Number Two Hundred Forty Two
February / March 2008

Dedicated In Loving Memory of "Aunt Norma"

Strategic Work Session

At the council's strategic work session the Financial Consultant explained the Financial Management Plan. The impacts of fees for future residential and commercial developments were discussed. It was also agreed at this time that another work session should be scheduled again in three months, tentatively April.

Tentative discussions regarding the updating of the city offices were reviewed during this work session as well. The city's engineering firm's representative discussed a proposed floor plan for the old school building. Interest of future library was interjected into the conversation. It was the firm's opinion that the old school building would not allow for expansion if the city grew. The pros and cons were reviewed again of this site and other options reviewed again. Consensus was that a new city hall would not be in the future for approximately four to five years.

City Planner Olness requested help from the council concerning building design standards for future commercial/residential properties.

City Attorney Harris reviewed some legislative issues and other issues that the Council may want to consider regarding bonding, transportation, affordable housing grants, affordable land trust, Local Government Aid, Annexation, limitation of fees and a few other items. The attorney stated that he was also interested in defending legislative items already in place with the City.

The city was asked of their level of interest in participating in the Regional Tax District for the South West Metro Transit System. The council consensus was that more information should be gotten.

Union Pacific Rail Line

The city attorney shared with the council a drafted Joint Powers Agreement between five parties regarding the abandonment of the Union Pacific Rail Line, which also includes the railroad bridge crossing the Minnesota River in Carver. The Council would be requested to act on this Agreement at their regular meeting.

The City Planner requested reviewer of the Joint Powers Agreement for the Minnesota River Valley Rail, which would serve to submit combined comments and documentation relating to the Union Pacific railroad abandonment and to negotiate the terms of acquisition with the railroad. The joint powers include Carver County Regional Rail authority, Scott County Regional Rail Authority, the City of Chaska, the City of Carver and the Metropolitan Council. Motion was made and carried with all ayes authorizing the execution of the MN River Valley Rail Joint Powers Agreement.

Then the city planner reported that on behalf of the joint powers members that the Carver County Rail Authority would submit a request for Public Use Condition/Interim Trail Use. She further reported that by submitting this request as one entity, that it will enable collaboration on negotiation with the railroad for the acquisition of the property. The council was told that there are a number of viable public uses for this corridor. The drafted letter to this affect had not been received yet. Motion was made and carried with all ayes approving the submittal of the request for the Public Use Condition/Interim Trail Use. There will also be a Protest Regarding Environmental Conditions be submitted by the Joint Powers Agreement members along side with the Union Pacific RailRoad Company's abandonment of the rail lines. The submittal of this request was also approved by motion.

LyleWood Glen Subdivision

Contractor spoke with the council regarding a Letter of Credit acceptance for Heritage Development and public improvements in LyleWood Glen Subdivision. Statement was issued that improvements had been completed and accepted and presently negotiating the last items pertaining to landscaping. Letter of Credits are accepted by policy from banks. This Letter of Credit was from a private company. The issue was not resolved at the present time.

Municipal Utilities

The municipal utilities supervisor discussed upgrading the meter reader program with the council. He requested purchase of the upgrade with explanation of benefits as a result. The upgrade would allow usage of water for customers, information for leakage from an irrigation system on the property and requires less charging time. The council was also informed that stocking of old parts for the older style is also obsolete. Motion was made and carried with all ayes allocating funds to purchase the upgrade.

The council discussed the item regarding the bidding documents for Well #4 Pumphouse Generator and scheduling a bid date. The engineer's memo reminded the council that well generators typically bid separately from well pump house projects to avoid mark ups by general contractors. Further explanation was given that MN Valley Electric Cooperative is the local electric supplier and may not have the power to run to the new well by the summer of 2008. The city wanted to have the well available for pumping at that time and had authorized bidding document preparations for the site in December of 2007. Motion was made and carried with all ayes accepting generator bidding documents and set bid opening for the February meeting.

