In Loving Memory: "Russ Johnson"

"And if I go,
While you're still here...
Know that I live one.
You will not see me,
So you must have faith.
I wait for the time we can soar together again.
Until then, live your life to its fullest.
And when you need me,
Just whisper my name in your heart,
.....I will be there."

Author: Ricki Yvonne Schultz

When I finally met Russ and Barb along with Buttons at the Thresher's Show in Jordan in front of the East Union Store, little did any of us know the journeys that we would make together over the upcoming years and how much we would all become to mean to one another and the many more journeys we would continue to travel. We lost Russ in October. That part of our journey has come to an end.

Barb and Russ were one of those rare teams. They were inseparable, down to earth, asked very little of anyone and made due with the necessities. You couldn't nor ever will meet a couple who were so synchronized in their every day living. They were soul mates, best friends, companions and very much in love. It is almost unimaginable to visualize one without the other. But the "Almighty Power That Will Be" had other plans for this team leaving behind a grieving, lost, confused counterpart. Along with a huge void in the circle of friends around them. Together we will all get through this, but a wonderful, giving soul has gone on ahead of us. We all must continue struggling down the path of life without him; consoling one another and filling this huge void. It is with heavy heart and sadness this day that I have to say, "Goodbye Russ." His memories will live on forever in all of our hearts and minds.

Original Oil Paintings Raffle

Remember those two original oil paintings created during Carver Arts Celebration in June? The Carver Today scene painted by our very own local artist, Suzanne and the 1800's Carver painted by Reid Gayle are each on display in Carver, one at Objects and Art and the other at the HazelNut House. Tickets are still available to participate in that drawing. If interested, contact any local business in Carver. The raffle for these paintings will take place at "Taste of Christmas" on December 10th. The proceeds from this raffle will be put towards the restoration of Depot Park.

Holiday Gift Boutique

The Southern Stars Girls Scout Service Unit will be presenting their Annual Holiday Gift Boutique in the Village Hall on December 3rd from 11 AM to 3PM during Carver's Holiday Village Christmas Celebration. This could be your perfect opportunity to do some holiday shopping for all ages and find that perfect craft for a family member, a teacher or that special friend. There will be "shopper's helpers" available to escort the lil' munchkin's through the sale while the adults check out either the bake sale or while browsing through the variety of crafts. These items are handmade by the local Girl Scout troops. Come and enjoy the bake sale, coffee and juice. The proceeds from this event fund the girl's projects and field trips. And the troop will be accepting non-perishable food shelf items as a community service project.

"The DragonFly Gazette"

Did you hear about the new newsletter in Carver? Read all about it. Right here. At Funky Minds, the youngsters are creating a Carver's Youth Newspaper, called the "The DragonFly Gazette" on Thursdays (November 3rd, 10th and 17th). Sure would like to see the fine job the youngsters did. Think anyone would share a copy with the "*Villager Tower* "? We'll have to see huh? Good job kids.

MN DOT – Highway #212

The city engineer explained to the council that MN DOT requested both of the cities, Chaska and Carver, to consider a name for the exiting portion of Highway #212 west of Mt Hope Road and east of the new Spring Creek Drive that will be constructed with the Spring Creek Plat. Both cities will be required to agree on a name Question was asked about scheduling a joint meeting between the two cities. The administrator was directed to contact the City of Chas ka to make inquiries of their suggestions. The engineer stated that almost certainly a joint powers agreement would be necessary for the road. The issue should also be presented to the Planning Commission for their recommendation.

Carver Lions

The Carver Lions have completed putting up the Christmas decorations in the downtown park. Thanks Lions.

The Carver Lions are making preliminary plans for a Senior Citizen Luncheon scheduled for December 14th, Wednesday from 11:30 AM to 3:30 PM at the Village Hall. The luncheon would be sponsored by the Carver Lions. It will feature lunch fellowship, prizes and treats for senior citizens who are Carver residents. Interested, call City Hall at 952) 448-5353. The Carver Lions will have a more detailed press release in the upcoming City of Carver December newsletter. Watch for details.

