Volume XXVI
Number Two Hundred Forty Three
March / April 2008

Local Board of Appeal and Equalization

Any property owner in the City of Carver that is of the opinion that their property is not valued correctly should contact the Carver County Assessor's Office. The Carver City Council will not be acting as the Board of Appeal and Equalization. The City of Carver has transferred this duty to the Assessor's Office on a trial basis for 2008, 2009 and 2010.

The Carver County Assessor can be reached at 952. 361.1960. They will have an Open Book Meeting from 8:00 a. m. to 4:30 p. m. in their Office at the Courthouse in Chaska from April 7 through April 11, 2008. After a property owner has met with an appraiser, if they are not in agreement with the value set by the appraiser, they may attend the County Board of Appeal & Equalization on Monday, June 16 or Tuesday, June 17, 2008.

Municipal Utilities

The Municipal Utilities Supervisor explained the Valve Exercise Program to the council that the MN Department of Health has suggested that the city utilize this with the water distribution system. Question was asked whether or not it was an important step of maintenance. The supervisor explained that this equipment would last approximately 20 years and it was an important piece of equipment. The valve's operation was explained. There would be a one year warranty. Motion was made and carried with all ayes authorizing the advertisement for a valve maintenance trailer, valve exerciser, vacuum excavation, cleanout unit and data logger.

Proposed DownTown Improvements

The city engineer explained to the council that with the planned improvements of Fourth Street, that the State Aid Route #40 expansion plans does not provide adequate width for parking on the south side of the street. That the county will not approve the construction as a county state aid street project without parking restrictions established. The drafted resolution presented bans parking of motor vehicles on the south side of Fourth Street east of Broadway Street to Lime Street at all times. Motion was made and carried with all ayes adopting the resolution instituting parking restrictions.

The city engineer discussed with the council the Main Street Sanitary Sewer update. The design documents for the Metropolitan Council Environmental Services Interceptor and the city's downtown street and utility improvements are almost completed.

The city engineer reviewed the soil borings on Main Street stating that the city will be replacing the Main Lift Station at Oak and Main Street, which is part of the Metropolitan Council Environmental Services Interceptor Project. The engineer informed the council that after reviewing the project with contractors, additional borings are proposed in the area to provide more information during bidding. This information was necessary for the contractors to submit their bids. Various locations tests were not deep enough or directly over the final location. Motion was made and carried with all ayes authorizing additional borings to provide reports with limited costs caps.

"DON'T BE AFRAID OF THE SPACE BETWEEN YOUR DREAMS AND REALITY. IF YOU CAN DREAM IT, YOU CAN MAKE IT SO."

- Belva Davis

Open Forum

The city engineer opened the meeting giving a Power Point Presentation on the DownTown Street and Utility Improvements proposed simultaneously with the Metropolitan Council Environmental Services project.

One citizen thanked the council for bringing the City of Carver into the 21st century and also providing an excellent quality of life. Questions were asked regarding the lift station on County Road #40, along with landscaping at the site. The aspect of the Historic District was explained along with the city land owned. Citizen also inquired about a temporary easement, a retaining wall and the removal of pines being proposed.

Several citizens requested the council to reconsider their decision pertaining to burying the power lines. Again, it was pointed out that the decision to forfeit the part of the proposal was based on the current economic status.

Another citizen inquired about the new sanitary sewer system. The Municipal Utilities supervisor explained. Another citizen inquired about the springs in the area. A business owner requested the city to reconsider the power line issue and the image that the City of Carver wants to present. Another citizen inquired about cost savings if residents pooled together to purchase materials for trenches on final underground connection proposal. One council member requested a list of assessments with and without the power line burial issue. The mayor pointed out that the council is required to look and consider many different issues when making decisions concerning the city.

Woodland Hills

The city planner informed the council that the Planning Commission recommended acceptance of the concept plan subject to addressing the city planner's and engineering comments and also reviewal of the areas of the collector streets and the islands in the cul-de-sacs. The engineer discussed options and the reasons for roads. Snow removal was talked about. Islands in cul-de-sacs were looked at. Question was asked if these areas would be the city's responsibility in the future or the homeowner's associations?