Main Street Bridge

The council reviewed the new information presented by the city engineer regarding the Main Street bridge replacement. The breakdown and cost allocations were questioned for the proposed bridge The flood wall, decorative railing and round culvert were discussed further. Request was made to ensure that the Heritage Preservation Commission chooses the railing. Motion was made and carried with all ayes recommending an arched pipe styled bridge for the Main Street West Bridge with a textured head wall.

L G Everist Inc

The L G Everist Inc had attended the Dahlgren Township Meeting concerning a Conditional Use Permit for a wholesale operation for commercial use to stock pile aggregate to be shipped by rail and unloaded onto property in the township and then trucked out. Information was relayed that the township board was not completely told of all proposed plans for the site. Attorney representing surrounding property owners gave a presentation on the impact of such an operation. The attorney also stated that it was untrue that the proposal had direct access to Highway #212.
The Dahlgren Township Board was presented with a book containing opposing issues, along with a petition recommending denial of the proposed plan. The issues addressed involved noise, dust, access to the state highway, issues and problems, public safety, truck traffic, drainage, pollution, fly ash, impact on Millers Lake that had not been addressed, calcium and magnesium chloride, grain storage in silos, cement and asphalt plants on the property. Motion was made and carried with all ayes recommending denial of proposal submitted by LG Everist Inc.

Township Elections

Township elections are scheduled at the East Union School on Tuesday, March 11th at 10 AM until 8 PM. For more information contact the Township Clerk. Then following the election will be the Dahlgren Annual Township Meeting which will also be held at the school at 8 PM.

Down Town Street Improvement Proposal

The engineer informed the council that the City's Streetscape Committee discussed and reviewed the report and costs involved with the burying of power lines and street light decisions. The engineer reported on the estimated cost for the project and suggested reviewal of individual items in the project. The engineer pointed out the individual anticipated cost per homeowner with overhead service that would be required to rewire from overhead service to underground. Plus the necessity to hire an electrician to change out the meter socket. Overhead power serving commercial properties would not be buried because of commercial status, however, commercial properties along the corridor would be required to bury their lines and hire their own contractor. Council requested feedback from the affected properties and scheduled a meeting for such a discussion. The council upheld diverse opinions on completion of this project. Thoughts ranged from project should be done to too costly of a project to burden property owners to utilizing Rehabilitation Loan funds to subsidize the cost. An information meeting was scheduled.

Several residents attended the informational meeting to discuss the proposal of burying overhead power lines for aesthetic purposes. The center of discussion involved projects being considered during the interceptor installation project. Additional assessments and costs are all related with this project. The project would end at Hickory Street.
There would also be some additional costs besides those listed by the engineer that would involve retaining walls and other obstacles if the lines were to be buried in certain locations, along with repairs to siding. There was concerned voiced that the numbers for the proposed changes were not only inaccurate but too low. Statement was submitted that the timing of this project would cause further hardship on some homeowners. It was the city's contention that while the streets were torn up, it would be the best time to create improvements and that the council was well aware of the hardship that it could cause.
The proposed work would only occur in the area of the construction. Question was asked why alley poles would remain up when it was their opinion that they should be all done at one time. Future costs would be higher still. The mayor interjected that the question posed was that if it was not done now that it possibly would not ever get done. A council member inquired about the buried lines in the flood plain. Question was also asked regarding upfront payment of property owners to the electric company before the work was done. The engineer explained coordination of the project that was expected to occur. Question was asked about what would happen if homeowner's couldn't pay to convert to underground. The answer to that question was not available. One council member was of the opinion that there were too many questions without answers. Along with the flood plain issue and comments submitted regarding the original cost estimates being incorrect to convert from overhead to underground. Another council member agreed that with the economy as is, there was hesitation to agree to additional monetary burdens on residents for aesthetic purposes. Comment was made that if that were the case then some of the other items also should be abandoned, such as curb, gutter and plantings. The flipside of the coin was that in the long run the project was good for the community . The Rehabilitation Loan Funds for the purpose of the project were discussed. The mayor questioned if the homeowners would utilize these funds if they were made available. Motion was made and carried with three ayes and two nays to approve sidewalks, curb and gutter in the construction area and refrain from burying power lines in the project area.