The Lions hold their meetings at the Village Hall on the first and third Wednesday of the month at 6:30 PM. If you are interested, please don't be shy. Come and check it out. You may find that not only do they put their efforts in the local community to make things more pleasurable, but also world-wide the Lions are trying to make someone's life just a little bit better. So joining would be quite an experience. For more information, you can contact Gary Marquardt, President at 952) 467-4345.

The Carver Lions would also like to extend their heartiest "Season's Greetings" to one and all in the community.

"Friendship warms the heart & heals the soul"

"Those who weave color into our lives leave us with a tapestry of beautiful memories"

River Bluff Estates

The council reviewed the erosion issues with the River Bluff Estates. The engineer reported to the council that the entire storm water pond along County Road #40 had been completed. Erosion since has occurred due to the September rains. Repairs were made and then erosion continued because of the heavy rainfall in October as well. The developer has been required to re-establish the entire slope of the pond thanks to Mother Nature. Sediment will also have to re-excavated and removed Springs in the slope will have to be addressed as well, thereby re-sloping and reestablishing the slope will have to be done. The engineer reported that drain tiles may be required to deal with the springs in the hill side.

Village Hall Rental

The Park and Recreation Board recommended fee increases for the rental of the Village Hall when alcohol is involved. The council reviewed the ordinance amendment. Motion was made and carried with all ayes adopting the ordinance amending the chapter relating to miscellaneous licenses and permit changes.

Carver Baseball/Softball Youth Association

Written by: Diane Schwalbe

The Carver Baseball/Softball Youth Association is still looking for volunteers to help Jane Thon organize the Boy's Baseball league for the 2006 season. One responsibility of this volunteer(s) would be to contact the Athletic Director (Jordan, Norwood-Young America, Waconia, etc...) from our neighboring towns to inquire if the City of Carver's Baseball team could join their league. For additional information, please contact the City Hall at 952) 448-5353 or attend the next Park and Recreation Board meeting, scheduled for December 12th 2005 at 6:30PM. The meetings are held at the Fire Station/Public Works facility located at 801 County Road #147. The sooner we get into action, the better chance we have to play ball.

Revised Emergency Safety Plan

The council was told that the Carver County Director had not had the opportunity to review the Emergency Safety Plan. The council discussed changes and additions to the plan. It was the mayor's opinion that the plan should state a name for a back up individual in case the mayor was not available. The plan should also define the Public Information Officer along with the location address of the Emergency Operations Center.

Council Vacancy

The council conducted interviews for the vacancy created on the city council. Each candidate presented their statement giving a brief background of qualifications. The council preferred to appoint a candidate. Motion was made and carried with three ayes and one nay appointing Kerry Peterson to fill the vacancy on the council. It was the council's consensus that all five candidates were all well qualified.

Did You Know...

...that many of Carver's early sidewalks were made of Chaska or Carver bricks and that some of these early walkways still survive underneath today's concrete sidewalks.

Wireless Internet Service

The administrator had spoken with the City of Chaska regarding their wireless internet servicees. The City of Chaska would be willing to talk about a pilot program with the City of Carver after they had gotten all the bugs out of their system. Motion was made and carried with all ayes to formulate a sub-committee to pursue a pilot project with the City of Chaska for wireless internet service. Motion was made and carried appointing Cindy Monroe, Mike Webb and Jim Elmquist, the administrator to pursue a pilot program for wireless internet services with Chaska.

Economic Development Authority

The council discussed proposal regarding Highway #41. Administrators from the cities of Chanhassen, Chaska and Carver met to discuss Highway #41 options. Presently it appears that there are still six options being considered that affect all three cities. The option involving the City of Carver would miss RiverSide Park, River Bluffs Estate and Lano Lane. It was the mayor's opinion that there were reasons this option should be considered. This avenue increases the business/industrial growth potential because of better access availability. The bridge would most like not be built until 2030, however the City of Carver may have more planning input by agreeing with this option.

