VOLUME XIX

Number # One Hundred Seventy Six
January/February 2001

Mayor James Weygand

On January 2nd, 2001 Mayor Elect James Weygand was sworn in as the new mayor or 2001. The Oath of Office was performed. Newest council members also took the Oath of Office at this time. The new council members in 2001 are Wayne Voelker, Robert Lenzen and Michael Webb.

FROM: Jim Weygand

I would like to welcome the readers of the *"Villager Tower"* to a new year. This is also the start of a new two year term for the council and myself. In this term the council will be addressing many of the issues of continuing growth. For our public utilities the plan is to add a new well and water tower. Plans for a water treatment and filtration plant will also be discussed. This plant should improve the quality of our water, but unfortunately will also increase our water bills. Look for a public meeting on this subject in spring. The council is looking for public input; so this is the time to voice your opinion.

Another issue facing the council is the space needs for the city's public works and public utilities departments along with the fire department. The recent defeat of the new fire house referendum in the election id not solve the space problems, but it did make it clear the voters did not like the solution as presented on the ballot. The city is in the process of putting together a committee to address possible options, and we are looking for three members of the public to participate on this committee. I know many of you have opinions on this subject so contact city hall about becoming a member of the committee.

These are just the more visible issues that will be addressed in the next two years. There are many others such as: continued development and growth, improving city parks and trails, maintaining and improving the historic district and finally reducing the city share of property taxes. The council wants and needs your input on these and many other issues. You can participate by joining city committees and attending council meetings. The council is looking forward to seeing and hearing from you in the future – especially the new residents of Carver.

Remember planning for SteamBoat Days 201 starts on January 31st. The more members of the committee the merrier. We invite you to become part of this fun event.

Kindest Regards
Jim Weygand

Carver Bluffs

The council reviewed variance request for bluff setback provisions. The bulk of the discussion involved Block 5 in Carver Bluffs. These lots were platted in 1994 when set back requirements were thirty feet, not fifty feet. It was explained to the council that four lots had plans to build walkout basement types of homes prior to Zoning Ordinance changes. Erosion could be prevented.

Discussion was held on the slope of the bluffs. Equipment on the bluffs during construction was also talked about. The council was told that the builders would be removing as few trees as possible. Builders are subject to current ordinances. A compromise was necessary. One compromise was necessary. One compromise would be a patio rather than a deck. Set back would include the deck not just the house. The Planning Commission recommended thirty foot set back from bluff. Resurveying was discussed. The contours were also talked about. Resolution was to be drafted. Motion was made and carried that dwellings be no closer than thirty feet from the bluff line and decks can be no closer than twenty feet and erosion controls are necessary.

The administrator reported that requested documents for the DNR (Department of Natural Resources) have been submitted. The city should receive some reimbursement. The balance of reimbursement would be forthcoming in spring upon final inspection by the DNR.

Stop signs have been put in the development.

Sheriff's Report

The City of Carver has been quiet. There were some dog complaints, a minor domestic and some vandalism. Speeding on Sixth Street was brought to the department's attention. City employee requested the department to pay attention in the park when the skating rink is completed. Exhibition driving has already occurred.

Fire Department

The Fire Chief told the council that the snorkel truck could not be started when there was a fire. It could have been used. Alternative plans for storage space is to be discussed between the council and fire department.

Fire Chief Dauwalter told the council that there had been eight calls in December. For the year there were one hundred nine (109) calls. This is a record high for the department. The council requested a breakdown report of all the calls made in 2000, showing types and locations. A special work session was scheduled and these statistics would be analyzed.

There were two issues that would be discussed. The needs of the Fire Department and the Public Works/
Municipal Utilities storage needs. Since the referendum had failed, alternatives needed to be looked into for storage for these departments and how this need could be accomplished.

Council member stated that the townships should be involved in the workshop regarding needs of two departments for storage. Brief discussion was held on fire service.

Village Hall

Administrator explained to the council that there are problems with rental of the Village Hall. Damage and fights have occurred. Changes were implemented, but it has not helped to eliminate these problems. The council was asked about changes in rental policies. Restrictions based on geography was fair and enforceable, the attorney stated. The council was asked to approve cancellations. Motion was made and carried allowing renal to only fire district residents and athletic uses tentatively.

Mayor Cindy Monroe

The administrator addressed the mayor. She was told that the council and staff wished to commemorate her term as mayor and council member. Her accomplishments during her term were noted. A plaque was presented to Cindy thanking her for her service to the city. CONGRATULATIONS CINDY! Lots of luck.

