Volume XXVI
Number Two Hundred Forty Five
May / June 2008

Dedicated In Loving Memory of Father Elstan and Our Classmate, Irene Schmitz

Wellhead Protection Plan

The city council held a Public Hearing regarding the city's Part 2 Wellhead Protection Plan. The city planner gave the background on the plan. Copies of the plan were sent to reviewing agencies. The Department of Health comments were incorporated into the plan. Only other comments received were from the Metropolitan Council. The city planner gave a slide presentation on the plan. Abandoned wells and private wells still in use were discussed.

The Municipal Utilities Superintendent was asked about private wells not connected to the city municipal system. There was discussion regarding private wells and municipal utilities not available to those properties at this time. Question was also asked regarding water pumped that was not billed. That amount is at an acceptable nine percent.

Question was asked if an ordinance should be passed to register private wells in order to inspect. The Municipal Utilities Superintendent agreed with the idea, however, many homeowners were not aware that a well may be under a basement floor or a front porch. Could the superintendent inspect wells? His response was that his department could respond to wells being capped. What would be the objective of these inspections? The city could GPS the well, the superintendent responded. It was the city attorney's opinion that it may not be easy to implement private well inspections. The MN Department of Health stated that it was necessary to educate property owners. Motion was made and carried postponing action on the Wellhead Protection Plan.

Park and Recreation Board

The Park and Recreation Board Supervisor told the council that the Carver Youth Baseball/Softball Youth Association was thanked for their contribution for the card reader access system for this year and for their future pledge. The council was also told that she had thanked the Black Sox for teaching the Park and Recreation Baseball Skills Camp. The question was asked about response to the spring flyer. Ms Mock responded that she was of the opinion that the response was pretty good. The council inquired about the Sixth Street Trail. The Public Utilities Director and Ms Mock were working on resolutions to this issue. The entire section of the Sixth Street Trail required repairs.

Council inquired of Ms Mock's opinion of the 2030 Carver County Comprehensive Plan Review for the parks, trails and open spaces elements. Both Ms Mock and the city planner responded that there were problems with the plan that required revisions.

Christy's Bluff Addition

The developer for the Christy's Bluff Addition requested an extension on the preliminary plat approval. It was explained that the final engineering and design of this particular subdivision can not be completed until the Forner Lane is installed and the as-built information is available. The council discussed the reasoning for a long extension for completion of the project. The city planner explained the extenuating circumstances. Thanks were extended for communications regarding the delays in the project. Motion was made and carried with all ayes adopting the resolution to amend approval of the preliminary plat for single family lots and right-of-way on approximately ten plus acres for the development titled Christy's Bluff.

"The true meaning of life is to plant trees, under whose shade you do not expect to sit." Nelson Henderson

Highway #212 Updates

The construction firm working on the new Highway #212 was at the council meeting to update the council on upcoming plans. Mn Dot plans to route east and west bound traffic onto the new Highway #212 into the Carver area in July of 2008. At this time, the Zumbro River Constructors tentatively plan to construct the storm sewer and grade adjustments at the County Road #11 bridge. The grade adjustments at the Mt Hope Road site and the County Road #61 all require a shut down period for the connections to the new highway. The official detour will be directed onto County Road #40 through the town. These closures at the same time will allow one less closure to the public. Upon completion the public will have access to the new highway.

Refuge Partner Schools Family Event

The US Fish and Wildlife Services/MN Valley National Wildlife Refuge/*Refuge Partner* Schools Family Event was held May 17th. The staff of the Rapids Lake Education and Visitor Center showcased the East Union student creativity and learning. ***The Refuge Partner Schools Program*** provides teachers and students with multidisciplinary standard-based curriculum that includes hands-on, real-life experiences with plants and wildlife, and recreational opportunities throughout the seasons. The afternoon's events included ***Junior Duck Stamp Art Exhibition, East Union Student Photo Gallery,*** and ***Family Explorer Parks.*** These three programs are ongoing. The other two events held that day were the ***Artist's Corner*** and ***Wildflower field Notebook: Walk and Draw.***
If you are interested in learning more about this program, contact Suzanne Trapp at the Minnesota Valley National Wildlife Refuge Rapids Lake Education and Visitor Center at 952.361.4502.
The East Union Elementary School works in partnership with the MVNWR (Minnesota Valley National Wildlife Refuge) Rangers to provide service, learning opportunities to raise their awareness of their civic responsibility towards our environment.

