '94 SkyView Lane Improvements.

Insurance

Council discussed Excess Liability Insurance coverage. The cost would be approximately nine hundred dollars per year. City Attorney stated that he didn't think Carver had the exposure to warrant the excess coverage. Motion was made and carried rejecting Excess Liability Insurance Coverage.

Building Permit Charges

Council discussed suggestion of implementation of fees for septic, plumbing and mechanical permits. Council member stated that these permits should be few. Mayor is to check exactly which fees are necessary.

Eagle Ridge Addition

Engineer reported on May 2nd that Mt Hope Road needs improvements. The right-of-way is wide enough for improvements. Eagle Ridge Addition wouldn't be developed completely for approximately five years. It was the engineer's opinion that the city could wait several years to improve the street and sewer should be extended at the same time. He also stated that part of the improvements could be assessed to the new development. The developer was willing to pay for improvements on Mt Hope Road.

Citizen stated that the existing road is not safe in his opinion. He was also of the opinion that the developer should bear most of the cost of improvements to the road.

The engineer for Eagle Ridge Addition was also present at the meeting as well as several residents. The concern that Mt Hope Road was not adequate was the main topic. Road needs more grading. Proposed development with heavy equipment would only deteriorate road further was the citizens' consensus. Suggestion was made to hire private contractor to grade road. Frey was directed to get three written bids for grading Mt Hope Road.

Engineer informed council that the smallest lot in Eagle Ridge is 11,000 square feet and the largest is 31,750 square feet with an average lot size of 14,850 square feet. Homes will cost between $140,000 to $160,000. Council stated that they would like an artist's concept drawing of proposed home styles.

Motion was made and carried approving rezoning and preliminary plat for Eagle Ridge Addition.

Railroad Property

Council was informed that the Rail Road rejected the city's offer for the water tower property. Attorney was advised that Rail Road Administration might lower their asking price to $3500. Council member suggested splitting the difference and offering three thousand dollars. Council agreed to this counter offer

Municipal Utilities

Municipal Utilities Operator suggested putting in meters in new developments which call in meter readings monthly. This system requires different software at a cost of approximately ten thousand dollars. The City of Waconia has said system where satisfaction is great. The cost was excessive but deserved research was the council's consensus. Operator would schedule an appointment with salesperson to present program.

Stray Cats

Citizen brought stray cat problem to the Council's attention. Council directed Administrator to contact the League of MN Cities regarding cat ordinances. Administrator stated that an individual could be contracted to deal with the problem.

Administrator

Council reviewed Administrator Agreement with updated rates and dates. An increase in Administrative hours was discussed. Administrator will give an answer concerning additional hours he is able to work. Clerk will inform council of help needed and some estimated costs.

At the May 16th meeting administrator stated that he thought he could put some extra hours in but would need to do it on a flexible basis. Mayor stated that an additional day was necessary. Administrator was to see if he could accommodate city. Clerk affirmed that more administrative time was needed.

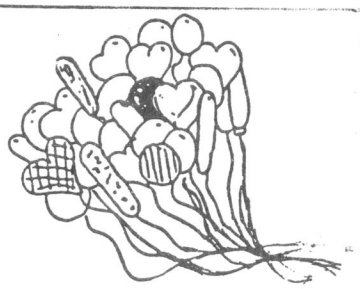

Building Permits

Citizen was present to discuss obtaining a building permit. Present work was stopped since the building inspector was under the impression that a '92 permit did not cover current work. Determination was also made that citizen would be required to present plans to the Heritage Preservation Commission as well, to be able to obtain a permit.

Discussion was held regarding several construction projects which did not meet Heritage Preservation Commission standards.

Comprehensive Plan

At the May 16th meeting the council discussed work accomplished on the Comprehensive Plan. Another joint meeting with council, Planning Commission, Park and Recreation Board and Heritage Preservation Commission was scheduled for July 5th. These organizations are to draft a list of ideas and goals for review.

Miscellaneous

Clean up of a home on Main was discussed. Several letters requesting clean-up have been sent with no success. Suggestion was made to notify city attorney.

Motion was made and carried with all ayes approving advertising for bids on the Sixth Street Project.

Engineer will have a memorandum to present at the Special Meeting regarding Carver Bluffs Addition.

Motion was made and carried to appoint Dorothy Bezdecheck and Nancy Mulhern to the Heritage Preservation Commission.

Motion was made and carried approving the Metro Waste Control Commission Agreement for access to their automonitoring site on city owned property.

East Union kids are tentatively scheduled to help with clean up and pick up in the city.

Council directed request for additional patrolling on Fourth, Ash, Mt Hope and Third Streets.

Fire Department requested that the council send a letter to St Francis Hospital. Discussion has been held concerning a proposal to put ambulances into a pool, which could result in slower response time and having to work with unfamiliar personnel. Council agreed to forward letter.

Council requested resolution regarding connection of homes to municipal utilities should systems fail.

Information was relayed regarding donated air compressor of three phase wiring which will result in the Fire Station having to be rewired.

Council member requested Administrator to draft a letter to NSP requesting removal of high wires over the park.

Council member inquired about status of sirens. Frey responded that a steel plate for siren to sit on was needed. Another council member would have a steel plate delivered to Fire Station.

Announcement/Congratulations!

Ron, Mary and Corey Olson would like to introduce you to the newest member of their family. On Wednesdy, May 25th at 4:03 PM Adam Richard greeted his new parents and brother at St Francis Hospital. He weighed in at 7 lbs 12 oz and was 21 1/2 inches long. He will be joining his family in his East Union home. Congratulations Ron, Mary and Corey!