The council was asked for their opinions on the Woodland Hills Concept Plan. Overall the council members were accepting of the preliminary plat. If there were objections to the driveways then the plat would have to be redesigned. There were concerns regarding the cul-de-sacs and the islands.

Municipal Utilities

Question was asked concerning the Metropolitan Council Environmental Services interceptor project. There was an area requiring being raised as part of the interceptor project with the Carver Bluffs Parkway, Main Street West and County Road #40. The engineer stated that the part of the road that floods would be raised.

Strategic Planning

One of the council members spoke with the city administrator pertaining to the Visioning Report of 2005. The outcome of the discussion was that the city had followed the report very closely. It was the administrator's opinion that the city should pursue this process again. The council discussed scheduling a mini-retreat. A facilitator was talked about. The city clerk would be contacted with information regarding the issue.

City Flag

The council assessed a city flag displayed at a meeting. One council member stated liking the flag, another stated they preferred better colors. Motion was made and carried with all ayes assigning two council members to participate on the board to review flag changes

Miscellaneous

The council reviewed the proposed letters to state representatives concerning funds certifying the levee. Motion was made and carried with all ayes to forward drafted letters to Senators Coleman, Klobuchar, and Kline to allocate funds to the US Army Corps of Engineers to perform a Feasibility Study to evaluate the opportunities to certify the existing flood levee protecting Historic Downtown Carver.
Due to the status of the economy, the city planner informed the council that Wal-mart had withdrawn their plans to build in Carver at this time. The council was asked if they wanted to proceed with the Alternate Urban Area Review. The council agreed that the work should continue.

East Union Elementary School

The PTO at East Union Elementary School reported that the carnival raised a lot of money this year. They are so proud of the absolutely incredible amount raised. They thank all of the families and the staff for their support of this event. It was more successful than they could have imagined, they stated. The Library will be purchasing periodicals and updating several books. The first grad classrooms will be able to purchase additional guided reading books. It should be conveyed that the importance of events at the school makes a difference in the students' days. The events provide the funds necessary for teachers to purchase the tools and supplies for the children to achieve and experience more.

There was also the 'Pennies for Patient's' update. The East Union Elementary School once again participated in the "Pennies for Patients' program to raise money for the Leukemia and Lymphoma Society. They surpassed their goal. The students again were very generous and realized the importance of pennies. They add up quickly and these pennies help to fund research and assist with patient care and education.

Did you know that Picture Day is coming to East Union School? Pictures will be taken on Tuesday, March 18th.

City of Carver Clean-Up Day

The City Council was happy with the 2007 Clean Up Program that the council has opted to do the curb pick up Clean-Up Day for 2008 The tentative date scheduled to hold Carver's Clean Up Day is May 17th. Watch the city's newsletters for more information and updates. As updates are received, printing information will follow.

The City of Carver will be again promoting the Curbside Clean Up Day on May 17th, per staff. Collection will begin early on that Saturday morning. The items that will be accepted at the curb will include general "junk" under 80 pounds; such as, furniture (dissembled if possible), carpets/pads (rolled securely), construction materials, and bundled brush. Not accepted items would be household appliances over 80 pounds, televisions, hazardous chemicals/items containing hazardous waste, air conditioners, water heaters, or household trash such as food. Larger items/appliances should be hauled by residents to the Carver County Environmental Center at 116 Peavey Road in Chaska. More details about the Curbside Clean Up Day will be announced in the city's "May Newsletter".

Disclaimer

The 'unapproved' minutes of the council and the township have been referenced for the purposes of reporting news in the "*Villager Tower*" and creating the contents of this newsletter for the purpose of informing residents in the City of Carver and the townships surrounding the city.

"If you're prepared, then you're able feel confident."

Carver Lions

Submitted by Linda Schutz:
Better Late than Never eh? The Carver Lions attended their mid-winter convention in Mankato in February. Annually, the Lion's clubs within the district gather to share great food, entertainment and above all, great speakers!

