Work Session

The council was updated at a work session on projections for dealing with the loss of LGA (Local Government Aid) and the economy.

Fire Department equipment crucially needing attention, unable to be put off was asked about. The Chief responded that the gear needed attention.

The council discussed different project costs and some may need to stalled unless some state stimulus funds are received.

Eagle Scout Project

The council reviewed the presentation or approval of an Eagle Scout Project request to install bat houses in the city parks. The Park and Recreation Board supervisor introduced Nick Gestach who is working on a badge for the Scouts and would like to build and install bat houses. He asked permission to put up twelve bat houses in various city parks. The Park and Recreation Board recommended approval. Motion was made and carried with all ayes approving the Eagle Scout Project.

Did You Know

....that in 1878 Jacob Honer, nicknamed the Pottery Man, opened a saloon on Broadway in Carver.

Orderly Annexation Agreement

The City of Carver and the Dahlgren Township Board held a joint meeting to review the Orderly Annexation Agreement. A Public Hearing was also held. The City of Carver Planner gave a power point presentation on the agreement between the two government units. She explained that an Orderly Annexation Agreement defines how, when and what property can be annexed by the City. Statement was also made that there was not any property presently being annexed.
The Carver city attorney stated that his involvement has been since the beginning of the development of this agreement. He also gave a brief history of the process going back to 2005. The City of Carver has also just completed their 2030 Comprehensive Plan.
The Township attorney stated that both attorneys were present at the joint meeting to answer questions. He also stated that the agreement being discussed does not change any township property owners' rights, but allows some property owners to petition for annexation. Further explanation was given that in the situation of a subdivision with some property owners requesting annexation, the majority rules for the entire subdivision on the issue of annexation. The entire subdivision would be annexed, not split up.
Citizens asked questions. Annexation zoning issue clarifications was asked for. The City of Victoria Mayor presented a letter regarding the city's position on the Orderly Annexation discussion requesting that the City of Victoria be included in the agreement. The mayor further explained that two sections of Dahlgren Township were extremely important areas to the city. Proposal was submitted that both the City of Victoria and Chaska be included in discussions concerning the designated areas. It was inconclusive whether or not these two sections were included in the Comprehensive Plan for the City of Carver. It was a citizen's opinion that one area being discussed would be included with the City of Chaska.
Another citizen in another area of Dahlgren Township explained that they did not understand how this process of discussion had progressed to the point it had without residents involved being informed of this process. Another owner stated there were questions and were of the opinion that communications were poor. The City Administrator for the City of Chaska stated that a letter had been forwarded regarding a parcel in Section #1 and that particular piece was not part of the agreement. Tollefson Development commended the board and the council of Carver for their work on the agreement.
Another citizen asked why the annexation area went west of County #43. The Carver city planner responded that it is due to the MNDot study of Highway 23 corridor and future negotiations. The township's attorney added that the decision to add this portion was made by the township. Question was then asked about what if the City of Victoria had offered a better solution. The township board member explained that it only had been recently learned that the City of Victoria was interested in the area. It was further pointed out that the agreement expires on December 31st, 2030 and at that time the agreement could be renegotiated or left as is. Another board member pointed out that he had been on the board for a year and this was his first time hearing of Victoria's interest in township property. It was also pointed out that this is only a plan and could be many years before anything becomes of this. Motion was made and carried with all ayes adopting the orderly annexation agreement by the Dahlgren Township Board. Motion was made and carried by the City of Carver council with all ayes adopting the Orderly Annexation Agreement.

Municipal Utilities

The Municipal Utilities Supervisor stated that it was his hope that the Metropolitan Council project proceeds on schedule. He has been watching the main lift station and how often it stops and starts during the day. It is overworked. There have been many repairs to the lift station over the past four to six years. The control panels are very out dated. Work on the new lift station is scheduled to begin in about two years. Question was asked what would happen if the Metropolitan Council were delayed. The engineer stated that he had not heard of any delays. The cost to replace the control panel was estimated to be approximately ten to fifteen thousand dollars. One council member thought that it might be wise to have a contingency plan. Another council member inquired about chlorine levels and reducing those levels. Those levels could be lowered the council was told.

