Number # One Hundred Seventy Seven
February/March 2001

Public Safety

Carver County Sheriff's Department deputies were represented at the council meeting. Inquiry was made regarding public dances at the Village Hall. The council was going to be asked to extend the current moratorium indefinitely.

Speeding on County Road #147 was briefly discussed. The issue would be looked into.

Municipal Utilities

The council discussed septic tank conversions. Explanation was given that the process would take fifteen years based on thirteen tanks per year being removed. Deterioration and repair of manholes was an expressed concern. Determination had been made that three individuals were needed per day and half to remove a tank, hook up to municipal system and restoration of the area.

The council discussed the need for an excavator. This equipment was needed for tank removal. However, it could also be used elsewhere. Cost was discussed for this equipment. Motion was made and carried to prepare specifications and go out for bid for the equipment.

The council also talked about a change order regarding Well #2. The change order involved piping water away from the test well to a ravine behind Meadow Bluff Addition. However, there are concerns regarding erosion. The engineer was of the opinion that erosion could be minimized. The council approved the change order.

The council discussed bond issuance for bonds for Fourth Street west project. A financial consultant addressed the issue of refinancing bonds for municipal utilities revenue bonds. Refinancing for the city qualifies with the bank and should receive lower interest rate. The bond market has been stable for the past month. Motion was made and carried by roll call vote adopting the resolution to refinance bonds for municipal utilities revenue bonds.

The council was told that drilling has begun for the test well. Problems were occurring due to the equipment freezing.

Carver Bluffs

Parkway Trailway:

Administrator reported on the need for a path in Carver Bluffs for safety reasons. Grant application submission was underway to the DNR. The council was asked to confirm their interest in proceeding with plans to contact other agencies for help with building the trail. Motion was made and carried approving support to submit grant to generate funds covering portion of estimated cost and to hold a Public Hearing on the project.

Bluff Setback:

Variance application (bluff setback) in Carver Bluffs was requested from the council. This particular setback request was similar to the past requested presented to the council. Motion was made and carried by roll call vote adopting resolution to approve variance request for bluff setback required with the same conditions as precedented earlier.

Fourth Street West Sidewalk

The council discussed sidewalk extension on Fourth Street West. An option to apply for a grant from the DNR was studied. Question was asked if project assessment was an option. The question will be put to the city attorney. Question was also posed if Tax Increment Financing Funds could be used for downtown project. This question will be asked of the consultant. Motion was made and carried approving the "Concept Plan" for the sidewalk extension and to prepare for submission to defray costs of project with the stipulation that Public Hearing be scheduled also.

Highway #212 Project

The council talked about appointments to committees for the Highway #212 project. There would be two committees. One was Technical Advisory Committee and the other would be Policy Advisory Committee. Council member Webb volunteered upon council approval. Motion was made and carried to participate in the Interregional Corridor Management Plan for Highway #212. They appointed Dan Boyam, city engineer to serve on the Technical Advisory Committee and Webb to serve on the Policy Advisory Committee.

Quality Of Life

Carver County Planer, Paul Moline was at the council meeting to discuss the Carver County Quality of Life Indicators. Slides about the project were shown to the council. The Commissioner explained that this program is for elected officials, developing leadership, drawing on each other's strengths and leaning on one another. Feedback is very helpful.

Miscellaneous

The council reviewed and finalized the Employee Compensation Schedule.

The council discussed and reviewed the Village Hall rental policy moratorium issue. Use of the hall had been restricted to use only by local residents. Decision was made to continue this policy.

Village Hall office renovation was discussed. Until the former Old Presbyterian Church has been renovated, the council meetings will be held in the lower level of the Village Hall.

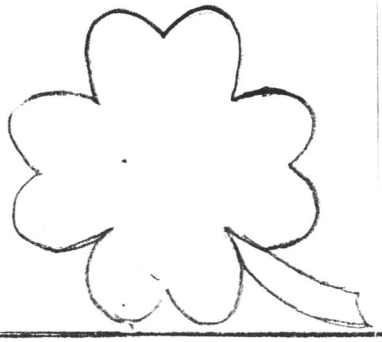

Planning Commission vacancies were discussed. Applications were reviewed and individuals were interviewed. Decision for filling vacancies will occur in the near future.

Motion was made and carried to appoint Joy McKnight, Joanne Armstrong and Marvin Grimm to the Planning Commission Board .

Adopting the 2001 Fees Resolution was briefly discussed. No action was taken. The issue will be studied more. The fees issue will be discussed again in the future.

Renovation proposal for Harvey's Bar is being looked into.

The council briefly discussed of making future annexations to the west of Carver.

Carver Lions

The Carver Lions are preparing for their BullHead Feed and Pancake Breakfast. (look for details in paper-separate ads)

For anyone who is interested, there will be free diabetes testing done at the Pancake Breakfast (March 25th). If you would like to have this test done, remember; don't eat or drink anything prior to coming to have the test done.

Have any old glasses lying around or hearing aids that you don't know what to do with? Bring them with you to the BullHead Feed or the Breakfast and give them to the Lions. Otherwise you can drop them off at the Carver Depot.

New members are always welcomed and needed. The Lions meet the first and third Wednesday of each month at the Village Hall. Come and join them. Or just come and see what they are all about.