There was a woman who attended to share her experience of two cornea transplants from the Lion's Eye Bank in Minneapolis. Mike Fahey educated the participating Lions on identity theft. Introductions were also made of a young blind man and his new leader dog. Linda said that the best part of the convention for her was listening to the former International President talking about what the Lions do right and what improvements could be done within the organization. Did you know that the Lion's are the largest service organization in the world? That it is ALL volunteers, no one gets paid! Not the administration, the officers....nobody! One hundred percent of the funds raised go directly to the various causes!

What do the Lions need to do to improve their organization? Getting new members to join requires some focus. How do the Lions do that? Well, you, yes, the individual reading this! You are the answer! Please be the Lion's guest for a dinner and check out the meeting. Oh they are not boring. They are quite interesting, I promise. They meet in the lower level of the Village Hall every first and third Wednesday of the month at 6:30 PM. Dinner is always catered by Harvey's and dessert by Donna. You DO NOT want to miss dessert!!!! Look forward to seeing you real soon.

The Carver Lions have approved purchasing "Preserve America" signs for the Heritage Preservation Commission. The Lions would like to also extend their gratitude and thanks to those who helped and those who attended their successful Pancake Breakfast. They have also approved their annual donation to the upcoming "Carver Fun Run" event in May. The Lions are also planning for their Pork Chop Dinner scheduled for May 2nd.

Carver Card Club

The next get together for cards, games or just some fun conversations is April 9th at 1 PM until 4 PM in the lower level of the Village Hall, hosted by Evelyn Grimm. If anyone would like to share their favorite dessert to serve with coffee let Evelyn know. You can call her at 952.448.9465. Bring a friend if you would like too.

Carver Craft & Quilt Club

Hurry, get those projects all packed up to come and join us for fun, food, camaraderie and just plain old fun. You will find us in the lower level at the Village Hall from 10 AM to 4 PM. We will be getting together on April 5th, Saturday. It's free and everyone is welcome. For more information and to add your name to the e-mail list, you can call Linda Schutz at 612.987.5454 or e-mail me at linda@hazelnuthouse.com.

Carver Car Cruise

Submitted by: Linda Schutz:
It's official. Spring and summer are on their way. It won't be long. In fact, it will be here before you know it. The Carver Car Cruise is entering it's second year of cruisin'. The event will again be taking place in downtown Carver the second Wednesday of the month. It will start in May and happen every month through August . The times that you can see these once in a lifetime classics will be from 6 PM to 9 PM. Start polishing, get ready and come down and join the Car Cruise entourage with the classics and/or street rods. Even if you don't have a cool ride, come down and check the cars out. It's not like anything you have experienced prior.

Street Sweeping

The City of Carver will be sweeping streets within the city during the week of April 7th. Sweeping will begin on Monday and continue all week until Friday. Please make sure that your vehicle is not in the way of the equipment. Thanks are extended in advance for your help with this project.

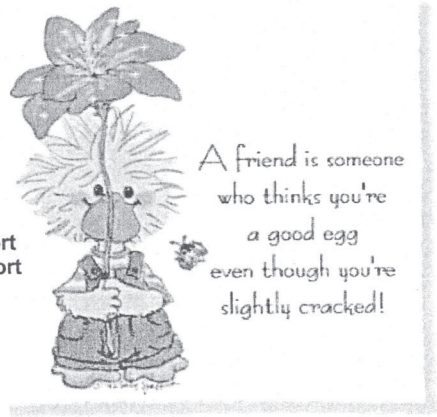

SteamBoat Days

The SteamBoat Days Committee is gearing up for the 2008 event. The scheduled dates for this year are September 5th, 6gh and 7th, Friday through Sunday. The committee meets the second Wednesday of the month through SteamBoat days in September. The next meeting is scheduled for April 9th. The committee is coordinated by a volunteer committee. The group is looking forward to seeing new faces at their meetings. It's a great opportunity to see what the SteamBoat Celebration is all about. Get involved in the planning and a great way to meet others.

Tentative Agenda

City of Carver Council
Monday Evening 6:30 PM

1) Call to Order
2) Pledge of Allegiance
3) Approve Agenda
4) Petitions and Requests
5) Consent Agenda
6) Municipal Utilities Report
7) Building Inspector Report
8) City Planner Report
9) City Engineer Report
10) City Attorney Report
11) Administrator Report
12) Liaison Reports
13) Other Business
14) Adjourn

Red Cross Blood Drive

Announcement:

The Red Cross Blood Drive will be in the City of Carver at the Village Hall on Tuesday, April 22nd from Noon until 6 PM. You can, if you have a computer, go online and register. If that is not feasible, contact Joan Rein at 952.448.2459. The Lions sponsor this event and are commended for always doing a great job.

