Volume XXIII
Number Two Hundred Seventeen
August/September 2005

Miscellaneous

The council was told that the new truck and snow plow had arrived ready for the upcoming winter conditions.

The council was also told by the Public Works Department personnel that the trails and the parking lot at the Community Park had been paved.

The city was also updated on the irrigation systems at Community and Bluff Parks and a tot swing set has been installed at the Lions Park.

The Public Works department also publicly thanked June Krohn for her time and efforts asserted into ensuring the beauty of the flowers throughout the city.

The council discussed prohibiting drinking in the downtown and depot park area. The attorney suggested consideration of restrictions imposed in all city parks. Motion was made and carried with all ayes adopting the ordinance regulating the consumption of intoxicating liquor and non-intoxicating malt beverages in city parks.

Community Park

The council was informed of the Park and Recreation Board members desire to install lights at the Community Park ice rink area. Two quotes had been procured. Recommendation was submitted to accept the low quote with the alternate, which would allow the city to save money with lower maintenance and operating costs over time. Motion was made and carried with all ayes accepting the low bid with an alternate to install lights at the Community Park Ice Rink arena.

Temporary Living Center

The City Planner updated the council on the processes utilized regarding the Conditional Use Permit request presented for the Temporary Living Center. The applicant was prepared to give a presentation, but the council had already viewed it declining the offer. There was no input from the audience on the issue.

Motion was made and carried adopting the resolution denying the request for a Conditional Use Permit for multiple family development for the Temporary Living Center request. The city attorney stated that the issues with the Temporary Living Center were technical issues, which could be resolved by the organization, and if they chose to do this they could re-apply for the Conditional Use Permit.

There is nothing noble about being superior to some other person. The true nobility is in being superior to your previous self.
– Hindustani Proverb

Centex Homes Applications

The City Planner stated that the council needed to discuss the proposed Centex Homes applications and to provide them with information in advance of numerous actions scheduled for the upcoming agenda. The project is in an environmental review process at this point. The council was told that the 'Grimm' house would not be a viable option for preservation as desired. However, the brick from the structure with the city's support would be utilized for brick monuments along the trail system. The Park and Recreation Board members recommended this use as well. The council consensus was to support this recommenddation as well.

Clark Wicklund, Engineer with Alliant Engineering made a presentation of their project to the council. Notation was given of a noticeable elevation difference on the property. The presentation displayed house styles. Questions presented by the Planning Commission were also addressed.

Municipal Utilities

The city engineer reminded the council of their authorization to proceed with the Booster Station plans. The council was told that the project includes the construction of a five hundred gallon booster pumping station inside the existing water treatment plant on Mt. Hope Road. The engineer also reported that the related work, which would be required to be bid separately, includes the trunk water main construction along Highway #212 and County Road #147 and pressure reducing valve installation. Motion was made and carried with all ayes approving Booster Station Plans and Specifications ordering the advertising and scheduling of the bid opening.

District #112 – School District

Mr Roepke and Mr Heiland attended a township meeting regarding the proposal for exchanging the bus site presently located in the City of Chaska. Proposal consists of swapping property to place the bus housing site on property presently owned by Klingelhutz, which is in Dahlgren Township. The bus shed would involve approximately nine acres. The map presented to the township board also included an option site for the Carver County Maintenance Facility. Public Facilities are tax exempt and would be removed from the tax rolls. The township however has in place a resolution not allowing non-agricultural building without a residence. Township residents expressed many questions concerning this fact.

Do what you can with what you have where you are. - Theodore Roosevelt

East Union Country Fall Bazaar

The East Union Church is holding their Country Fall Bazaar on Saturday, October 1st from 10 AM to 2 PM. The Bazaar will be featuring crafts, quilts to raffle, collectibles, baked goods and the country store, as well as a delicious lunch being served. Be sure to mark your calendars and join the fun. The East Union Church is on County Road #40. See you there!

Highway #212

The project managers from Highway #212 Staging, MN DOT and Zumbro River Constructors were all present at the council meeting to discuss the scope of work involved with the highway project proposed from Eden Prairie to County Road #147. The project is scheduled for completion by the end of 2008. The contractor reviewed the time schedules inclusive of various segments of the projects street closures and by-passes. The council was told that County Road # 147would be closed for approximately a month while work in the area was being done. Comments and/or questions, concerns can be directed by contacting MN DOT at www.mndot.gov or at www.511mn.org, as well as updates on the project.

