Volume XIX
Number #One Hundred Eighty
July / August 2001

Water Ban

Stricter enforcement of water use within the City of Carver is necessary. The time permitted to water lawns has changed to 9PM to midnight. Residents will no longer be allowed to water from 12 Am to 9AM.

Any questions, contact City Hall at 952) 448-5353

Municipal Utilities

The council discussed change order regarding manhole improvements. Plans involving the Fourth Street Improvement project include replacement of manhole. Consensus agreed that it would be more cost effective to replace the manhole and coat it with epoxy to protect it from sulfide gases. This would also prove to be a good test for the Infratec procedure to protect manholes. Motion was made and carried to approve the change order and replace the manhole cover.

The council further discussed the test coating procedures. The coating will be done to several other manhole covers.

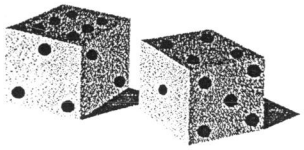

Job Description

The council reviewed job description, advertisement and proposed utility position opening. Helping MN Cities, Paul Ness submitted recommendations to the city. Staff was directed to further refine the job description for possibility of additional position for utilities personnel.

Public Works

Council was updated on discussions pertaining to Highway #212 and County Road #40. Additional traffic from development is a concern.

The council briefly discussed Main Street Bridge requiring work, down town improvement projects and County Road #40 upgrading.

Depot Park

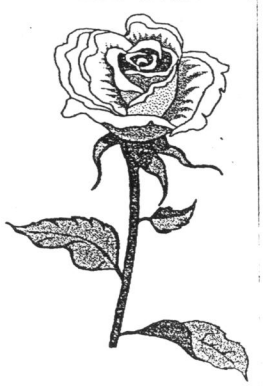

City would like to make improvements at Depot Park. However, issues need to be addressed in order to continue. The right-of-way in that area needs to be defined. There is also the issue of the Lime Street intersection posing difficulties. The issue of drainage in the area also requires attention.

Proposed Senior Housing Facility

The council received the preliminary report from the Environmental Site Assessment pertaining to the site near the Trinity Lutheran Church proposed for possible Senior Housing Facility. There were several items that would require further investigation on site. Copies were to be forwarded to the church personnel for their review. Council consensus was to defer further action until further development of plans were discussed.

Department of Fish and Wildlife

Fire Chief, Dauwalter discussed an Agreement with the Fish and Wildlife Department. There was a possibility of this department helping the Fire Department purchase equipment if the agreement were signed. The city attorney was not in agreement with a part of the previous agreement. In order to take advantage of the grant availability, it was necessary to sign and return the agreement by the end of June. Motion was made and carried authorizing signature of the agreement with the Department of Fish and Wildlife and the grant application dependent upon the city attorney's approval.

Down Town Improvement Schedule

City Administrator reported the consensus of the businesses and the council was that the improvements were not to start prior to SteamBoat Days. The city engineer has drafted schedule planning chart to begin October 8th with completion occurring November 2nd. Heritage Preservation Commission members were to be invited to the Public Hearing scheduled for July 2nd. Motion was made and carried to adopt the proposed schedule for the Downtown Improvement project.

At the Public Hearing held the administrator reported that the street lights for the downtown improvement project had been ordered. Arrival of the lights was expected in six to eight weeks. Payment by the entire community was talked about. The Heritage Preservation Commission stated that they would like more input and involvement where placement of trees and poles were to occur. This event would occur upon draft of Plans and Specifications. Engineer talked about drafting a concept plant. Two residents voiced their opposition to the plans. Other oppositions were heard. Maintenance was also brought up. The issue of sidewalk repair bids was brought up. The amount was found to be less costly than proposed assessments.

One business owner interjected that the it was his opinion that it would wiser to spend less money as these improvements would not enhance his business. Mention was made that an assessment hearing would occur after the project was completed. Another business owner commented that business owners should have a big say in proposed improvements since they are paying for them.

Motion was made and carried adopting resolution ordering improvements and preparations of plans for the downtown street improvements. Further discussion was held on the issue. Public comments determined that most were in favor of paver bricks and trees. However, there was not agreement with concrete planters. These items should be kept separate on the Plans and Specifications. The benches were not totally unpopular. Bump outs (sidewalk extensions at intersections) were also an issue of debate. Decision was made to remove bump outs from the plans.