Carver Youth Baseball / Softball Youth Association

Submitted by Jane Thon:
Registration forms for the 2008 season are available on line at the City of Carver 's website. Don't have a computer. Call the city to make arrangements. Know how to use a computer, but don't have access. Go to the library, they will help you out.
It is the philosophy of this program that each player should learn through active participation; and that winning is the end result of a total team contribution. The purpose of this program is to provide children an opportunity to have fun, develop physically and socially, and to learn the basic fundamentals of the sport of baseball/softball.

If anyone knows of a youth who has not signed up because of financial reasons, please contact Jane at 952.492.2907 or Cindy at 952.448.4760. Confidential arrangements will be made.

Jane can also be reached via e-mail at ccybsa.reg@gmail.com for any of your questions or concerns.
Registration deadline is April 1st for the girls and May 1st for T-Ball.

Along with the Registration Forms on line at the city's website, you can also find an evaluation form, if you would like to complete that form and forward to Jane.

Did You Know

- John vonWalter

....that on Wednesday, July 1, 1914 eight-year old Clive Meyer from Fourth Street West was killed as he was walking on Main Street East toward Riverside Park. As he passed under the railroad bridge with friend Leone Neunsinger, one of two cars racing out of the park struck Clive and crushed him against one of the stone bridge supports. The accident was probably Carver's first automobile fatality.

Christy's Bluff

The Planning Commission members discussed the council's approval of resolution with conditions that included the developer resubmitting a revised tree preservation and reforestation plan, along with the proposed grading and revegetation plans for the area of the cemetery impacted. The staff and the developer reviewed the grading and revegetation issues. Regarding the items of the revegetation and a retaining wall, there were alternative options being researched. The members discussed the types of trees, warranty on trees, and how many tree species required to be replaced. Motion was made and carried with all ayes recommending approval of the proposed grading and revegetation plans for the Mt Hope Cemetery planting Autumn Blaze Maple Trees.

The Planning Commission then reviewed the more complicated issue of the Revised Tree Preservation and Reforestation Plan for a section of the development. They reviewed and discussed the tree replacement in Outlot B. There were two different items being reviewed, one involved the replacement of the trees removed along the cemetery, owned by the city, involving requirements and then there was the issue of trees included on individual residential lots currently owned by the developer involving additional trees, not replacements. The members discussed the decision of Outlot A, which was considered more open space with a shelter and a trail One commissioner stated their opinion on more trees in the residential lots for reforestation versus open space areas. The developer could be requested to move trees from individual lots, but cannot require additional trees be added. The HomeOwners Association would be required to maintain the shelter. The Planning Commission presented a motion, which carried with all ayes to recommend approval of the revised Tree Preservation and Reforestation Plan with an exception to change tree species.

Dahlgren Township

The City of Carver's, City Planner attended the Dahlgren Township Board meeting. The city planner updated the board on the Alternate Urban Area Review, the Comprehensive Plan, Water Tower, and Sewer Plans. A change had occurred in the Plowshares Project. One parcel had been changed to light industrial rather than residential development. The Sewer Project was anticipated to be completed in 2009. Water Tower permits would be gotten in spring. A discussion was planned for the Plowshares Concept Plan with the Planning Commission in Carver.

The city planner for the City of Carver presented the Dahlgren Township Board with some updates for the Alternate Urban Area Review. She informed the board that there was a six month review of the Comprehensive Plan. The city planner was asked about township annexation land into the city The planner suggested that a committee be organized and have the attorneys discuss it. The board was of the opinion that the information had been in the City of Carver's attorney's hands for more than a year, that he should contact the township's attorney.