Water Tower

The council discussed authorizing specialized welding and painting inspection services for the new water tower. The council was informed that they need to hire a firm for this service. This inspection includes inspection of the surface preparation, paint application and testing after application. The service also includes warranty inspection two years after completion.

The council was also informed that the existing water tower was constructed in 1986 and also requires repainting soon. Typically painting is done every twenty years. It was the staff's opinion that the work should be done when the new tower is in operation in 2009. Two proposals were obtained from qualified firms. Motion was made and carried with all ayes accepting the low bid contingent upon attorney review of the contracts.

Did You Know

....that in May 1871 Ferdinand Strache refitted his Carver House Hotel and opened it for a dinner and dance for 75 couples, who were entertained by the Watertown Brass Band. His hotel was later renamed the Temperance Hotel and stands yet today at the south end of Broadway in Carver.

....that in August 1897 the Steamboat *Henrietta* took 700-800 Modern Woodmen of America on an excursion from St. Paul to Carver's Riverside Park.

.....John von Walter

DownTown Sewer Improvements

The city engineer discussed with the council the Main Street Sanitary Sewer Alternate Update. He discussed and reviewed the risks associated with the tunneling of the twelve inch gravity sewer line to abandon the main lift station at Oak and Main. It was recommended that additional borings along the final tunnel route be taken to confirm soils information for aiding in the bidding process. These results of the borings raise concerns with the cost of the tunneling design. A draft of the reviewed costs and recommendations for the council was presented. These costs were updated to reflect the risks associated with the alternatives.

The council held a lengthy discussion on costs and problems encountered in this project. The elimination of gray water septic tanks was also discussed. A generator placed at the site of the lift station was questioned. The engineer reviewed the events at this location since 2005. Due to public input it was the opinion of the council member that the topic should be discussed again. A final decision would be required very soon the engineer pointed out. Costs of placement of the lift station at alternative sites were inquired about. The city attorney pointed out that the Metropolitan Council is anxious since the city has not proceeded forward yet. Motion was made and carried with three ayes and one nay to research costs of alternate sites for placement of the lift station.

The City Engineer presented a PowerPoint presentation regarding the downtown sewer improvements project for the council meeting Several alternate routes were evaluated and existing lift stations were reviewed in a slide presentation. The history for the lot purchased by the city for a proposed main lift station was also reviewed. Costs and terminology were questioned. Landscaping plans were not included in the plans, but could be.

Alternate #4 was questioned relating to the removal of asphalt, access replacement, definitions of 'overdepth', 'de-watering', relevancy of costs relating to the access route, trail and sod replacement and the relation to the Public Utilities Building and the Church By The River option. Question was asked regarding the proposal visual sight of the lift station proposed for the lot at 3rd Street East and Oak Street. The council was told that it would be similar to the other lift stations reviewed.

This improvement is the city's system to be connected with the Metropolitan Council interceptor. Question was asked if the lift station could be camouflaged and a different usage for the remainder of the lot. The mayor was of the opinion that the lot could be used for something else. Odors were discussed. Wind turbines could be utilized to disperse these odors. The costs would be the city's answered a question asked The lot in question was not in the historic district, therefore, the state historic preservation office would not become involved. One resident requested not placing a lift station on the corner of Oak and Third Street. A lift station was not compatible in the residential neighborhood. The neighborhood along with members of the Heritage Preservation Commission would like to see a house constructed on the lot. They mayor pointed out that the present lift station would be replaced with a new one.

Curb and gutter was discussed. During the discussion erosion of the river bank in RiverSide Park was also briefly discussed, along with the log jam. These two items had not gone unnoticed. Another citizen voiced their opinion that the lift station issue was a result of the development occurring. The engineer pointed out that the present system's capacity is decreasing and the system has to be upgraded. Property values decreasing was a fear of some neighborhood residents. Many residents preferred that the city consider placing the lift station at the Depot Park site. Placement in another location increased the cost. Suggestion was made that the lot could be sold to offset additional cost for a different site.

Comment was made regarding a couple of options that were similar to the original tunneling costs. The mayor commented that he understood people's reasoning of the lift station or a siren, or similar items in their front yards. The city had not received any complaints about any of the other lift stations in the city. The residents were assured that the city would do their best to construct the lift station in an unobtrusive area, landscaped and filtered for odors.