Sunday Liquor Sales

The council discussed and reviewed drafted ordinance amendment for Sunday Liquor Sales. Hours of operation came under discussion. One council member was of the opinion that the closing time on Sunday should be earlier than 1 AM. Motion was made and carried adopting the amended ordinance with opening time to be 12 PM and closing to be 1 AM.

Miscellaneous

The council adopted the resolution approving the Conditional Use Permit for the construction of a garage with an apartment within on Fourth Street.

The council reviewed a bid packet concerning drilling a test well. The council adopted the resolution approving the bid packet for drilling a test well authorizing initiation of the bidding process.

Council approved the agreement with the Lower Minnesota River Watershed District by motion.

Funds have been made available for pursuing a sprinkler system in the Community Park. Bids will be sought for this project.

A kick-off meeting for the SteamBoat Days Committee is scheduled for late January. Anyone interested in participating for the annual event can contact Council member Wayne Voelker. It's never too early to start planning.

The council was updated on proposed County Road #147, Carver County plans. A map was reviewed that was received from the county. Impression was that bridgework would be done first.

The council discussed council representation on the SteamBoat Days Committee. Since the committee consists of three council members, the meetings should be posted as a public meeting.

The administrator told the council that the DNR purchased property from Lano by the Minnesota River. A celebration is scheduled tentatively at RiverSide Park in May.

Grant Program

The administrator explained that the Metropolitan Council has been asked to cover fifty percent of a projected cost to conduct a comprehensive inventory of wetlands located within the city limits and certain nearby areas that are potential annexation areas or areas that generate storm water run-off affecting the city's wetlands. The Met Council supported the project, but were not willing to commit more than ten thousand dollars of the cost. The project had been scaled back to $30,000. Other interested parties who may possibly contribute funds were the Lower Minnesota River WaterShed District, Carver County, and the US Fish and Wildlife. Motion was made and carried accepting responsibility for $5,000 of the projected $30,000 cost of wetland inventory and analysis prepared by the city's engineering consultants. This is part of their work involving the city's surface water

Municipal Utilities

The council reviewed bids submitted for a water well test drilling. The engineer informed the council that three bids had been received. The low bidder was Mark J. Traut Wells, Inc. Motion was made and carried awarding the project for drilling of a test well to Mark J. Traut Wells, Inc. The expressed concern was regarding summer water usage. The engineer explained some restrictions by the DNR (Department of Natural Resources) that they may impose on the City if a new well is drilled into the Mt Simon/Hinckley aquifer.

The council discussed utility fees and connection changes for 2001. Question was asked whether or not a public meeting should be scheduled regarding increasing municipal utilities fees and the $6 surcharge. The mayor stated that the "*CARVER QUARTERLY*" should include information to inform the residents that the "*CHASKA HERALD*" is the official city newspaper. The council was told that new residents receive packets from city personnel. The administrator also relayed that resolutions need to be updated as well which will reflect the decision to increase fees.

Snow

The Public Works Department submitted request to purchase a snow blower attachment for the bobcat. This equipment could be purchased at a discount and available through a government buying program. One council member expressed his opinion that this equipment would be a time saver. Purchase of the equipment was authorized by motion.

Subdivisions

The council discussed recommendations by the engineer to reduce the Letters of Credit for three subdivisions within the city. Warranty bonds would be requested, as well to ensure completion of developer's agreements.
Motion was made and carried accepting recommendation for reductions to Letters of Credit and Bond Warranty's for Carver Creek First Addition, Carver Creek Second Addition and Carver Bluffs Second Addition.

YELLOWSTONE RACCOONS

The Yellowstone Raccoons 4-H meeting and party were held at the home of Tad Thon. Sliding, pizza and gift exchange was on the agenda. During a brief meeting, Matt Timmons read a letter explaining his family's participation in the Walk for Juvenile Diabetes Research. He also requested a donation from the club. The group voted to donate $25.00.

Their January meeting was held at Lauren Stelton's home. The club went ice skating, played ice hockey and had a bonfire. The informal meeting took place around the fire. Project selections were checked Thank you note was presented for donation. Fair booth work schedules were discussed. The club will meet again on February 20th where they will be making 4-H vests.

Organization Resolution

Appointments for different city committee's representations were discussed and decided by resolution, which was passed by motion and carried.

Lime Street – County Road #40

The council was informed that the hairpin turn on the corner of Lime Street and County Road #40 requires some type of action be taken to eliminate this dangerous curve. It was a council member's opinion that this curve could possibly be improved by removing the pole and widening the turn.

CITY EMPLOYEES

Paul Ness of Helping Minnesota Cities, Inc was hired by the city to review the employees pay structure points system and job descriptions. The system was explained to the council. Motion was made and carried accepting Mr Ness' recommendations regarding new point ratings for the positions of the Executive Administrative Assistant, Maintenance Worker and Public Works Director. Raising the point structure is done through job changes and education.