The Township Elections were held March 11th at the East Union School. Decision was also made by residents not to change the township elections from March to November. The results of the 2008 elections were, Mary Olson has been elected to replace Janice Buckentine as the Township Clerk Janice has chosen to retire after doing a terrific job all these years. Mark Willems was elected to replace board member, Art Buckentine. Congratulations to everyone. Happy retirement to Janice and Art. Maybe now they both will have some time to enjoy their lives instead of working too hard. Recognition was also given to Art and Janice Buckentine for their years of service to the township.

Dahlgren Township Town Hall

At the Dahlgren Township Board's Annual Meeting residents and the board reviewed the issue of the Town Hall. Drawing for a new Town Hall were reviewed. The board had checked on renting locations, but none of the locations could supply an area for locked storage of records. There were some hard fact finding discussions, comparison of construction with tin or wood. Motion was made and carried with all ayes to approve the purchase of land specifically the two acre parcel earmarked for the purpose of constructing a Town Hall, along with conducting some site prep work. After further research another meeting will be scheduled.

Proposed Corn Maze

The proposed Corn Maze in the Dahlgren Township area was discussed further. The application for the Conditional Use Permit presented to the county was referred back to the township board due to access issues. Problems exist with the access and further research and alternatives will have to be looked into before final approval can be authorized.

The township board discussed the Corn Maze proposal further. Decision had been made that the property owner would have to utilize his own driveway for this proposal. The proposal will go back to the county's Planning Commission. The township board recommended approval of the Corn Maze plan.

Park Planning

The city planner gave her Five Year Capital Improvements and Park Planning presentation to the Park and Recreation Board. The challenge for fees includes the two park components; Neighborhood Parks equaling one to ten acres and the community parks equaling thirty acres in average size. The future major options involve Plowshares, Tollefson ball field complex, the elementary school and the community center. The members were told that fees cannot be collected from the school district. Park dedication fees from new Tollefson parks can utilize one hundred percent of those fees collected for parks. Board members asked questions regarding usage. The city cannot use one hundred percent towards community park projects because it is calculated on the level of service and when a park was taken into the system. The city planner further explained that once the level of standards calculations are completed after the update of the Comprehensive Plan, the powers that will be will have a better view of the park dedication schedule. Question was asked when the park plan would be completed. The city planner responded that within two to three months completion could be anticipated and will be adopted into the new fee ordinance by December.

Carver Lions Pork Chop Dinner

The Carver Lions will be serving Pork Chops at their Pork Chop dinner on May 2nd at the Village Hall from 4 PM to 8 PM. The dinner is $8 per person. Youngsters under five will get to eat free. What a deal huh? Be sure to mark your calendars. Will print another reminder in the next issue.

Announcement ~ It's A Girl!!!!!!!

Becky and Chris Mohler welcomed their first child Wednesday, March 19th. Their daughter arrived at 1:01 AM in Edina at Fairview Southdale Hospital to meet mom and dad. Rylee Jean was 20" long and weighed 9 lbs 1 oz. You can be certain that the new parents are very excited. Congratulations to Becky, Chris. Welcome Rylee!

Did You Know

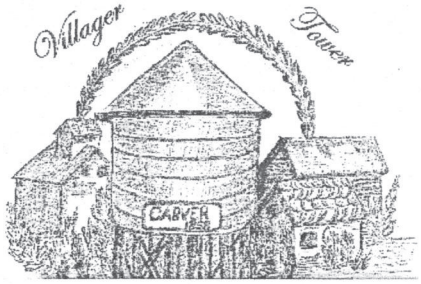

.... that in 1869 the second Carver County Fair was held at Riverside Park in Carver and featured a half-mile race track and use of the old Carver Town Hall that once sat nearby on the northeast corner of Oak and Main. The first fair, a one-day event like the 1869 Carver fair, had been held in Chaska on July 20, 1868. In 1870 the Carver County Agricultural Society voted to make the fair a two-day event and to hold it every year in Carver.

....that in May 1871 Levi Griffin had a large new ferry boat constructed by his brother-in-law, Joshua P. Torrey, who was a veteran Minnesota boat builder. Griffin owned the ferry boat operation on the Minnesota River at Carver, and both he and Torrey lived on Fourth Street East in Carver in houses yet standing.