Did You Know

....that in July 1878 the Steamboat *Aunt Betsey*, operated by Capt. Costain, untiringly searched for the body of a boy who drowned in the Minnesota River. The *Aunt Betsey* regularly docked at the Carver levee. ..... John von Walter

DownTown Sewer Improvements continued from Column 1....

Question was asked if two alternates could be bid for contractors. The engineer stated that the two plans would have to engineered, thereby adding extra expenses to the project. Original schedule was to have the plans and specifications ready for the June meeting, another set of plans and specifications would add an additional two or more weeks. Time was running out with the Metropolitan Council. The council held a lengthy discussion on the placement of the lift station.

Motion was made and carried with three ayes and one nay to approve the placement of the main lift station on the vacant lot of Oak and Third Street East, budget for screen and within sixty days schedule to eradicate septic tanks in the area.

Archery Range

Park and Recreation Supervisor, Ms Mock was at the council meeting to discuss adopting the ordinance amending the ordinance relating to weapons. An amendment is necessary to allow the use of bows and arrows in RiverSide Park with the addition of an Archery Range. This will be an area where permits will not be required within city limits. The Archery Range was approved by the Park and Recreation Board and the city council. The existing ordinance and proposed amendments were discussed. Motion was made and carried with all ayes looking at the Weapons Ordinance removing the terms, "Firearms and Shot Guns". Motion was made and carried with all ayes adopting the ordinance amending the chapter of the ordinances relating to weapons.

Water Tower

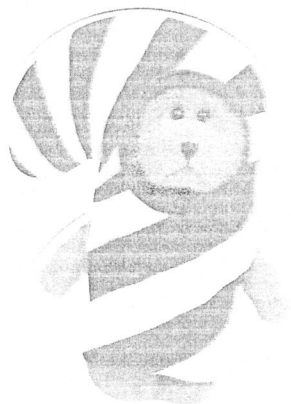

The council discussed authorizing specialized welding and painting inspection services for the new water tower. The council was informed that they need to hire a firm for this service. This inspection includes inspection of the surface preparation, paint application and testing after application. The service also includes warranty inspection two years after completion.

The council was also informed that the existing water tower was constructed in 1986 and also requires repainting soon. Typically painting is done every twenty years. It was the staff's opinion that the work should be done when the new tower is in operation in 2009. Two proposals were obtained from qualified firms. Motion was made and carried with all ayes accepting the low bid contingent upon attorney review of the contracts.

Tentative Agenda

City of Carver Council
Monday Evening 6:30 PM

1) Call to Order
2) Pledge of Allegiance
3) Approve Agenda
4) Petitions and Requests
5) Consent Agenda
6) Municipal Utilities Report
7) Building Inspector Report
8) City Planner Report
9) City Engineer Report
10) City Attorney Report
11) Administrator Report
12) Liaison Reports
13) Other Business
14) Adjourn

Strategic Planning Session

The council held a Strategic Planning Session naming the event a Planning Retreat. The council members, public works, municipal utilities personnel, city attorney, building official planner, city administrator, park and recreation supervisor, the fire chief, the city clerk and the school district's superintendent facilitated the meeting. Introductions and job descriptions were exchanged. The assembly held a lengthy discussion on their opinions of goals to be achieved in five years and how to attain those goals. The group made decisions choosing some goals, assignments were distributed and decision was made to find ways of reaching those goals. The district's superintendent volunteered to organize and forward notes. Tentative scheduling of an Open Forum for June was questioned.

Well Number # Four

The city engineer reported to the council that Well Number # 4 would be used on a temporary basis until a new pump house was constructed. In order to protect the well, pumps and other items on site, recommendation was made to construct a temporary chain link fence with gate at the water tower site. A quote had been obtained. Motion was made and carried with all ayes approving the change order for a filtration system and temporary fencing.

The council was also updated regarding the discharge route of Well Number #4 test pumping water, requiring adjustment from decision of last fall. The council was also told that the county is requiring that the discharge water needs to be treated to meet turbidity requirements. Costs and options were discussed and the city engineer recommended option number four. Motion was made and carried with all ayes accepting routing option number four utilizing property for detention settling and the staff is to implement said option.