Highway #212

The project managers from Highway #212 Staging, MN DOT and Zumbro River Constructors were all present at the council meeting to discuss the scope of work involved with the highway project proposed from Eden Prairie to County Road #147. The project is scheduled for completion by the end of 2008. The contractor reviewed the time schedules inclusive of various segments of the projects street closures and by-passes. The council was told that County Road # 147would be closed for approximately a month while work in the area was being done. Comments and/or questions, concerns can be directed by contacting MN DOT at www.mndot.gov or at www.511mn.org, as well as updates on the project.

Did You Know...

...that Carver's first school in the 1850's was taught in a building at the river front by a certain Mr Clark, who was married to Jeanette Holmes, the sister of Carver businesswomen Enoch Holmes. The first school may have been held in the same shabby building that was once owned by Carver founder Axel Jorganson and called the Hotel Luksenborg.

... that in 1878 Nicholas Schoenborn opened a barber shop in the Planter's House Hotel on Broadway. The planter's House occupied the present day site of Carver's Gazebo Park and survived into the 1940's.

River Bluff Estates

The council discussed River Bluff Estates issues. The developer has proposed to relocate a topsoil stock pile to Outlot 'B' and a revised schedule. The council had many questions regarding these issues and tabled the item until the attorney could comment. The council reviewed the presentations from proposed landscape plans from the past. These plans involved the areas disturbed in fall while completing the pond grading. It was indicated that adjustments could be made in the landscape plans to the disturbed area as submitted by the council and staff.

Question was asked concerning the completion date in the Developer's Agreement. The completion date was December 1st, 2004.

The developer has been contacted regarding this issue and the grading is only about halfway completed. The developer informed the council that there has been difficulty in dispersal of the dirt and finding places to deposit the dirt. The developer was asked where the first sixty thousand yards had gone. The council was informed that a building permit would be pulled for a four unit building soon and would be completed by the end of November or early December. Mr Roepke representing the development addressed the council regarding the necessity for additional time than allowed on the agreement. One council member opposed granting additional time.

The council further questioned the developer about replacement and replanting of trees. The developer stated that this would be done upon completion of the pond grading scheduled to be about two weeks. Council member inquired about procedures that could be taken to quicken compliance with deadline in the Developer's Agreement. In this instance completion within five days was not possible and the city could complete the improvement themselves but the attorney did not recommend this procedure due to liability issues.

There was lengthy discussion and motion made and revised regarding the River Bluffs Development. First motion was made to instruct the staff to research components of the feasibility of taking over the development. Council member expressed concern that this was not the best step to be taken on suggesting changing the completion date while withholding the building permit. Replanting of the trees also needed to be reiterated. It was a council member's opinion that the developer has been disrespectful and dishonored the city and the city codes. Another motion was made to amend the developer's agreement with a completion date of July 2006 while withholding issuing building permits upon grading completion, the pond completed and the trees replanted. The council then entertained a motion and discussed the contents that after completion of grading of the pond, trees replanted per Plan #2 that the building permits of four units each could be issued with the balance retained until the final grade of the property with a completion date of December 2006. The city attorney stated that the grading deadline has been scheduled and that the balance of the work should also be scheduled and set. Suggestion was submitted that the first two permits be issued upon completion of ponds and tree planting and the second two permits be issued at the completion of grading This motion failed. Then the council discussed amending the developer's agreement by scheduled date and no building permits being issued along with pond completion and replanting of trees. The final motion made and carried with three ayes and one nay involved completion of grading of the pond and replanting trees per the plan, one building permit of four units would be allowed to be issued and the remainder withheld until the property was at final grade with a completion date of September 1st 2006.

County State Aid Highway #11

The engineer explained to the council the need to name the county road. One council member expressed a liking to the name of 'Jonathan Carver Parkway'. Motion was made but failed to name the county road "Jonathan Carver Parkway". After some discussions it was decided that the issue should be returned to the Planning Commission for their input and recommendation. One council member stated reference of using the township name, but it could be used also in the future. There was not a specific deadline date noted. The city planner also pointed out that Dahlgren Township had been once known as 'Liberty Township'.

Seal Coating Quotes

The council and the engineer discussed the issue of seal coating and reviewed the quotes for 2005. The Public Work Superintendent reviewed the budgeted amount and discussed some work being done on trails. Motion was made and carried awarding the low bidder the contract for seal coating with the public works superintendent having the option of discussing and reviewing required work necessary.

