Volume XIII

April/May 1995

Number ~~#~~ One Hundred Thirty Four

# Villager Tower

## Strategic Planning Goals

**Administrator** reviewed goals and values established by the council. Planning consultant reviewed work completed on the Comprehensive Plan. Proposed developable areas were labeled and statement submitted that city growth could be as much as five thousand.

## Capital Improvments

**Engineer** reviewed areas that would not have municipal utilities. Population projects for Capital Improvements was discussed. Engineer developed a project list. Engineer was of the opinion that the city should have a second well. Sky-View Lane needs to be rebuilt. Also that one third of the streets should be seal coated or overlaid every year.

**Financial** consultants explain Capital Improvement Plan and financial resources. Options for payment for various suggested projects were discussed. Items were discussed as priorities for the city. Conclusion was that ponds/wastewater treatment, water filtration plant and storm drainage items were high priority. Presently pond capacity would be for approximately fifty four more homes. If flowage from outside sources could be stopped, capacity could be increased. Other priority items discussed included fire equipment, public works/par major equipment, public works building and fire department buildings. Mayor suggested a maintenance schedule be developed. Council also discussed that industrial revenue should be pursued.

## Water Tower

Public works director reviewed quote from St Paul Tower for repair of outside water tower and cleaning inside. Sheriff's Department had obtained a set of specifications and suggested city request copy, as well.

## Carver Fire Relief Association

**Fire** Relief representative informed the council that the Relief Association is in good financial condition and may be able to lower required levy amount. Year end report was distributed. Fire Department is also short four members allowed.

## Municipal Utilities Operator Interviews

**Council** conducted interviews for utility operator. Type of vehicle necessary to conduct work was discussed. Council member expressed concern that employee benefits package should also be reviewed. Administrator was directed to conduct reference checks. Present operator would also submit proposal to the city. Council talked about a consulting firm versus an employee as cost effective. Council member requested Public Work's employee's job description be submitted for review.

**Motion** was made and carried extending present operator's contract for an additional month.

## Kennel License Application

**Parties** requesting kennel license were unable to attend meeting to discuss application. Council was informed that submitted plans did not meet ordinance requirements. Question also arose regarding fire code violations. Impression was that kennels were constructed without license. Fire Marshall to be contacted to address fire code, as well as a letter forwarded regarding violation and the need to either reconstruct per ordinance requirements or apply for variance. Issue was temporarily tabled by motion.

## Sherriff's Department

**Carver** County Sheriff's Department deputy reported to the council that the city has been quiet. Council members reported minor vandalism occurring throughout town. Mayor expressed the opinion that he'd like to see more patrolling on weekends. Citizens are encouraged to call deputy's office upon observing violations in order to be aware when and where occurring.

## Community Park

**Representative** of Park and Recreation Board/Youth Baseball Softball Association told the council of need for a shelter/rest room facility at community park (park complex). Shelter was estimated to cost approximately $35,000, but there were funds available for about $20,500. Youth Association proposes to donate about $3000 towards construction in 1995, as well as in the future to aid in completion of the project. Motion was made and carried by roll call vote to adopt resolution financing the park shelter/rest room building as amended. Council commended representative for good planning.

**Council** was also asked about selling space on fences for advertisements for additional revenues. There was no objection to said suggestion providing that there is adherence to sign ordinance requirements.

## Outdoor Recreation Grant

**Council** discussed change of location for Lenzen Addition park dedication funds. Other areas for playground was discussed. Area was only public land available. Two council members were of the opinion that residents should be surveyed for input. Motion was made and carried by roll call vote adopting resolution approving change of location for use of Lenzen Addition Park dedicated funds.

## Park Dedication Funds

**Resolution** presented was required for submitting grant application. Carver County HRA would write grant for the city. Submittal deadline is May 1st and is fifty percent matched funds. Where city's share would come from was questioned. Motion was made and carried by roll call vote adopting resolution authorizing submittal of outdoor recreation grant.

## Municipal Utilities

**Mayor** inquired about well testing being conducted in unsewered/unwatered subdivisions. There has not been any testing and it may be a good idea to test areas.

**Engineer** reviewed McCombs Frank Roos Associates Wastewater Facility plan and costs. Another engineering firm reviewed their plans with the council.

A company Osmonics explained water filtration plant information which filters and purifies water. Their system was an alternative to sand filters proposed for water treatment plant. This system was easily expanded, a state of the art technology for water purification. Membranes are the major maintenance costs. Council member asked about cost of a membrane replacement. Response given was forty to fifty thousand dollars. Question was asked if system would cause corrosion problems on pipes. Chemicals would have to be added to relieve said problem. System basically operates itself. System require about a half hour per day of maintenance operator's time. System would need approval by the Health Department, as well as another required permit.

**Attorney** was of the opinion that sewer easements should be sent to all Carver residents, requesting signature of form. Motion was made and carried to adopt utility easement agreement.

**Municipal** utilities operator alerted council regarding lift station failure and repairs. Main lift station needs repairs. Estimates for repairs are forthcoming.

**Mayor** requested attendance of State Engineer to discuss alternatives in order to increase pond capacity.

**Several** letters were presented to council for review. Discussion was held which letter should be sent to MPCA and Met Council regarding request to extend sewer in Carver Bluffs. Council also talked about wastewater plant capacities.