"Worry looks around
Sorry looks back
Faith looks up."

Fire Relief

Representatives from the Fire Department's Fire Relief requested an increase per year in Fire Relief Benefits. An increase had not been requested since 2004. Motion was made and carried with all ayes approving the resolution adopting the Fire Relief Amendment to the by-laws of Carver Fire Department Relief Associations.

Mills Fleet Farm

The council reviewed the drafted Cost Reimbursement Agreement with Mills Fleet Farm for the Freeway Commercial Alternate Urban Area Review. Approval was requested upon receipt of the executed copy of the agreement from Mills Fleet Farm and a letter of credit acceptable of the city attorney. Question was asked regarding the document being typical. Motion was made and carried with all ayes approving the Cost Reimbursement Agreement with Mills Fleet Farm condition of receipt of an executed copy and the Letter of Credit acceptable to the city attorney.

Miscellaneous

The city planner reminded the council of the council's granting preliminary plat approval subject to the conditions that required additional review. The planner told the council that the changes had been made to the plat.

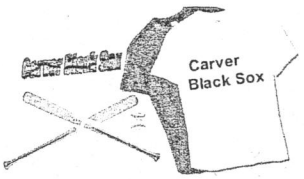

Motion was made and carried with all ayes approving the Tree Preservation and Reforestation Plan with the condition that eleven additional trees be planted within the Christy's Bluff property. Motion was made and carried with all ayes approving the grading and Revegetation Plan for the Mt Hop Cemetery with a condition that removal of trees and grading in the cemetery property be excluded from meeting the reforestation requirement.

Congratulations!!!

Kitty and Ralph Hanson were presented with their seventh grandchild this past January. Henry Fritz Hanson is their fourth grandson, preceded by three granddaughters. Henry greeted mom and dad, Aaron and Karen at Fairview Southdale Hospital on Sunday, January 27th, 2008. Henry is Aaron and Karen's first child. He weighed in at 8 lbs 7 ozs and was 21 inches long. Welcome Henry and congratulations to parents and grandparents.

Turkey & Ham Bingo

Be sure to come down to the Village Hall on Friday, March 14th to have fun. The Carver Black Sox will be hosting their Annual Turkey and Ham Bingo Night at the Village Hall from 7 PM to 11 PM. Food and beverages will be available. Don't forget, mark your calendars.

Easter Egg Hunt

The Annual Easter Egg Hunt is scheduled for Saturday, March 22nd promptly at 10 AM at the Community Park for children ages' toddler to ten years of age. The event is sponsored by the Lions. Be sure to go and check it out. Be sure the little ones have baskets to put their eggs into.

Carver Card Club

The Carver Card Club will be meeting to socialize and play cards on Wednesday, March 12th at the Village Hall. Coffee and cookies or dessert will be served.

Tentative Agenda

City of Carver Council
Monday Evening 6:30 PM

1) Call to Order
2) Pledge of Allegiance
3) Approve Agenda
4) Petitions and Requests
5) Consent Agenda
6) Municipal Utilities Report
7) Building Inspector Report
8) City Planner Report
9) City Engineer Report
10) City Attorney Report
11) Administrator Report
12) Liaison Reports

Not only does "My Bookkeeper, Inc" handle accounting for small businesses, Julie will handle corporate and personal taxes. She also does payroll. Interested in more information, call 612.730.6030 and talk to Julie.

Carver is Getting a Flower Shop!

Submitted by: Annette Hentz

What better way to welcome spring than with fresh flowers? The *brand new* Carver Country Flowers & Gifts will be opening in historic downtown Carver in mid-March.