Water Tower Design

The council reviewed different styles and costs of water towers, along with the gallons of water retained in these towers. The council requested pictures so that they could better visualize the tower styles. The council discussed the reasoning for storage capability at the water tower. The additional storage capability would possibly justify the additional cost. The issue would require further discussions and more information.

Spring Creek Development - Centex Homes

The city planner reviewed the four resolutions requiring adoption by the council concerning the Centex Homes Spring Creek Development. The administrator stated support for the city planner's recommendation regarding the negative declaration regarding the necessity for an Environmental Impact Study, approval of the Comprehensive Plan amendment and approval of rezoning. The administrator pointed out preliminary plat issues involving street width, water tower locations, creek restoration and city participation, traffic lights and existing house status. Motion was made and carried with all ayes approving the resolution finding that the proposed Spring Creek Residential Development does not have potential for Significant Environmental Impacts. Motion was made and carried with all ayes approving the resolution amending the Comprehensive Plan. Motion was made and carried approving with all ayes the Resolution approving rezoning from agricultural to Planned Residential District as amended.

The council discussed the resolution involving the approval or denial of the preliminary plat for the Spring Creek Development. The engineer expressed concerns regarding the cul-de-sac, which did not meet requirements, and future traffic signals that are not currently addressed by city ordinances. The city attorney interjected that the staff had reviewed this issue with alternates for future developments. The attorney suggested that the engineering/architectural contractors complete a study whereupon an area wide fee could be charged for signals with the study in place. There were questions involving this development being charged for such an item. Traffic counts had been done for County Road #11. The engineer also pointed out that the retaining walls have guard rails in the right-of-way and the city would be required to maintain these in the future. Motion was made and carried with all ayes approving the preliminary plat of single-family lots and right-of-way for approximately seventy five and half acres for Spring Creek Development with changes recommended by the city planner.

Rottlund Homes – Concept One

The city planner informed the council that the developer for Rottlund Homes had discussed the development with the Park and Recreation Board and the Planning Commission. This developer has expressed interest in construction of historic looking homes. The property being considered is approximately forty five acres and special attention will be paid to the wetlands which are the headwaters to Spring Creek. The price range speculated for these homes would be the upper $200 thousand to $300 thousand dollar homes.

Carver Women's Business Group

The women are busy with SteamBoat Days participation and working on the upcoming Xmas in the Village/Taste of Christmas.

Carver Baseball/Softball Youth Association

The Carver Baseball/Softball Youth Association thanks everyone for their support all throughout the year. They ask you to come and support SteamBoat Days. Be sure to stop in at the Malt Wagon at the event too.

Carver Lions

The Carver Lions invite you to come and help the community celebrate SteamBoat Days. Be sure to come and support everyone at this event. Most of the Lions energies are all into preparing for the big upcoming event.

However, the Lions did recently host the Youth Exchange Program with their annual ball game and picnic. They always have time to teach kids from all over the world how to play ball and enjoy a picnic. I just 'betcha' the food was just as much out of this world and delicious as was the atmosphere and fun taking place.

Starting in September, the Lions will be back on their winter schedule with their meetings on the first and third Wednesday of the month. Their meetings begin at 6:30 PM with dinner and then immediately following is the regular meeting. Be sure to come and see what they are up to and when, where and how you can join in on all the fun.

They will be planning their annual Halloween party once the SteamBoat festivities are over. The Halloween Party will be Saturday, October 29th. Carnival theme and it's time to start thinking about those costumes for the munchkins. It'll be here sooner than we think and are really ready for. Afterall, it is almost September and by time of print, it will be September.

The Lions also found time to help a local family get eye exams and eye glasses so that the kids are all ready for school. Thanks Lions.

Carver Black Sox

Check out the Black Sox' web site at www.carverblacksox.com

SteamBoat Days Raffle

If you haven't seen the quilt to be raffled off during SteamBoat Days, you best rush right on down to Hazel Art and take a peek, along with buying your raffle tickets. Linda has created what she calls "*Stars and Stripes*". The quilt measures 95"_x 95". If memory serves me right, I think she said it was a little larger than 'queen' size. The quilt is the grand prize. This year, there are ten other prizes being raffled. These great prizes were donated by businesses locally. You can buy your tickets from the Carver businesses and during SteamBoat Days. All of the proceeds from these sales help to keep the festivities going from year to year, so you are supporting the event in your own way too.