The attorney addressed the group about the responsibilities entailed as an Economical Development Authority. It was pointed out that at this time that there is no significant comercial/retail development. Tax increment funds are possible which would mean encouraging this type of development. "Pay as you go" tax increment funds are the simplest forms of Tax Increment Funding financing. These involved the developer constructing an infrastructure and the city reimburses some of the cost. Tax Increment Funds can also be utilized to generate affordable housing. Districts would be required to be set up and the Metropolitan Council has indicated that they will mandate affordable housing in the future. The city planner indicated that incentives for affordable housing will have to be offered to developers. Land trusts were also reviewed.

The current Comprehensive Plan regarding Economical Development is required to be rewritten as well. The group reviewed their suggestions and thoughts for the Comprehensive Plan changes.

District #112 – School Board Election Results

In case anyone is interested the school board election results are in. They are as follows: the following four people were elected to District #112 school board for four year terms, Rod Franks, Michele Helgen, Diane Koban and Salley Stuckey. Congratulations to each of them.

"Let's Celebrate Winter"

The East Union Elementary School is presenting their "Let's Celebrate Winter ... with a Song". The Second and Third Grade students will be presenting the program in the East Union Gymnasium on Tuesday, December 6th 2005 at 6:30 PM.

Mt Hope Road – SkyView Lane Improvements

The council held a Public Hearing regarding the Mt Hope Road/SkyView Lane improvements. The engineer gave a presentation of improvements listing costs for each part of the project. The determination of the interest rate was based on the payment rate for bonds sold to finance the project and the recommendation from the city's financial advisors. Senior citizen deferrals were not an adopted policy of the city. Citizens need to request deferral forms through the county. Delaying municipal utilities hook-ups were questioned. These would be issues needed to be worked out. Citizen stated that hook-up fees were high. These costs were evaluated annually and justified when future improvements were calculated. Question was asked about changes for storm sewer and curb and gutter. Response was given that charges for the same work cannot be done twice. Issues concerning rebuilt sewer systems had not been addressed yet. Cemeteries and holding pond areas do not get assessed. The city attorney talked about the interest rate, assessment terms and several other issues.

SkyView Lane assessments would be discussed at a future meeting. Discussion occurred regarding drafting letters involving hook-up to municipal utilities and should be sent tentatively around May of 2006 with a ninety day hook-up time schedule.

Motion was made and carried with all ayes adopting the resolution accepting the calculated assessments for Mt Hope Road improvements with the city's share at 60 % and resident 40 %, and 6% interest for ten years.

Transportation Proposals

The city engineer reported that various utility engineering studies being conducted. Relating to the growth in the proposed Comprehensive Plan area. Costs were discussed while reviewing the Spring Creek plat issues also being addressed. Then after recent meeting involving agencies in the Southwest and Northwest areas of the Alternate Urban Area Review, it has become evident of the necessity for addressing various transportation options in the Comprehensive Plan area, as well. Content and costs of this report were outlined by the engineering firm. Motion was made and carried with all ayes authorizing preparation of a transportation plan

Miscellaneous

The council reviewed the bids received for the Main Street Lift Station. Bids received were higher than anticipated. The engineer explained that electric and building costs are higher, therefore, the bids were higher than expected. The issue was tabled.

The council was told that the School Board (District #112) is readdressing future plans and requested input from the cities.

The staff was directed by motion to prepare an attendance roll for the past eighteen month calendar period for regular, special and liaison meetings.

"Life is changed....
.....not taken away.

East Union Elementary School

Today I was invited to the East Union Elementary School in East Union, Minnesota. Why was I invited to the school? The Elementary School was having a very special day today, the 22nd of November, 2005. They were participating whole heartedly in their "Career/Hobby Day". I had the pleasure of meeting the school's principal, Mr Greg Lang, the school's secretary, Jan Wellens, the caregiver of the Club Care whose name is Kari Lamkin and participated in intently listening to what their guests had to offer the younger generation of the first to fifth grade children. There were teachers, parents, volunteers, friends and I suspect some grandparents intermingling in the festivities, as well. I know Al and Nannette Mellgren who was the perfect hostess as I meandered about to absorb the enthusiasm in the whirlwind of events taking place. Brings back memories of long ago when my three children attended this school. It still offers the friendliness and buzz of activities that thrill these youngsters. Such innocence and so impressionable and so eager to learn, share, give and create.