For nearly as long as Al & Annette Hentz have lived in Carver, they have dreamed of opening a flower shop in town. Annette has retailing in her blood; her mother single-handedly ran Isaacson's General Store in rural Embarrass, Minnesota for sixteen years while Annette was growing up. Al used to work in his cousin's flower shop in New Jersey when he was a teenager. Their yard in Carver Bluffs is full of flowers from early spring to late fall, aided by the fact that Annette has been a Master Gardener since 2003.

So what's been holding them back? Well, they both work full-time – Al in Minnetonka and Annette in downtown Minneapolis – and the switch from long-time careers with full employee benefits to a fledgling enterprise in a small town is a scary one. So they came up with a transition plan: they're not quitting their day jobs, at least not initially!

Carver Country Flowers & Gifts will locate its studio inside the back room of Treasure Chest Antiques at 109 3rd Street East. During the week, floral arrangements and bouquets in the cooler, flowering plants in the cart, silk floral wreaths on the walls, greeting cards on the rack, candles in the cupboards and other gifts on display will be available during the Treasure Chest's normal business hours. (For Treasure Chest hours, call 952-448-4800.) Dennis and Rose Vogt will be happy to ring up any purchases for the flower shop. In addition, Annette will be at the shop most weekday evenings and weekends, making up floral arrangements to order while Al makes evening deliveries. She'll also be there for the long (Thurs – Sun) "occasional shop" weekend every month. Very soon they will have a business phone line and a web site through which floral orders can be placed

Granted, this is not a conventional business plan for a flower shop, and it may require a little patience from floral customers at first. Although it will require long hours, the Hentze's hope that business will soon be so brisk that one of them will be able to quit their day job in order to run the flower shop full-time.

The target market for Carver Country Flowers & Gifts will be Carver, East Union, Dahlgren, and the western edge of Chaska. Within this footprint, delivery costs will be $5 outside of Carver's city limits; deliveries within Carver's city limits will be free. They'll be able to arrange to have your orders delivered anywhere in the country by directly contacting the best flower shops within the recipient's area. They will not be part of FTD or Teleflora.

Watch for their "soft opening" around March 15. A "Grand Opening" is being planned for mid-April. If you'd like more information, or you'd just like to wish them luck, their e-mail address is carverflowers@gmail.com.

East Union School Invention Convention

Did you know that the East Union students are busy inventing new things and that some projects the kids will be competing at the State Invention Convention? There is the "Pillow Propper Desk" created by Eliza Edlund, Erin Hall created the "Foam Toothbrush", the "Blow-Up Sleeping Bag" by Drew Larson, the "Cord Locker", Derek Lenzen, "Automatic Dog Feeder", Kallie Miller and Peter Swanson's the "Cone Saver". These young individuals will be competing at the state with their inventions. Wish them luck.

Carver Youth Baseball / Softball Youth Association

Submitted by: Jane Thon

Registration and Evaluations are available at:
- Key in carver.govoffice.com
- Select Right hand side of screen under "Important Links"
- Select CCYBSA Evaluation form (2007) if you played in our program last year please complete this short evaluation.
- Select CCYBSA T-Ball Baseball Softball Registration

Volunteers are vital for our programs
Please sign up to help us for the kids

Other dates to watch for are:
Open Registration on March 05 at the Church By the River
CCYBSA meeting on April 09 at the Church By the River

See all soon
Any questions please send them to CCYBSA.REG@gmail.com

Park and Recreation Events

The Park and Recreation Events continue through the remaining months of winter. Tot Time is March 28th. The Youth Open Gym continues through March on Wednesdays at 3:30 PM to 4:30 PM on the 5th, 12th, 19th and 26th.

Remember that on Tuesday, March 18th is the 2nd Annual Senior Dance from 1 to 7 PM at the Village Hall is being held with old time music being played by Gary Martens. On Saturday, March 8th is the Starving Artist's Fair at the Village Hall from 9 AM to 1 PM. March 4 & 6th you will find the Red Cross Babysitting Clinic taking place at the Fire Station. Beginning Guitar Lessons at the Church-By-The-River on March 1st, 8th and 15th. Want to lower your car insurance rates for those of you over 55. The AAA Defensive Driving 55+ is taking place at the Fire Station on the 1st and 8th of March. And last but not least there is the Spruce Up For Spring Seminar taking place on the 13th of March at the Village Hall.