Carver Youth Baseball / Softball Youth Association

We have had a great year for registrations. With over 240 youths signing up, we have 20 teams representing Carver. Our newest leap is to get Boys Youth Baseball teams back into a Carver Lions sponsored team. In the last 2 years we started with boys forming our Coach Pitch teams in 1st and 2nd grades . This year we made the next stepping stone by having a baseball team in the 3rd and 4th grades. The 3rd and 4th grade boys' baseball will be playing in the Minnesota Valley League against Jordan, New Prague, Montgomery and maybe Belle Plaine. Come and watch both of the boys teams play on Tuesday and Thursday nights at the Community fields in Carver.
We have grown to 8 teams in T-Ball. Our T-Ball program also plays at 6 PM and 7:15 PM at the Carver Community Fields on Tuesdays and Thursdays.
Girls softball schedule: Our girls' teams for Grades 1st and 2nd play at Lions Park on Tuesday and Thursdays. Most Monday and Wednesday's you will find grades 3rd thru High School playing most of their home games at the community fields with some at Lions Park and Bluff Creek fields. Yes we do have a very exciting group of youths playing in Carver.

We would like to thank the Carver Lions for all their support with out teams. With this many teams we also have many volunteers that keep our program running. Come and support them and enjoy some Softball and Baseball along the way.
Jane C Thon, CCYBSA President

Carver Car Cruise Event

Submitted: Linda Schutz
Come downtown Carver and check out that classic car you always dreamed about. The Carver Car Cruise is the place to be on the 2nd Wednesday of each month - May through August from 6-9pm - on Broadway, downtown. June's scheduled day is the 11th. See ya' there.

Open Air Market

Submitted by: Suzanne Thiesfeld
A variety of vendors ranging from vintage items to jewelry to locally made artistic crafts were at the Open Air Market on May 17th. Visitors and vendors alike were treated to a wonderful new music group called "Identity". Yvette Nelson lead the soft rock band with her beautiful voice singing her own arrangements. So if you missed the Carver Village Open Air Market in May you can catch it on Saturday September 20th. There'll be more vendors and "Identity" will be back to entertain all of us. If you would like to be a vendor at the Open Air Market, visit www.carverbusiness.org for all the information. Or call Suzanne at 952-292-8479.

Carver Business Group

The Carver Business Group is an organization of business owners who sponsor community events. With your help the group is fostering awareness of Carver, Minnesota's historical downtown. Event proceeds go to fund historical downtown Carver projects. You will find a Carver Business Directory Listing at the website of the Carver Business Group (www.carverbusiness.org). If you have questions, wish to be involved you can contact them via e-mail at : events@carverbusiness.org. You can use traditional means via the post office at Mustard Moon, PO Box #242, Carver Mn 55315.

Reminder -MVEC's Member Appreciation Event

Reminder: to MN Valley Electric Co-operative customers. Members are invited to the Annual Appreciation Day and Annual Meeting. It is scheduled for June 18th at the Scott County Fairgrounds from 5 PM until 8:30 PM. There is registration, dinner, activities and the business meeting. There will be bucket truck rides, moon walk and slide, old-time music, pony rides, petting zoo and lots and lots of fun and food.