The District #112, Elementary School of East Union was clearly utilizing and optimizing the 'American Education Week' theme in preparing for this event. It's really refreshing to visualize that creativity and imagination still exists in this small country setting, not gobbled up by the fast paced monopolized scheme of too much, too soon, and unable to take a breath to 'stop and smell the roses' cliché. Their program was scheduled to begin at 9:45 AM with twenty sessions in the morning and fifteen sessions in the afternoon ending at 2:35 PM for the 153 students attending this school. The various participants were also offered a delicious pot luck menagerie of salads, wild rice soup, crackers, and desserts and beverages.

The MN State Patrol Trooper #9 helicopter made a stop at the school for the kids. The kids were excited. First they got to see the helicopter land. They got to ask questions of the pilot. It was my understanding that they also got to sit inside the chopper. My arrival was after the fact. They were eager to ask questions and talk to the pilot. After lunch the kids got to see the chopper leave. The kids were excited, exhilarated, in awe, and some mocked the blades twirling. As he rose upwards and began ascending, the kids waved goodbye, many chasing after the craft. He circled the school before heading east. It was almost more fun watching the excited youngsters than the ascent. "A moment they will remember for a lifetime." A grown up commented.

There were a total of thirty five sessions with volunteers, teachers, parents who shared their insight on various professions. Some that I stopped to observe were jewelry making, photography, landscaping, cake decorating, snow boarding, archery, bicycling, and kayaking. Some of the other vocations shared with the youngsters involved air traffic control, apples, chocolate from Cargill, carpentry, recycling, speech, fishing, military, pharmaceutical sales, pheasants, the police department, semi truck driving, veterinary, x-rays, advertising graphic design, law, auctions, card making and language.

Some other highlights involved at the East Union School that require sharing with all of those who could not attend this event include the Club Care Program. They created a quilt on a cotton backing with drawings that were made with crayons and sandpaper that was hanging in the gymnasium of the school. Kari is available before and after school for the kids to participate in educational and craft projects, and/or games. The East Union children are one of the first schools to be utilizing what is called 'Smart Boards'. Probably what some of us would identify as being similar to a projection screen unit that is most likely obsolete. These boxes interact with the computer and are displayed on a very similar screen that was labeled a white board. This gives the kids access to the internet also. But these are boxes in the middle of the room coming down off of a pole in the ceiling. There are monitors throughout the hall displaying messages regarding the school. The one that caught my eye was the "Hawk Code of Conduct", listing four areas of "Cooperation"; "Responsible"; "Respectful"; and "Safe". Then there was the billboard with seven choices of pictures on it. Each sheet of paper was submitted by a designing class for their annual event of choosing a cover for a yearbook. This year, there would also be a back cover submission. The children voted on their choice. Second place would be their back cover. Each submission however, would be included inside the yearbook. The children voted on their choice on their way to lunch.

Last but not least was the sharing of the project the 4th and 5th grade students along with their parents and staff had completed on the 21st of November as a part of their 'Service Learning Project'. The group made blankets and scarves for the CAP Agency Crisis Center. Each blanket had its own individual tag for it's recipient. Mrs Kelly Wiebe was quite excited about the students being able to complete this project giving back to the communities who give to them. It is a gratifying accomplishment in many ways. They should be proud.

So in conclusion, I wish to say thank-you for inviting this reporter to their 'career day'. It was fun, quite an experience to see all those eager faces and share in their excitement of showing off to visitors and sharing these special moments with all of you. It was a delightful, gratifying experience and I learned a lot as well. Look forward to being invited again to share these moments with all of you and hope that I am available to do it again.