Red Cross Blood Drive

Announcement:

The Red Cross Blood Drive will be in the City of Carver at the Village Hall on Tuesday, April 22nd from Noon until 6 PM. You can, if you have a computer, go online and register. If that is not feasible, contact Joan Rein at 952.448.2459. The Lions sponsor this event and are commended for always doing a great job.

Salisbury Flower Market

612-340-9082

Submitted by: Julie Peak

Salisbury Flower Market
415 North 1st Street, Minneapolis MN 55401
Phone: 612-340-9082
"The Freshest from Around the World"

Local businesswoman, Julie Peak, owner of My Bookkeeper and Accolent Mediation in downtown Carver is on a new venture. She recently partnered with her friend, Jenna Saporito, who owns Salisbury Flower Market in downtown Minneapolis in the warehouse district. Julie was brought in as the Chief Financial Officer and is now half owner.
Salisbury Flower Market is not your typical flower shop. We bring flowers in from all over the world. Our tulips are from Holland and we specialize in exotics and succulents. We have a unique recipe for our bouquets and arrangements. Flowers aren't necessarily just for special occasions. We have everyday flowers to grace your home or office.
We have decided to bring our flowers out of the downtown area and have secured some grocery store locations that sell our brand. Lakewinds Chanhassen is the closest location to Carver. We are always looking for corporate accounts as well. Salisbury Flower Market delivers all over the Twin Cities area so you don't have to go downtown to get our products. Our website is www.salisburyflowermarket.com and you can reach us at 612.340.9082

Carver Craft and Quilt Club

The group will be meeting on Saturday, March 1st at 10 AM until 4 PM. The group meets in the lower level of the Village Hall. Linda says, "We have so much fun. Everyone works on their own project. Some are quilting while others are painting, knitting, or crocheting Feel free to come and join us." For ay information you may want, contact Linda Schultz at 612.987-5454 or Linda @ hazelnuthouse.com.

Did You Know

Submitted by : John von Walter

....that Carver's Peter A. Johnson served in Company H of the First Minnesota Heavy Artillery Regiment during the Civil War. Later, in 1880, he purchased the 1871 Stephen Kult Clothing Store building and opened a general store on the southwest corner of Broadway and Main Street West next to the Temperance Hotel. One of the soldiers serving with Peter Johnson was Albert Woolson of Duluth, who died at age 106 in 1956, the last surviving soldier of the American Civil War, the last of both the Union and the Confederacy

....that in May 1870 Charles A. Blomquist, owner of Carver's Planters House Hotel received the appointment to take the 1870 U. S. Census in Carver County. The Planters House stood on Broadway on the site of the present day Carver Gazebo Park.

....that in July 1855 steamboat Captain James Washburn, arrived in St. Paul from Warsaw, Illinois. He immediately commenced building a steamboat, called the *Spencerbox* and started carrying cargo from Mendota to Mankato on the Minnesota River. In November 1855 the *Spencerbox* wrecked 1 mile north of Carver and sunk in the river. In March 1927, after more than 71 years on the river bed, the *Spencerbox* came to the surface of the river when ice floes grinding their way downstream brought it up.

....that in May 1868 Anton Knoblauch put up a neat picket fence in front of his residence, with plans for shade trees and sidewalks. Anton Knoblauch's house yet stands on the north side of Third Street East in Carver, between Broadway and Oak Streets.

....that in October 1871 Carver merchants could not keep up with all the business in town. Every hotel and private boarding house was full to overflowing, with a vacancy nowhere to be found. There were then some 500 Minneapolis-St. Louis Railroad workers in town laying railroad track in the area and working on the new depot and railroad bridge across the Minnesota River at Carver.