Did You Know

....that in 1882 Carver had three doctors, one lawyer, a real estate and loan office, a flour mill, a grain elevator, six general stores, a carding and feed mill, two drug stores, two brick yards, two hardware stores, two lumber yards, one grocery, one brewery, two watch makers, two carriage makers, one photographer, two harness makers, one tailor, one veterinary surgeon, two boot and shoemakers, one milliner, one bakery, five saloons, and two hotels.

....that in October 1867 Capt. Charles Basler completed work on a stone bridge between Carver and Chaska "that should not be carried away by high water". Charles Basler was the owner of the Basler House Hotel, located in the northeast corner of Broadway and Main in Carver, next to present-day Lisa's Place. The hotel included a saloon, dining room, and stables in the rear.

....that in August 1897 the Steamboat *Henrietta* took 700-800 Modern Woodmen of America on an excursion from St. Paul to Carver's Riverside Park.

New Events - Summer 2008

Submitted by: Kristy Mock

The new Parks & Recreation Program Book will be sent to Carver homes the beginning of April. It will have the programs and special events for Spring and Summer.

Here are the Summer Events for the City of Carver for 2008:

First Annual Riverside Rhapsody Music Festival

The City of Carver Parks & Recreation Department would like to invite you the 1st Annual Riverside Rhapsody Music Festival. Head down to Riverside Park, bring a blanket or a lawn chair, and listen to great bands doing their thing in the open air. The Carver Lions will be there serving food! Coolers are welcome, but please no hard alcohol or glass bottles.
Join your neighbors, friends, and family. Best of all its FREE!

*In case of a rain: The event will be moved to the Carver Gym/Hall, 316 Broadway. Wednesdays, June 11 - June 25, 2008 from 6:00pm - 8:00pm at Riverside Park.

Vehicle Fair

Climb aboard the big rigs at the Community Park. There will be heavy equipment vehicles, fire trucks, police cars, recreational vehicles, the restored 1947 SW Metro Transit bus, and many more. And its FREE! All ages welcome! The MN State Patrol Helicopter is scheduled to be here. Thursday, May 29th from 6:30pm - 8:00pm at the Community Park .

Carver Country Flowers & Gifts

It's official! The only flower shop in town has officially opened. Be sure to stop in and say 'hello' to Annette and Al who are the owners of this newest business venture. Where do you find the flower shop? The physical address is 109 East Third Street. Visible location of the studio is across the street from the Gazebo Park and down the block from the Carver Hair Salon, shared residence with Treasure Chest Antiques. Now that you have found Carver Country Flowers, stop in for fresh flowers, permanent botanicals, candles, greeting cards and gifts. The studio is open Monday through Thursday at 10:30 AM until 1 PM; Friday through Sunday available hours - 10 AM until 5PM.

Would you like to meet the designer? Saturday and Sunday she will be in her studio starting at 10 AM. At 5 PM on Saturday, she will be heading home for other fun activities. Sunday 's departure for home will be much earlier, she will be leaving at 2 PM. Or, call for an appointment for Monday through Friday from 5 PM to 7 PM.

Here's a bonus for you. Usually the third weekend of the month is classified, "Extra Long Designer Weekend" (to coincide with the "occasional shop" weekend). During that weekend, Annette will be available Thursday through Saturday from 10 AM to 5 PM. Sunday, however will be normal time; 10 AM to 2 PM. A gal needs some time to herself, doesn't she?

So, if you are wondering how to place an order, shop phone number is 952 . 681 . 7582. If you would prefer, you can e-mail them at carverflowers@gmail.com. Annette states,
"Beautiful bouquets and arrangements are always available in the floral cooler." She adds, "Please call to place any custom orders. We can best meet your needs if we are given as much notice as possible on custom orders."
They are looking forward to meeting and serving each and every customer.

"Life is too short to wake up with regrets.
So love the people who treat you right.
Forget about the one's who don't.
Believe everything happens for a reason.
If you get a second chance grab it with both hands.
If it changes your life, let it.
Nobody said life would be easy, they just promised it would be worth it."