Village Christmas

It's almost time. Just when we thought we had plenty of time, wouldn't you know, the Christmas season has gone and snuck up on us. It's almost here. In a couple of weeks Santa and his reindeer will be here, here in Carver, that's right. Santa and his reindeer are scheduled to stop at noon at the Gazebo in downtown Carver on December 3rd. Word has it that the fire truck is bringing Santa. There's been arrangements made for a hay wagon being drawn by a horse to come and stroll around town and check things out. Santa, his reindeer and the horse drawn wagon have another engagement that day so they will all be off to their next appointment at 2PM. When you've gotten a bit chilly from all the outdoor activities of visiting with Santa, his reindeer, riding on the wagon and visiting with your neighbors and becoming acquainted you will be offered treats and hot chocolate. After you have done all these things, and you are thinking you can head on home, - wait! There's more....you just have to stop at the Village Hall. The Girl Scouts are having a Bake and Craft Sale.

House Tours

The Village Christmas House Tours will begin their tour of holiday homes at 3 PM on the 10th of December. You will be able to tour seven homes who have graciously invited you to see their beautiful holiday creations until 6 PM and by the way, the event becomes grander each year. Maps will be available at the Church-By-The-River for self-tours. You will be able to pick up these maps from 2:45 until 5 PM. If you want to share your holiday decorations in the house tours, you still can, you can contact Barb Swanson at 952) 448-4580. PS tickets for this event are $15.00 per ticket.

Taste of Christmas

Then, following the house tours you will be treated to the "Taste of Christmas" at the Church-By-The-River from 6:30 PM until 8:30 PM. You can purchase tickets for this event for $25.00 per ticket. This 'Taste of Christmas' festivity is a catered event. There are delicious hors d'oeuvres, beverages and live music for your entertainment. And remember, this year, the raffle drawing for those two paintings will be held. Everyone attending also receives an envelope. There are coupons and gift certificates with values exceeding the cost of the ticket to come and join the fun. Be sure to buy your tickets early, there are only eighty (80) available tickets. So if you are caller eighty-one you've lost out. You can purchase tickets at the City Hall, Swanson and Associates, Klein Bank, HazelNut House, Objects and Art and the Potted Fig. Remember, all proceeds are donated back into the city. If you have questions or wish to order these tickets by phone, call Linda Schutz at 612) 987-5454. These events are sponsored by the Carver Women's Business Group.

Merry Christmas and Happy New Year

Alternate Urban Area Review

Northwest Carver Area

The city planner reported to the council the necessity for requiring adoption of an order for the Alternate Urban Area Review specifying location and the type of development being analyzed. At least one scenario consistent with the adopted Comprehensive Plan is required. In this case that would be the county's plan. Also required is one scenario consistent with any known plans of developers. Motion was made and carried with all ayes adopting resolution ordering an Alternate Urban Area Review for the northwest Carver area.

Southwest Carver Area

Motion was made and carried with all ayes approving resolution ordering an Alternate Urban Area Review for the southwest Carver area.

A representative from Tolleffson was present at the council meeting to inform the council that the developer was adding an additional 190 acres over what was set out in the resolution. Agreement was made that an amendment to the resolution would occur at a later date.

The city planner explained the resolution to the council requesting formal hearings relating to contents of the systems statement for the City of Carver and Dahlgren Township. Necessary changes to the systems statement have been non-negotiable. Negotiating would continue to reach a mutually agreeable resolution to these issues and hope to resolve outside the statutory processes. Submittal deadline to the Metropolitan Council necessitated passage.

Motions were made and carried with all ayes adopting the resolution requesting that the Metropolitan Council cause a hearing to be conducted by the State Office of Administrative Hearings for the purpose of resolving disagreements to the Systems Statement promulgated by the Metropolitan Council for the City of Carver and Dahlgren Township. Question was asked if the township could contest this action. The city attorney pointed out that this is the city's right to take action.

Carver Baseball/Softball Youth Association

Again, anyone interested in serving on a committee to evaluate the Boys Youth Baseball and brining this program back into the Carver's Youth Group need to get in touch with Jane Thon. There has not been response yet and we need to get this program rolling. Please contact Jane at jcthon@gmail.com as soon as possible.

The Carver Baseball/Softball Youth Association would also like to send their "Holiday Wishes" out to everyone in the community.