Subdivision Issues

A council member reported concerns to the council regarding open basements and missing garage doors, giving the aura of a dangerous situation. The building official stated that work was being done on siding, windows and brick. A small contractor is doing the work and the progress is slow. It was the opinion of a council member that open areas were more of a concern than siding. It was the consensus of members that buildings should give the assurance of safety not prettiness. The city attorney would be notified.

A variance request was asked about involving property owners constructing a shed, involving issues for both bluff set back and the intended building use.

Fourth Street Bridge

A structural engineer from Bonestroo was introduced to the council. The structural engineer worked with the county evaluating bridges in Carver over the past winter. The council reviewed the inspection summary on the bridge on Fourth Street. The bridge is not in that much disrepair, except for one wing wall the council was told. The cracking in the roadway means that the new wingwall is settling. The engineer was told that the council had major concerns and asked about when the bridge should be replaced. The structural engineer stated that he would check the bridge in spring. Question was asked about closing the bridge for the spring thaw. The engineer responded that if it were not a major inconvenience it could be closed, but he did recommend that the north side be closed . The south sidewalk would be usable. Financial assistance for bridge repairs was asked about. The engineer stated that all three bridges had been put on the list for the stimulus projects. Suggestion was also made to attempt to get bridge bond funding. Before the city can get on this list plans are necessary. Plan cost were estimated to be about thirty to forty thousand dollars. The Public Works Director would continue to keep a watchful eye on the bridge. The council also discussed weight limits on the bridge.

Metropolitan Council Environmental Services

The city engineer explained that the Metropolitan Council Environmental Services used a prequalification process on their projects. The contractors submit pre-qualification submittal documents, which are evaluated based on prequalification criteria for the project. Pre-qualified contractors' bids are only accepted. These prequalifications are due on March 26th. Motion was made and carried with all ayes approving the pre-qualification submittal documents and authorizing the issuance of the invitation to publish information in the construction bulletin and the Chaska Herald.

The Card Club will be gathering to play cards, games and conversation on Wednesday, April 8th, 2009 at 1 PM and have a good time until 4 PM in the lower level of the Village Hall, hosted by Evelyn Grimm. ....that in 1878 Nick Schoenborn opened a barber shop in the Planter's House Hotel, which once stood on Broadway in Carver on the site of the present day Gazebo Park.

School Transfer Requests

The East Union School newspaper announces that "School Transfer Requests" will be accepted beginning May 4th 2009.
District 112 elementary schools will begin accepting applications for transfers to schools within the District. Parents seeking to transfer students may pick up a form from their school office and see that it reaches the office of the accepting school. According to District transfer policies:

District 112 does not provide transportation to students who transfer to a District elementary outside their attendance area; parents must arrange transportation. Principals have the authority to accept or reject transfer applications based on whether the accepting school has adequate space and staff to serve additional children Principals notify parents of the status of their transfer request on August 1. The summer notification date allows principals to consider the number of summer enrollees as they determine whether a grade level can accommodate additional students. If you'd like more information regarding transfers between schools in District 112, please contact your school principal.

RYS Creations

RYS Creations will be conducting business as an administrative assistant doing the work that managers choose not to do, nor have the expenditures to hire a full-time office person, but need the administrative paperwork completed. 'Administrative Assistants' replaced 'secretaries'. Along with this title change came job responsibility changes, as well. Many companies are beginning to out-source this work, saving money. Thus is an introduction to the concept for the futuristic-minded management personnel who require to have their office work completed, but don't have enough work to justify a part or full-time individual. Or if you have special needs, need the expertise of an administrative assistant? Give me a call at 952 . 448 . 5126. I have different packages, different programs, and set up to coincide with your specific needs at reasonable costs. I have more than thirty seven years' experience in the office environment and am very good at what I do. Give me a call and we'll get your office work in order and save you money and time.