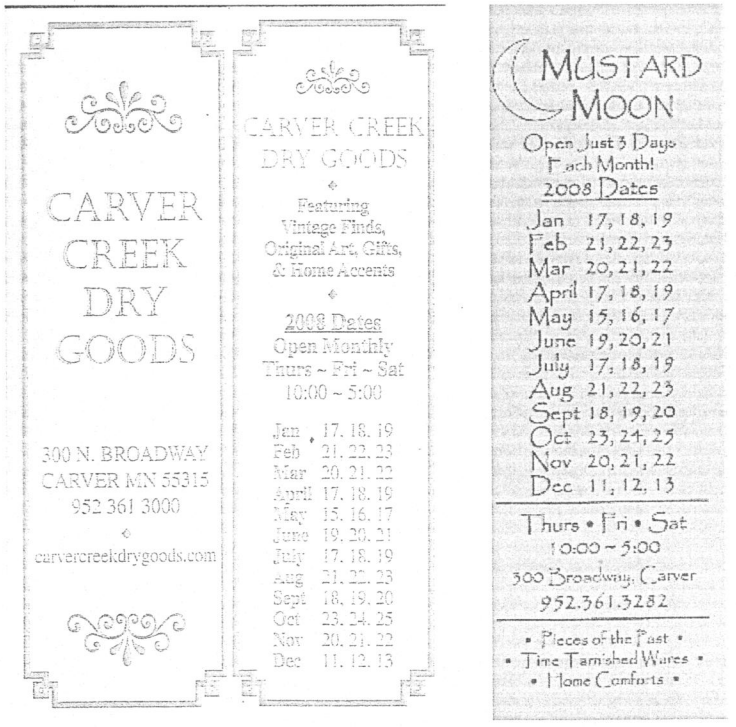

RiverSide Rhapsody

"A Community Coming Together"! Best of All: It's easy: parking is available at the park and within walking distance from downtown. It's Free! The concerts are absolutely FREE! It's an event for all ages. Bring the kids...or come without them. It's a great gathering! Join your neighbors, friends, and family. It's great food! Made available by the Carver Lions Club. Coolers are welcome, no hard liquor or glass bottles. (PS: What you Pack IN – Please PACK OUT TOO) It's something different! A variety of featured music.
RiverSide Rhapsody is a Music Festival at RiverSide Park in Carver on Wednesday evenings scheduled throughout June, the 11th, the 18th and the 25th at 6 PM until 8 PM. In the event of inclement weather, the music festival will be held in the Village Hall.

Stormwater Ponds

Did you know that storm water ponds are an important part of the City system of pipes, gutters, and ditches that keep our homes and roads from flooding? Not only do they hold water that would otherwise be in our streets, yards, and homes, but they also provide valuable water treatment and groundwater recharge. Some storm water ponds can mimic natural wetlands, providing habitat for numerous plants and animals. The City of Carver owns and maintains several storm water ponds throughout its jurisdiction. Here is a list of things you can do to help keep the storm water ponds working properly:

1. Don't dump grass clippings, leaves and other organic debris in or around the pond.
2. Keep a natural vegetative buffer between the water and your lawn. Buffers provide a natural filter to capture fertilizer and other nutrients that cause pond water to turn green and impair downstream wetlands, creeks, and Minnesota River.
3. Notify City hall if you see any evidence of improper disposal of litter, chemicals, or other waste products that have entered or have the potential to enter the storm water pond system.
4. Notify City hall @ 952-448-5353 if storm water pond outlets are plugged or in need of maintenance. Spring runoff often causes debris to build up at the outlet increasing the risk of flooding.

Upcoming Road Closures and Detours

Various construction projects in Carver and the surrounding area will begin soon that will affect travel routes for residents of Carver. The projects are as follows:

MNDOT Project - New TH 212 (Go to www.dot.state.mn.us; 212 Project Updates)

1. CSAH 11 (formerly CR 147): Closure from Existing TH 212 to north of Spring Creek Drive
   Construction Date: 1 month from early July 2008 to early August 2008
   Description of Work: MNDOT will open new TH 212 to the Carver area but there will be no access to south bound CSAH 11. Utilities will be placed, southerly entrance ramps constructed, and CSAH 11 will be built up to match the new bridge under construction.
   Traffic: Detour via CSAH 40 and 43

2. Mount Hope Road: Closure from Forner Lane to Existing TH 212 and CR 61
   Construction Date: 1 month from early July 2008 to early August 2008
   Description of Work: MNDOT will open new TH 212 to the Carver area but there will be no access to Mount Hope Road via existing TH 212 or CR 61. Utilities will be placed and Mount Hope Road will be built up to match into the new connection to CR 61.
   Traffic: Detour via CSAH 40 and 43

3. County Road 61: Closure from CSAH 11 to Mount Hope Road
   Construction Date: 1 month from early July 2008 to early August 2008
   Description of Work: MNDOT will open new TH 212 to the Carver area but there will be no access to CR 61. Bridge Panels will be placed at that time.
   Traffic: Detour via CSAH 40 and 43

City Projects (Carver)

4. Interceptor Project: Closure of CSAH 40 from CSAH 11 to 6th Street East, Main Street from Hickory to Railroad, Oak Street from Main to 4th, 3rd Street from Broadway to Railroad, 4th Street from Broadway to Lime.
   Construction Date: Various Closures from August 2008 through 2009
   Description of Work: The City and MCES will be placing a new sanitary sewer interceptor system from the existing wastewater plant to the baseball fields in Chaska. Various street and other utility improvements will be done in conjunction with this project.
   Traffic: Detour via CSAH 11

City Projects (Chaska)