Scott Carver Threshers History Book

Research is still occurring for the history book being written for the Scott Carver Threshers Association. Anyone have any information that they would like to share about William, Carl or Nellie Olander? They are looking for information on these people. They were from the East Union area. Looking forward to hearing from you... The committee is also still looking for posters for the Threshing Bees held in 1968 through 1975 (5th – 10th shows) and the (12th show) in 1975. All of the buttons have been located. The Scott Carver Threshers Festival will be held again the first weekend in August. There will also be a Swap Meet on the Jordan showgrounds May 5th and 6th.

Information is being received by Ricki Schultz at 14210 County Road #40, Carver MN 55315. (952) 448-5126.

Carver Youth Softball/Baseball Association

There will be a kick-off meeting for the Carver Youth Softball/Baseball Association in the Village Hall (upstairs) on March 5th at 6:30 PM to 8:30 PM.

Registration is scheduled for Saturday, March 10th from 9 AM to Noon. The second registration date will be March 14th, Wednesday from 6 PM to 8 PM.

Gazebo

The council discussed the policies for the gazebo in the park. Question was asked about use limitations at certain times, such as Steam Boat Days. During this time of the annual celebration, rental would not be permitted. Scheduled rentals would be considered by the council, such as for weddings, art fairs and the like.

Presbyterian Church

The council discussed the Presbyterian Church. There were inquiries made regarding lead paint. Interior lead tests revealed that there was not any lead. However, the exterior had high levels. Procedures are being researched for work done outside. Question was asked if siding could be put on the outside. Siding was not in the plans. The State Historical Society would like to see it restored as close to original as possible. Proposed plans for the church renovation are to be put on the agenda for the next meeting.

Fire Department

The Fire Department discussed proposed purchase of a washing machine and dryer for the Fire Station. The firemen would do all the necessary installation work required. An OSHA requirement is that gear be washed. It is difficult and time consuming to have this done. The firemen decided that the purchases need to be made at this time. Motion was made and carried to purchase these items for the fire station.

The council was also informed that the Chaska VFW has donated money towards more air packs for the department.

City Park Improvement Plans

The city attorney submitted recommendation that the city retain an individual to prepare a 'park study'. Administrator recommended the logical candidate was the city planner firm. The study proposal submitted by Ms Meg Monigal was two parts. The first part covered Growth and Cost Analysis. The second part involved Capital Improvement Plan. This two-tier plan provides a strong information base to support a revised park dedication fee. The second part offers strong planning steps and provides long range observations for park improvements, as well as developing plans to achieve the improvements. Motion was made and carried approving Meg McMonigal's phase one plan.

TENTATIVE AGENDA

MONDAY EVENING 6:30PM

1) Call to Order
2) Approve Agenda
3) Petitions from Residents
4) Consent Agenda
5) Public Safety
6) Municipal Utilities
7) Administrative Report
8) Liaison Reports
9) Other Business
10) Adjourn

Yellowstone Raccoons 4-H Club

By: Norma Timmers

The February meeting of the Yellowstone Raccoons was held at the home of Alissa, Kelsy and Micah Mills. The bulk of the evening was devoted to the making of vests by the members. Each youth present cut out the fabric and with the help of the adults, sewed the vests as well. For many members it was their first sewing project and they learned a great deal.

A short meeting followed. President Julia Timmons conducted the proceedings. Tad Timmons gave the treasurer's report. The group also discussed a service project and the desire to know more about the blood mobile. Several upcoming dates were shared with the group, especially Share the Fun contest scheduled for April 2nd and 3rd. The group will have one practice for the contest prior to the next meeting. Details on where and when were not determined, but members will be notified.

A special thanks goes out to Sue Mills who purchased the material and assisted with the sewing projects. Also, past-leader Ruth Melchoir came and assisted with the sewing and deserves the club's thanks as well.

The March meeting will be rescheduled due to the East Union band concert. Members will be notified of the details.

SteamBoat Days 2001

By: Kathy Guenther

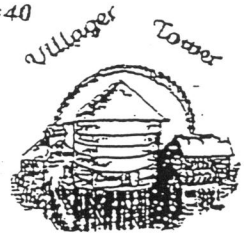

Planning for SteamBoat Days, September 7th – 9th has begun! Our goal is to make the 2001 celebration bigger and more fun than ever! In the works this year is an expanded citywide garage sale that will include widespread metro area advertising and maps—so start putting aside your goods and goodies. We are hoping to utilize RiverSide Park area for additional activities, games and refreshments. One of our goals is to increase the number of games and fun things to do for the kids. In order to reach this goal, we are looking for workers to run these games. These will be paid positions. Anyone who is interested can contact Mary at 952) 361-6233. Or come to our next planning meeting to find out more. One of the activities that the young folks enjoyed last year was making and launching pop bottle rockets, supervised by our honorable mayor and local rocket scientist, Jim Weygand. The "rocket factory" will be up and running again this year in RiverSide Park. To prepare for this event we will be collecting empty 2-liter plastic pop bottles. Look for the drop-off barrel at the Carver Post Office. Carver SteamBoat Days is an annual community celebration. The planning committee consists of city residents, and we are always looking for new members, ideas and suggestions. Please COME and JOIN us at our next meeting, Wednesday, March 28th at 6:30 PM in the Village Hall Lower Level. THE MORE THE MERRIER!!