Water Supply Emergency

Residents have been informed on the status of the water system. Proposed resolution was drafted declaring a water supply emergency and implemented watering restrictions throughout the city. The action was the result of the water tower being low and the inability of the pump to fill it and keep up with demand.

Ordinance Updates

The City of Carver adopted an ordinance regulating wireless telecommunications towers. Changes have been made to the Conditional Use Permits and created a New Conditional Use Category within the city limits. Be sure to check with City Hall with any issues pertaining the above topics.

Animal Control Ordinance

The council discussed the issue of dogs in city parks. The topics of leashes, shock collars and cleaning up after the animal were all talked about. Consensus of the council that dogs should be allowed in parks with the stipulation that owners clean up after them. However, the animals would not be allowed on the ball fields. Changes would be clarified in the ordinance.

Carver Lions

The Carver Lions are hosting a picnic for the exchange students at the Lions Park the end of July.

The Lions are also sponsoring the Chaska High School Band for River City Days, Chaska's celebration is the end of July, and the parade, is Sunday.

SteamBoat Days is fast approaching and the group is preparing for the big event scheduled for September 7th, 8th and 9th.

Tentative Agenda

1) Call to Order
2) Approve Agenda
3) Petitions from Residents
4) Consent Agenda
5) Public Utilities
6) Public Works
7) Administrative Services
8) Liaison Reports
9) Other Business
10) Adjourn

City Insurance

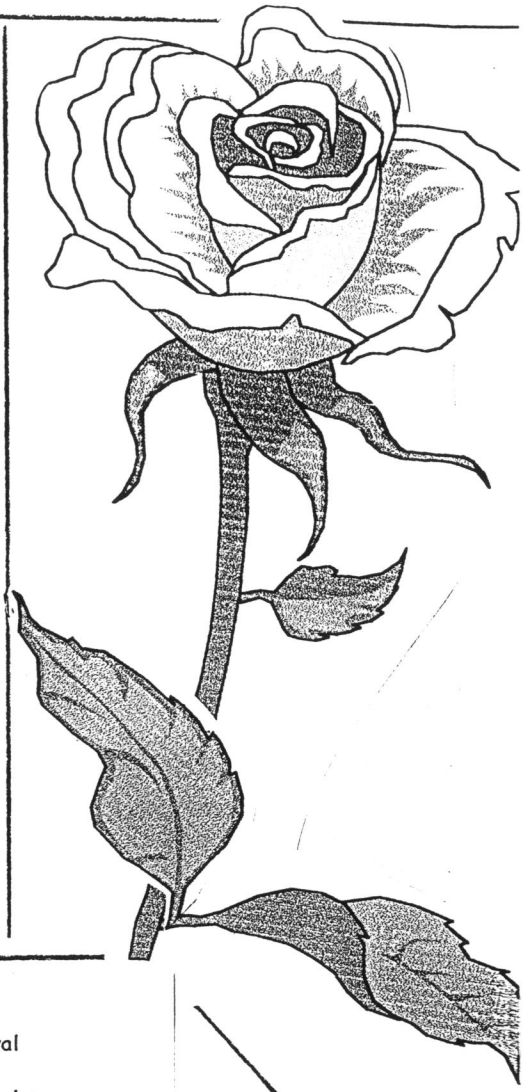

The council discussed tort limits first. Motion was made to waive the Statutory Tort Liability limits to the extent of the limits of coverage from the LMCIT (League of Minnesota Cities Insurance Trust).

The council then discussed motor vehicle coverage for city personnel. Motion was made and carried authorizing motor vehicle coverage for the Fire Department, Council and Staff. Agent suggested maintaining a log of personnel proof of validity for licenses. Fire Chief pointed out that volunteer fire fighters are exempt from said requirement.

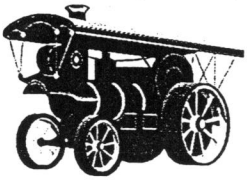

Motion was made and carried authorizing obtaining blanket performance bond covering all staff.

The following topic was discussed regarding special dram shop insurance for special events. The council was of the opinion that this was a very expensive insurance. Agent pointed out that this is a new insurance and is very expensive at this time. The council elected to decline the coverage.

The council then reviewed flood insurance for the fire station, community hall and the church. Flood insurance is not carried presently. The community hall is not in the flood plain. The fire station contents could be removed if necessary. The cost of insurance for the church was more than the city wanted to pay.

Scott-Carver Threshers
38th Old Time Harvest Festival
August 3, 4, 5, 2001