5. CR 140 Signals and existing TH 212: Closure of existing TH 212 from Creek Road to new CR 61 Connection
   Construction Date: August 2008
   Description of Work: Part of the MNDOT's 2007 Mill/Overlay project of existing TH 212 was delayed until 2008 to avoid further access issues to Carver. The overlay project was added to Chaska's signal project to be done once new TH 212 and CSAH 11 are open to traffic. Guardrail work will also be done.
   Traffic: Detour to new TH 212 and CSAH 11

Carver County Projects

6. CSAH 40 Mill/Overlay: CSAH 52 to Mount Carmel Road
   Construction Date: Summer 2008
   Description of Work: Mill and Overlay
   Traffic: Traffic Delays, Single Lane Closures

Carver Lions

The Lions are busy with all their business. Remember, if you are interested, stop in and check them out the first Wednesday night of the month. If memory serves me right, they only meet once a month during the summer. In case, I am wrong, check and see if they are meeting the third Wednesday too. Go and check it out. You might like what you see and experience.

Summer with Funky Minds Nonprofit

Funky Minds and all of our friends wish to thank the following organizations for their partnership during the last school year: District 112 Community Education, Americorps, Early Childhood Family Education, Chaska Library, Auburn Village, and Carver Park and Recreation. You brought your gifts into our downtown to offer great programming for Carver neighbors and beyond. Thank you!

Gather your neighbors and join *Funky Minds* for summer fun! On Monday mornings we will meet for Park and Play at Carver Community Park off of HWY 147. On Thursday mornings we will meet at Funky Minds downtown. In the event of rain, we open the gym downtown if it is available.

June Schedule

Mondays 10-12:
9th Bubble Bonanza, 16th Music Play with local teacher Janet Cruse, 23rd Art: Chalk it Up, 30th Independence Day Crafts

Thursdays 10-12:
12th Annual Tie Dye Party (Bring a cotton T-shirt), 19th Carver Candy Land (Bring a piece of cardboard for a base. We're going to build Carver out of old candy. Glue gun if you choose.) 26th Faces of *Funky Minds* (Paint a self-portrait. All ages, please.)

More events will be announced. Join the EMAIL LIST for the latest updates by emailing funkyminds@gmail.com. Or, pick up a calendar from the faux mailbox near the *Funky Minds* entrance.

Because of the creative efforts of community volunteers, all programming at Funky Minds is free and open to the public. All ages are encouraged to attend. Funky Minds is a nonprofit organization dedicated to building community by facilitating relationships between businesses, faith-based organizations, governmental agencies, educational institutions, community based organizations, and individuals. Contact: Anna Edlund, 952-448-2932

Post Office Remodeling Update

The Postmaster extends her gratitude for everyone's patience while the remodeling continues in the lobby of the Carver Post Office. Apologies for the inconvenience are extended. What does this mean for the public? After 4PM daily until completion, the main doors will be locked and access will not be allowed in the lobby. The postmaster will be in the building from 6 AM to 4 PM while the construction is taking place. If there is special needs or concerns, contact Peg at 952.448.6363.

Another Little Addition

Ben Pitchford and Andrea Kuhn announce The birth of their firstborn, a daughter, Breauna Marie. She arrived on May 13th at 6:58 AM weighing in at 8 lbs 11 ozs and 21" long. She was born in Westfield Hospital innNew Richmond, Wisconsin. Now why in the world, you ask, would you care about this. Well, because this is My Best Friend's third grandaughter and fifth grandchild. (Even though I normally don't do this.) There are people locally who know Grandma and Grandpa who used to hang their hats in the area. (Humor me)
Congratulations to all of you! We send Our love to John, Sandy, Wayne, Michelle, Hailey, Hunter, Lee, Chris, Cody, Taylor, Ben, Andrea and Breauna!!

Carver Fun Run Results

Waiting on report of the event. Will print update in next issue. Apologize for not requesting information sooner prior to printing schedule.

RiverSide Park Archery Range

Announcement!!!!! The NEW RiverSide Park Archery Range is now open! Completion was on the 27th of May. This archery range was built in part from the DNR Grant Funds and the City of Carver. The park is open to the public from sunrise to sunset and is free of charge. Enjoy! Be Responsible! Be Respectful! Have fun!

East Union's 150th Anniversary Celebration

The East Union Church has some big plans upcoming at the end of June. There will be ghosts coming to visit and talk to people and help celebrate their 150th Anniversary. You did know, that the East Union Church is famous don't you? It's the site where the founding of a famous college had it's beginnings? Which one? Well the Gustavus Adolphus College!