RYS Creations

Administrative Assistant
Business Card Designs
Business Plans
Graphic Designs
Public Notary

By: Ricki Yvonne
2008

Right about now, you are probably looking at this business card and saying to yourself, "What?" This business idea concept expanded from one small idea into a full scale, "I can do this, and I should do that, and this is what I am going to do" for a small business plan. *RYS Creations* will be conducting administrative assistant work to those managers who do not wish, nor have, the expenditures to hire a full-time office person, but need the administrative paperwork completed for their business. What we used to identify as 'secretaries' is now classified as 'Administrative Assistants'. Along with that title change also came job responsibility changes. Many companies are beginning to outsource this work, saving them money.

With that in mind, I am introducing my business to those futuristic minded management personnel who require to have their office paperwork done, but don't have enough work to justify a part or full-time individual. Have special needs, need the expertise that you don't possess? Give me a call at 952 . 448 . 5126. I have different packages, different programs set up to coincide with your specific needs at reasonable costs. I have more than thirty seven years' experience in the office environment and am very good at what I do. Give me a call and we'll see if there is something we can do to help one another out.

Need a plan created, need a project researched, need a business plan and card? Give me a call and we'll talk. Incidentally, I am also a public notary. So in case on a weekend, or maybe an evening you have a legal document you need to get notarized. The banks, businesses are all closed. Can't wait. Need it now. I can help you out with that too in the evening or on the weekend. Look forward to hearing from you. References are also available, if you would like.

Isn't It Time For Health, Wellness and Financial Security?

My name is Mary Williamson and I have recently signed on as a Gold Ambassador with Shaklee. Who, What? Well, in the midst of a recession, unemployment, as well as, some personal health issues (a Fibromyalgia diagnosis) I received an invitation from my Godmother (who, by the way, grew up with Shaklee and still works with my 91 year young Grandmother), to work with Shaklee.

Shaklee is a Health and Wellness Company that has a 52 year track record of supplying the first ever bio-degradable, non-toxic cleaners. Basic H, to be exact, was introduced in 1960. Basic H is a concentrated cleaner with absolutely no harmful ingredients or effects on the environment. Along with Basic H is an entire line of cleaning products to take care of your home from kitchen to bath and from auto to garden. They are that safe and effective.

The other Shaklee lines that I represent take care of the rest of you; nutrition based personal care products, revolutionary weight management and the purest of supplements. Shaklee has recently received results from an independent Landmark Study that reviewed the supplement habits and health of individuals over a 50 year period, done by UC Berkeley. The Study showed that those taking Shaklee supplements retained normal levels of HDL Cholesterol, Blood Pressure & Triglycerides for example. Those that took no supplements were actually in better health than those who took Brand X from random stores because those taking store brands believed they were getting what is promised on the labels. They unfortunately were not, therefore were doing more harm to themselves than if they had taken no supplements at all.

I am excited to tell the story of Shaklee, as well as, how it has had a great effect on my life and my family's. If I sound a bit like a 'Remedy Salesman' of the 1900's, maybe that is because Dr. Forrest Shaklee started Shaklee after selling the first multi-vitamin, multi-mineral supplement, 'Vitalized Minerals' in 1915. Shaklee founded the company in 1956 based on "Living in Harmony with Nature" and he modeled all of his products on this.

Shaklee rejects 2 million pounds of raw products annually if they are shown to have any contaminants such as pesticides or herbicides, in order to formulate the safest, purest products available. The FDA doesn't require standards on supplement ingredients, Shaklee does. In fact they run over 83,000 quality tests per year to guarantee safety and purity. You won't find Shaklee supplements in the local water supply; our bodies get all the nutrients and minerals available in each supplement, no fillers, additives or lost benefits.

All I can say is that I am thrilled to be working for a company that cares so much about those who use their products and the environment in which they are created. Shaklee is the first company in the world to be Climate Neutral Certified. This is supported by their partnership with a Nobel Peace Laureate, Wangari Maathai to help plant a billion trees around the world. Shaklee planted 5 trees for me when I became a Gold Ambassador. Has saved me countless trips to the Big Box to drag home huge containers of Detergent/Oven Cleaner (I list them together, because they contain the same toxins).

I could go on about the company and the products, and I would. I will be starting a series of meetings at the Church by the River in Carver, starting Thursday April 3rd at 7:30 pm to introduce Shaklee to you. I will be holding a tentative meeting schedule of the 1st and 3rd Thursday of each month through August. All are welcome. I will have special topics relating to the product lines and information on how you could begin a self-supporting life of health and wellness for you and your family. Here's to your health and your wealth!