Disclaimer

The preliminary unapproved minutes from the City of Carver's council meetings were referenced to compose the Villager Tower.

Sixth Street Improvements

City Engineer has plans and specifications for the Sixth Street Project. Bids have been scheduled to be opened on June 1st. These bids would be presented to the council for approval on June 6th and to schedule a Public Hearing. Suggestion was made to schedule Public Hearing for June 27th for assessments. Construction of the bridge would probably occur next spring. Motion was made and carried to adopt resolution approving plans and specifications for Sixth Street Improvements.

Ash Street Bridge

Citizen came to the council regarding the Ash Street Bridge. The city stated that they did not desire to put anymore money into the bridge and warning that it was dangerous. There is consideration of replacing the bridge with culverts. Citizen talked possibly of putting in a rialroad bridge. Citizen was concerned about being land locked if the bridge was vacated. The city attorney stated that a sign limiting weight on the bridge was not a good idea and recommended a sign saying "Travel At YourOwn Risk" instead.

Hilltop Estates Addition

The council discussed the Developer's Agreement for HillTop Estates Addition. The developer did not have a problem with the agreement. Motion was made and carried adopting resolution approving the final plat for HillTop Estates.

Council was informed by city attorney that property has been transferred to the developer. Request was made that the city do a quit claim on small parcel of land about an eight foot gap which the city was not interested in. Motion was made and carried approving resolution allowing the mayor to sign a quit claim deed for the small piece of property. Administrator also informed the council that money is owed by the developer for park dedication.

Tentative Agenda

Submitted by the City of Carver

June 6 1994
Monday Evening 6:30 PM

1) Call to Order
2) Adopt the Agenda
3) Approve Minutes
4) Approve List of Claims
5) Carver County Environmental Grant
6) 1993 Audit Report
7) Variance Request
8) Request-Rehabilitation Loan Funds
9) Eagle Ridge Addition/Final Plat
10) City Attorney/Sewer Easements
11) Septic, Plumbing and Mechanical Permits
12) Comprehensive Plan Review Recommendations/Goals
13) Administrator Report
14) Public Works Report
15) Other Business
16) Adjourn

June 30th	-	Meeting Night/8:00 PM

SoftBall Tournament
Tentatively Scheduled for July 9th and July 10th

Carver Bluffs

Engineer discussed the Carver Bluffs Addition. The engineer's memorandum discussed several problems. Street widths do not meet city ordinance requirements. However the Subdivision Ordinance allows more freedom in design since addition is zoned Planned Residential Development.

City ordinance also requires fire hydrants to be six hundred feet apart, but the Fire Department requested three hundred feet. Recommendation was submitted that ordinance be changed if the city agrees with the three hundred feet.

Part of the Subdivisions Park and Recreation requirements would be met by construction of baseball/softball fields.

The council did not agree with the width of some streets. Developer and council agreed to a twenty-eight foot width of streets. Motion was made and carried with roll call vote adopting resolution for Carver Bluff's Addition with condition of twenty-eight foot road width used and engineer's noted changes.

Carver Lions

Carver Lions donated $50. from the Memorial Fund in memorium of Cheryl Peterson's father Charles Herbert Koch. The memorial funds went to the Boy Scouts.

Request was made to Lions for $5000 start-up donation. Presentation was made for proposed Latch Key Program at the East Union School scheduled to open. The public has responded well to the idea. Books and educational toys are needed. Proposed hours are 6:30 AM to 6 PM. More news to follow.

The results of the Annual Pancake Breakfast were good. Funds exceeding $1700 were donated to Vicky Wickenhauser. Funds were matched from the Lutheran Brotherhood.

The Lions 20th Anniversary party was very successful. Thank you to everyone involved. A special thanks to Tom Larsen, John Lenzen and Margaret Norenberg for the good food and fantastic planning.

Paula Ashley and Arden Carrica have joined the Carver Lions. Congratulations!

Lions discussed getting a bus to go to the Twins game. Anyone interested in this venture should contact Lowell Peterson or any Lions member.

Sign up for Little League is still open for boys and girls.

Bicycle helmets are still available. You can purchase these for only $12 each. Contact Bruce Bernu or any Lion member.

Work day on Community Park Complex is coming up for ballfields. Volunteers are needed. Need information, contact Lions member, city hall and/or Ken Frey for times and dates.

The Lions are in the very preliminary stages of discussing restoration/remodeling of the basement in the Village Hall.

LINE BRED FOR
QUALITY AND TEMPERAMENT

Bloodmobile

This summer try something new. Something that will make you feel great about yourself. Something that less than four percent of the adult population does. Something that saves lives. Give blood for the first time when the American Red Cross Bloodmobile is in Chaska at the Community Center on Monday, June 13th from 1 PM to 6:30 PM.

Don't worry about feeling afraid to give blood. Most people are nervous about donating blood, even regular donors, but the fact is that giving blood saves lives and it is not that painful. It only feels like a pinch. A small discomfort to save a child suffering from cancer or to save a friend seriously hurt in an accident.

To be eligible to give blood you must be in good health, weigh at least 105 pounds and be at least seventeen years old. That's it!

Remember, blood is essential to life. No artificial substitutes can replace human blood. When patients need blood, they depend on you. If donors waited for an emergency to give, it would be too late. Every minute patients in the US use more than 38 units of blood or blood products. An ample supply must be on the shelf when needed. Yet, blood given through the American Red Cross can only come from caring volunteer donors.

Whether you're a regular donor or considering giving blood for the first time, please call Mae Jacobson 448-3104, walk-ins welcome, and give blood on June 13th at the Community Center. There will be a free nursery.