So, if you didn't know this, you really should mark your calendars to come and hear what those famous ghosts have to tell you about the history. One of the ghosts told me that there will be Cemetery Ghosts Tours on Saturday night, June 28th from 6 PM to 8 PM. The Ghost ours will center around the early families, who their families were and trace their roots down through history to the present day. For instance, Anders Olson, one of the ghosts is being portrayed by his great, great great gandson, Ron Olson. Several other ghosts have current family members representing them to tell us how any of those embers are buried in the cemetery. The ghosts will also be dressed in period attire. A Civil War veteran is on the guest list to share history. These period guests will tell stories about pioneer life in Minnesota during the 1850's. It was said that Eric Norelius took a steamboat to Carver, walked to East Union and preached to a minister-starved community in May of 1857. That was his first trip. He was also one of the founding fathers of the St Ansgar's Academy to later be known as the Gustavus Adolphus College in St Peter.

Then on Sunday, at 10 AM Bishop Craig Johnson, ELCA Minneapolis Area Synod, and student of Eric Norelius will be giving the sermon much like his predecessor. Former pastors will also be in attendance. The guest organist will be Dr David Fienen of Gustavus Adolphus and special music by Barry Fox Brass Ensemble. Not an event to be missed is my guess.

Then after the service the festivities continue with even more excitement. The hall is to be adorned with historic memorabilia. The community will have commemorative items available for purchase. There will be a panoramic photo taken of membership which is done every fifty years and this will be only the third time it is done. There will be live bluegrass music by the Haining Family. There will be confirmation class reunions, a roving photographer, and a 150th anniversary book for sale with more of the church history.
A catered dinner on the church grounds is planned. The date for the dinner is Sunday, June 29th and scheduled to begin at 11:30 AM. There will be a free-will offering for dinner, but request is made that reservations be made so as the caterers know how many to expect. RSVP's and registrations are requested by June 15th. (contact the parish office at 952.448.3450)

Also, as a footnote, if you are interested in researching the geneology of your family history in connection with the East Union Lutheran Church, you are asked to please contact the Parish Office at 952.448.3450. The editor of this newsletter for one cannot wait to witness this experience. And yes, it's true, my roots run deeper than you know in this area. I don't normally name drop, but for this one, I am going to. I am a descendent of Eric Norelius on my mother's, mother's side of the family. That's right, I am part Swedish. Isn't that a shock? See you all there.

Lisa's Place

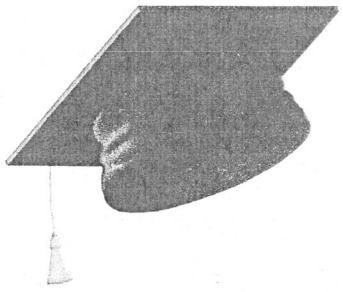

Just for clarification....Lisa's hours were incorrect on the business card posted in last month's issue. If you are looking for something to eat, the grill hours at Lisa's are Sunday through Thursday starting and 10 AM and shutting down at 10 PM. Now if you are hungry on the weekends, you can get something to eat on Friday and Saturday night until midnight.
Looking for a cool drink, Sunday through Thursday, you can find one as early as 10 AM and as late as midnight. Friday and Saturday nights you can find refreshments until 2 AM. Apologies are extended Lisa for the wrong hours. Hope this helps clear things up for everyone!

Did You Know

....that in March 1927 the Steamboat *Spencerbox* came to the surface after 71 years in the Minnesota River. It was wrecked in November, 1855, about a mile from Carver.....that in May 1871 Carver founder Axel Jorgenson had lumber on the ground to build a jewelry and silversmith business in Shakopee.

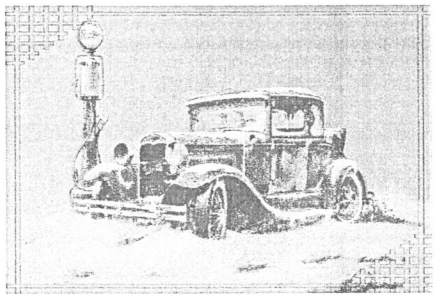

Carver Fire Department Highlights and Community Calendar — June 2008

June 2nd - Council Meeting
Happy Anniversary Kerry & Kathy!