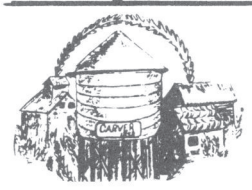

Depot Park Caboose

The Depot Park Caboose project has been put on hold for the winter except for getting the side and end door windows in. The guys were working on the portal or "Bay" windows before winter set in. Next spring plans are to tack the lettering (stenciling) along with working on the interior displays. Good job guys and gals. It's sure looking good. The spotlight is a nice touch. Are you going to decorate it for the up-coming holidays too?

Did You Know...

....that the Carver County State Bank was started by George DuToit in 1870 in the back room of his Carver drugstore on Broadway at Third Street East. By 1872 the bank was formally organized in partnership with HB Strait (the President of the First National Bank of Shakopee) DL How (the Cashier of the Shakopee Bank), and George DuToit. The bank was named the How, Strait and Co Bank, with DuToit completely abandoning his drugstore business in favor of banking. The bank remained in Carver until 1874 when it relocated to Chaska, later expanding to several other Carver County town.

....that in January, 1871 a contract for building the railroad bridge over the Minnesota River at Carver was let out, with work to be completed by July, 1871 at a cost of about $40,000. Most of the stone for the bridge was obtained from a quarry near Carver.

Gabi's Personal Photography

Here is the scoop on Gabi's Personal Photography.....

We are a learning business and are doing things better and better everyday. It is my mom and myself who shoot the pictures and have a blast working in creating a unique look for every shot. My mom uses a Canon 20D digital camera and I am using a Nikon D70 digital camera. At this time we do out Studio portraits at my parent's farm in rural Carver and like to use as much outside lighting as possible. This type of lighting takes the best pictures. We do have a variety of backdrops and props for shoots done inside the Studio.

Most photographers will not give you copy rights of your pictures unless you pay a LOT of money, not us! You pay a reasonable fee to have all your pictures put on a CD for you and the copyrights are yours! From there you can develop your own prints or we can do that for you as well.

For Weddings, we realize this is your day and we try our best to do everything how YOU want it. Some photographers will NOT allow any one else to take pictures while they are. As long as we get our shots done first anyone is more than welcome to share the picture perfect opportuneity. Your family and friends are just excites to see you get married as your are and want to have memories too.

For High School Seniors, we know how important these pictures are to you and your family. With a little help from you we can create photos that will show how unique you are from out classmates.

We also do Family pictures, self portraits, and baby pictures. Together we can create a photo that captures memories for years to come.

And last, but not least, don't forget about your favorite pet, or even a car, truck, boat, snowmobile. Whatever it may be that has a special place in your heart, we want to help keep those memories lasting forever.

Capturing the Magic,

Angela Heikklia & Nanette Mellgren

Disclaimer

The 'unapproved' minutes of the council and the township have been referenced for the purposes of reporting news in the "*Villager Tower*" and creating the contents of this newsletter for the purpose of informing residents in the City of Carver and the townships surrounding the city.

Dahlgren Township

City of Carver representatives met with the Dahlgren Township Board to discuss inclusion of US Homes in the Environmental Alternate Urban Area Review study. Approval had been granted by the board including builders in the study. A Joint Resolution drafted had also been presented for review between the city and the township, as well as the Metropolitan Council. The township was informed that the Metropolitan Council had determined that significant urban growth is anticipated in the township during the years of 2005 to 2030 constituting an issuance of system statements and warranting preparation of a Comprehensive Plan. The City of Carver requested preparation of a Comprehensive Plan incorporating the Metropolitan Council's requirements for township growth. The township has already been working with the city and a resolution had been drafted being reviewed by the county.

The township was notified of a report received regarding changes to the Comprehensive Plan involving the systems statements proposed by the Metropolitan Council. The City of Carver proposed including plans of the city and a portion of Dahlgren Township already proposed for developed at no cost to the township. The plan includes a water and road and waste water treatment plant along with park and traffic plans. The county declined drafting this plan. The township will research the issue before agreements are confirmed.

Another township resident along with a developer representative requested inclusion in the Regulating Government Unit (RGU) Authority with the City of Carver. The resident was told of the township's decision and a moratorium had been put in place that no more township property would be included in an Alternate Urban Area Review for one year. Individuals were invited to return to the next board meeting.