Having trouble composing letters, memos, reports? Want someone to calculate employee timecards? Looking for an individual to straighten out your filing needs? Many of those time consuming tasks can be done cost effectively and save you time. Need a plan created, need a project researched, need a business plan or card? Give me a call and we'll talk. Incidentally, I am also a public notary. So in case on a weekend, or maybe on an evening, you have a legal document you need to get notarized. The banks, businesses are all closed. Can't wait. Need it now. I can help you out with that too in the evening or on the weekend. Look forward to hearing from you. References are also available.

The Price of Children

Here is something absolutely positive for a change. I have repeatedly seen the breakdown of the cost of raising a child, but this is the first time I have seen the rewards listed this way.

The government recently calculated the cost of raising a child from birth to 18 and came up with $160,140.00 for a middle income family. Talk about price shock! And that doesn't even touch college tuition. But $160,140.00 isn't so bad if you break it down. It translates into:

$8,896.66 a year
$741.38 a month
$171.08 a week
A mere $24.24 a day
Just over a dollar an hour

Still, you might think the best financial advice is - don't have children if you want to be 'rich.' Actually, it is just the opposite.

What you get for your $160,140.00 is:
Naming rights - first, middle, and last
Glimpses of God every day
Giggles under the covers every night
More love than your heart can hold
Butterfly kisses and Velcro hugs
Endless wonder over rocks, ants, clouds, puppies and warm cookies
A hand to hold usually covered with jelly or chocolate
A partner for blowing bubbles and flying kites
Someone to laugh yourself silly with, no matter what the boss said or how your stocks performed that day

For $160,140.00 you never have to grow up.

You get to:
finger-paint, carve pumpkins, play hide-and-seek, catch lightning bugs, never stop believing in Santa Claus.

You have an excuse to:
keep reading the Adventures of Piglet and Pooh, watch Saturday morning cartoons, go to Disney movies, wish on stars.

You get to frame rainbows, hearts, and flowers under refrigerator magnets and collect spray painted noodle wreaths for Christmas, hand prints set in clay for Mother's Day, and cards with backward letters for Father's Day.

For a mere $24.24 a day, there is no greater bang for your buck. You get to be a hero just for: retrieving a Frisbee off the garage roof, taking the training wheels off a bike, removing a splinter, filling a wading pool, coaxing a wad of gum out of bangs, coaching a team that never wins but always gets treated to ice cream regardless.

You get a front row seat in history to witness the:
First step
First word
First bra
First date
First time behind the wheel.

You get to be immortal. You get another branch added to your family tree, and if you're lucky, a long list of limbs in your obituary called grandchildren and great grandchildren. You get an education in psychology, nursing, criminal justice, communications, and human sexuality that no college can match.

In the eyes of a child, you rank right up there under God. You have all the power to heal a boo-boo, scare away the monsters under the bed, patch a broken heart, police a slumber party, ground them forever, and love them without limits, so one day they will, like you, love without counting the cost. That is quite a deal for the price.

Love & enjoy your children and grandchildren & great grandchildren.
It's the best investment you'll ever make!

Carver / Chaska Agreement

The City of Carver regretfully has to inform residents that due to the present economic situation, it unfortunate that the City is unable to continue to subsidize the agreement between Chaska and Carver allowing Carver residents to receive discounted rates from Chaska Parks and Recreation. These difficult economic times does not allow for the City to maintain this agreement and the costs associated with it. Beginning April 6, 2009, Carver residents will be required to pay the non-resident rates at the Community Center and Golf Course. Residents will now also be required to pay non-resident fees for Chaska programs. We would like to thank Chaska for having participated in this agreement and the past opportunities associated with it.

The City of Chaska is offering Carver residents another chance to continue their Chaska Community Center Membership at the current discounted rates. Carver residents have from March 23rd through April 5th , 2009 to take advantage of this opportunity.