**Mayor** was also of the impression that ponds had capacity for first phase of developments. Engineer stated he'd told council during planning phase that there was not enough capacity and ponds would have to be expanded. Mayor requested engineer to research figures presented at meeting. Council was told of an inflow problem. If flow and infiltration could be stopped, capacity of ponds could be increased. Administrator suggested revised letters be formulated and submitted to the MPCA and Met Council.

## Fire Protection System

**Council** was told of fire protection system installed in basement of Village Hall. Question was asked about service agreement. Council discussed service agreement. Insurance agent should be contacted regarding requirements. Staff was directed to research cost effective maintenance systems.

## Eagle Ridge Addition

**Several** complaints were received about sand blowing from Eagle Ridge Addition. Developer plans to seed and have top soil put down in completed areas. A silt fence will be constructed if necessary. However, this fence will not do any good for sand.

## Sixth Street

**Council** was told that contractors will resume work on Sixth Street as soon as road restrictions are removed.

**There** has been erosion in area of the bridge replacement. Engineer got estimates for rip-rap which was approximately sixteen thousand dollars to repair erosion problem. Engineer was of the opinion that the County/State should pay for these costs for erosion repair. Motion was made and carried to submit change order for erosion repair to Carver County and the State of Minnesota.

**Council** discussed erosion problem on Spring Cree. Response has not been received for repeated request of recommendations for repair. Suggestion was made to contact Lower MN River Watershed District. Another problem has risen, as well as regarding a spring on property. Contractor plans on constructing a retaining wall.

## Ordinance Recodification

**Attorney** explained that reviewing ordinance recodification was taking longer than anticipated. Attorney also suggested that ordinance should be reviewed annually after recodification is completed. Mayor said that some action was necessary regarding industrial par and should be in place prior to reality. This code should also be adopted in entirety, not piece meal. Motion was made and carried scheduling a Public Hearing on recodification of commercial/industrial district session of the Zoning Ordinance on April 25th.

## Tax Increment Finance District

**Administrator** explained that no development had taken place on land zoned Commercial/Industrial after property had been put into a tax increment financing district. Therefore, Carver County has removed area from tax increment financing status. Issue was to be discussed further at a special meeting.

## Disclaimer

**The preliminary unapproved minutes from the City of Carver's council meetings were referenced to compose the Villager Tower.**

## Miscellaneous

Council discussed erection of new sign or moving an existing sign. Decision was made to move existing "Slow-Children At Play" sign to attempt to eliminate problem.

Council member told council of proposal to update and paint fire equipment. Issue to be discussed at special meeting.

## Yellowstone Raccoons 4-H Club

The 4-H members will be selling potted and hanging baskets until the end of the month for their club fundraiser.

Members are planning for fair projects. Some members will be attending Day Camp at Baylor Park. Some members are building bird houses for 4-H projects.

Next meeting will be held at Village Hall on May 16th.

## Carver Lions

The gazebo being constructed downtown is the combined efforts of the Lions and the Heritage Preservation Commission.

The Lions held their elections, however installation of officers do not occur until June. Newly elected officers are as follows:

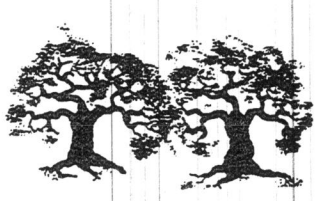

| | | |
|---|---|---|
| President | - | Ken Frey |
| First Vice President | - | Cheryl Peterson |
| Second Vice President | - | Larry Schenck |
| Third Vice President | - | Chris Boatwright |
| Secretary | - | Gratian Welter |
| Treasurer | - | Ben Lano |
| Tailtwisters | - | Chips Lieverman |
| | | Harlan Thamert |
| Lion Tamer | - | John Posselt |
| Four Directors | - | Cheryl Peterson |
| | | Harlan Thaemert |
| | | Ben Lano |
| | | Chips Lieverman |
| Membership Chairman | - | Paul Kerber |

The Lions have three new members. They are: Jim and Penny Stai and Marsha Peterson.

Lions have donated an additional $10,000 towards the Village Hall Basement Project.

The Lions will sponsor bar for the Black Sox fundraiser on May 7th at their Sheep-Head Tournament.

The Village Hall basement floor had been stripped, waxed for the final time. Some kids skated on the newly finished floor leaving marks. The floor had to be redone.

## Black Sox Fund Raiser

The Carver Black Sox are seeking players for this season. If anyone is interested in playing for the Black Sox contact Paul Reimer, 448-3422. Practices will begin May 6th. The season opens May 21st.

Reminder: The Black Sox Sheephead Tournament will be May 7th at the Village Hall. Starting times are 1:00 PM; 4:00 PM and 7:30 PM. Entry fee per session is $2. Money will be donated to Community Park (Park Complex). Tickets are still available for drawing at the tournament. Contact Paul Reimer.

## Carver Community Youth Baseball/Softball Association

Youth Association is getting ready for the 1995 season to begin. Coaches will be contacting kids with team information and practices.

At the April 25th Association meeting was the Pizza Fundraiser ick off. This was a great success last year the group hopes that this year will be even better. Information will be going out sometime soon.

The community fields are in need of some work before the season starts. Anyone interested, please call City Hall.

Association encourages parents to become involved with their son/daughter's Baseball/Softball program. Time spent with your child is time well spent.

Remember, everyone is part of this baseball/softball association. So please get involved.