Again, my name is Mary Williamson and I am a Distributor for Shaklee and a resident of Carver. Please contact me with any questions about the products, the company or for an in home consultation. Please visit my website anytime to learn more: www.shaklee.net/mary_andy_williamson (there are underscores between mary_andy_williamson) 952.454.5407

If you are curious about the ingredients and level of hazardousness of the products you currently use please visit an unaffiliated site: www.ewg.org , this is the Environmental Working Group website. Very interesting...

Compliments of WCCO TV.....

Good Question: Why is Easter so Early? Reported by Jason DeRusha

Did you know that Easter in 2008 is the earliest it has been since 1913? Good Friday snowstorm dropping lots and lots of snow in the Carver area. Christmas decorations in some places still up. Easter Sunday in a couple of days at the time of this writing. Certainly not very spring like huh? So why is Easter so early this year?

"Easter has a lot to do with the sun." said Farther Peter Laird, vice-rector of St Paul Seminary. Easter is considered a "movable feast" in the Christian religion. Its date is determined by several factors.

"It goes back to a whole problem of calendar dating, understanding the sun and when our Jewish brothers and sisters celebrate the Passover and you get the date for Easter." Laird said. "The earliest that Easter can be is March 22nd," he added, "The latest Easter can be is April 25th."

Easter falls on the first Sunday after the first full moon after the spring equinox. In the New Testament of the Bible, Jesus' death and resurrection occurred around the time of the Jewish Passover. That was celebrated on the first full moon following the vernal equinox.

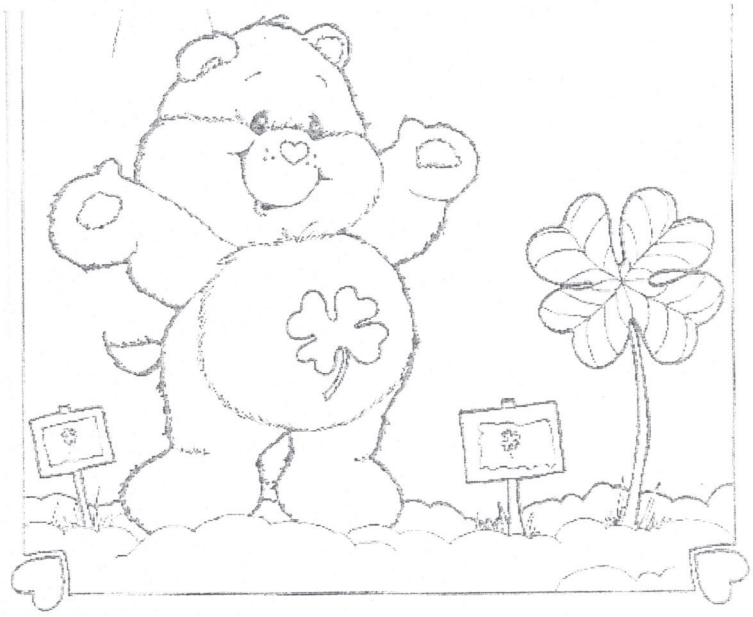

"That date goes back to actually, 325. In 325, a council got together called the Council of Nicea and they decided, wouldn't it be grate if all the Christians celebrate Easter on the same day as a sign of unity and fellowship with the Lord?" said Laird. "For Christians time isn't necessarily historical time." He added, "So Easter roughly lines up with the questions of Christ's suffering and death."

The next time Easter will fall this early will be in 2160, and a March 22nd Easter will not happen until the year 2285. Eastern Orthodox Christians celebrate Easter on April 27, 2008, because they operate on the Julian Calendar, where Western Christians use the Gregorian Calendar (which accounts for leap years).

"God is ultimately in control of time. Not us. In a way, if our lives are going to be truly full, part of that has to do with accounting for God's time in the busyness of our own time." said Laird.

.....

Now, I bet that was something many of us didn't have a clue? This author found it quite interesting and well worth sharing with all. Again, WCCO gets the full credit for the information.