Remember, there is also two other raffles occurring during the festivities this year. There are two original oil paintings available. They were created during the Arts Celebration. Our very own local artist, Suzanne has graciously offered one of her creations, which is being displayed at Objects and Art. The other painting was done by Reid Gayle displayed at Hazelnut House. Tickets for these art pieces can also be purchased at local businesses. The drawing for these pieces will occur on December 10th at the annual Taste of Christmas event at the Church-By-River. The proceeds from this raffle will be donated towards the funds to restore Depot Park.

PS, if you are interested in helping to support the festivities of SteamBoat Days...all donations will be graciously accepted at the Depot in the change jar at the checkout (paper won't be turned away). These funds will go towards SteamBoat Days. Just think, a hundred pennies equal $1.00. Instead of throwing your change, throw it in the jar and be able to say, "I helped fund SteamBoat Days". Only you will know it wasn't thousands or hundreds of dollars. Well, maybe some of your friends will know you tell tall tales.....thanks, in advance for any and all help!

Check out the city's newsletter for more details on SteamBoat Days. Or you can go on line to the city's web site for more information.

Taste of Christmas

Speaking of the annual event, the Taste of Christmas. The planning stages have begun for the annual event. The women's group is hoping that Santa and the reindeer will return again this year. The group is planning the house tours again too. So if you would like to participate, be sure to contact one of the women in the group. The ladies are hoping for decorated homes not only from within the city core, but outside the core city, along with some country homes. There are rewards for opening your home to guests for touring your holiday décor creations. The Taste of Christmas is tentatively scheduled to follow the home tours. Tickets are available already. If you are interested in being included on the tour route, contact Barb Swanson at the office. All proceeds from this event are donated back to the city. Watch for upcoming issues of the city newspaper and the "*Villager Tower*".

Antique Show

The annual Antique Show in Carver is scheduled for the Village Hall on September 24th from 10 am to 5 PM and on September 25th from 11 AM to 4 PM. This year will be the show's thirtieth year and will host twenty five dealers selling quality antiques for your home or for your cabin or for gifts for whomever. Admission will be $5 per person. Be sure to come and check it out.. Welcome to the Antique Show participants.

School Board Elections

School Board elections are scheduled for November 8th 2005. There are six candidates who have set their sights on the seats for the school board and only four positions to be filled in the District #112 School District. The candidates are John Bell, Rod Franks and Sally Stuckey, all from Chanhassen, Craig Cook and Michele Helgen both from Chaska, and Diane Koban from Victoria. The Eastern Carver County League of Women Voters is planning on hosting a School Board Forum on Tuesday, October 25th at the Chaska High School. This forum starts at 7 PM.

School District #112

The school district invites residents to subscribe to their weekly online newsletter, 112Online. The brief update is from the Superintendent, David Jennings, and includes information on student successes, school board decisions and upcoming events. To subscribe, go to the schools website at www.district112.org click on "subscribe to 112Online" on the left column. (remember, if you don't have a computer, you can use the library's computer and they will help you if you need assistance).

Caboose

Paul has told the "*Villager Tower*" that they are planning on sandblasting and painting (not lettering) yet, the caboose sometime in September. They are also working on getting the window sashes and glass repaired. Interested in helping? Don't waste time and wait until they are all done, stop in at the Depot and ask questions and offer your help.

Minnesota Harvest Apple Orchard

In case you missed the 'news flash' and you are interested. Horseback riding is available at the MN Harvest Apple Orchard in Jordan. They have "Dreamy Hill Trails" that you can saddle up and ride on. Want more information? You can call the orchard, go on line (www.minnesotaharvest.net) and read more about it, drive up to 169 Apple Lovers' Lane or e-mail Cheryl at mnharvestcheryl@aol.com or call 952) 492-2785. Need a toll free number? Call 800) 662-7753.

Did You Know ...

....that the first flag in Carver was made by some of the town's ladies, including Mrs William A Griffin, Mrs Bartis and Mrs Eliza (Torrey) Griffin. The flag was hung from a rope stretched high across Broadway from Levi Griffin's Carver House Hotel (now the site of Carver's Gazebo Park), to a building across the street.

....that in September, 1869 Dr CE Rogers opened a dry goods and grocery store in Carver, this four months after his appointment to Postmaster in Carver.

...that in September 1882 the Carver merchant firm of Peterson and Holms on Broadway added a twelve foot addition to their store, making it the largest General Store in Carver County.