Health benefits were also discussed by the council. Increases to benefits would be put into effect. Further discussions will be held in fall.

PUBLIC ADVISORY COMMITTEE

The city council made a motion to create a City Facilities Advisory Committee. This committee would research and draft proposals for facilities needs for the Public Works, Municipal Utilities and Fire Departments. Members were discussed and decision made as to whom would serve on this committee. The mayor, Jim Weygand, Ken Frey, Paul Schultz and Mike Webb were chosen to serve on this committee. Tentative Fire Department representative would be Jeff Wertish. The township would be contacted to submit recommendations for their representation. Also a citizen/resident will be sought for representation.

BLOODMOBILE

The Bloodmobile is coming to the Chaska VFW on February 26th for the Carver area. The times for bloodmobile is 12:30 PM to 6:30 PM If you want to make an appointment, contact Linda Riesgraf at 952) 448-4914.

Registration will be March 10th
Saturday 9 AM - 12 PM
And
Wednesday - March 14th
6 PM - 8 PM

MORTGAGE FINANCING OFFICE

Mortgage Consultants of MN in Bloomington is pleased to announce the opening of their branch office in downtown Carver. Now you can get all of your mortgage financing needs met right here in town!

Roxanne Lenarz, who lives here and has over eight years experience in the mortgage business, will do an excellent job in helping with your financing needs. She was instrumental in opening the Carver office after longtime resident and business owner, Jackson Russell suggested that Carver would be a perfect location for a mortgage office. Roxanne enjoys living in Carver and is delighted at the opportunity to serve this area for all your mortgage financing needs. While Roxanne will be in and out of her Carver office (as she is happy to take your applications for mortgages in your home or office), she invites you to stop by when she is in. Or you can reach her at 952) 368-0088.

Mortgage Consultants of MN is located at 304 Broadway, Carver, MN 55315.

GET WELL WISHES EXTENDED:

Rich Olson -Recently had major surgery
Jerry Wallace -Major surgery done
Ron Young - feeling under the weather
Bob Pearson - Hospitalized due to recent accident

Hope you all get well real soon and are up and about. Anyone not mentioned is not an intentional oversight. Wasn't told. Forgive me.

Bonne St. James, Proprietor

Operation Smile

Do you know what Operation Smile is all about? Operation Smile is a volunteer organization made up of physicians and nurses. These physicians and nurses go all over the world and in the United States to patients who need surgery to correct cleft-lip and/or cleft-lip palate. Without these surgeries, many would never be able to smile. Money raised pays for transportation and medical supplies.

The Chili Feed scheduled for March 4th is the Sixth Annual Feed. Since the first Chili Feed (five years ago) over $57,000 has been raised! THAT'S A LOT OF SMILES!

There's something really special this year. There are celebrities scheduled to appear at the Village Hall. There will be Board Members from 'Operation Smile'. ALSO, did you know that Linda Riesgraf's sister is going to serve Chili? Do you know who Linda's sister is? Her name is Mary Grandpre'. Now where have you heard that name? Ms Grandpe' is the illustrator for the Harry Potter's books. How is that for interesting trivia for Carver? And Linda gets to claim her for her very own. Now that's pretty special!

Linda asked to relay that any Harry Potter fans and of course, kids, if you bring your book to the Chili Feed and ask Ms Grandpe' she will autograph your book. Now is that "*cool*" or what?

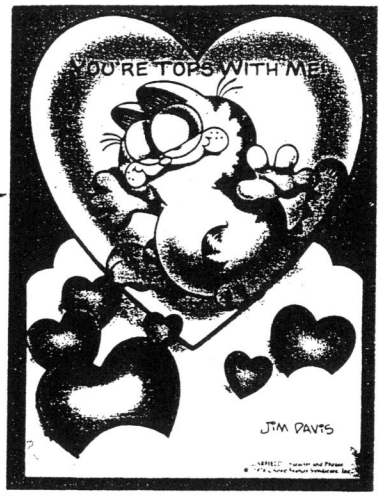

Here's another sidenote that deserves mention, thanks to Linda. The FireLadies Cookbook, titled, "*Smoke In the Kitchen*"; Ms Grandpe' was the illustrator. I bet she'd autograph them as well. Welcome to Ms Grandpe' and thanks Linda for sharing this with all of us.

Children five and under can come to the Chili Feed on March 4th and eat free! So Grab those Harry Potter books, those cookbooks and go meet Linda's very own celebrity, her sister, Mary.
